ORDERS RECEIVED FOR
JONES' PATENT COTTON GIN,
By the Patentee, No. 41 Magazine street, New Orleans.
TO BE MANUFACTURED IN NEW YORK BY
ROBERT HOE & CO.

SCALE OF PRICES—Double Gins.

For a middle Gin of 80 saws or more on each cylinder, making 160 saws in the stand, with feeders, bands, &c. at $6 per saw, or	$960 00
For a Double Gin of 60 saws in each cylinder, 120 saws in the stand, feeders, &c. a $6 per saw, or	720 00
For do. of 40 saws on do. or 80 saws in a stand, at $6 25 per saw, or	500 00
For do. of 20 saws on do. or 40 saws in a stand, at $6.50 per saw, or	260 00

SINGLE GINS.

For a single gin of 80 saws or more, with one set of feeders, bands, &c. at $6 per saw,	$480 00
For do. of 60 saws, with feeders, &c. at $6 50 per saw,	390 00
For do. of 40 saws, with feeders, &c. at $6 75 per saw,	300 00
For do. of 20 saws, with feeders, &c. at $7 50 per saw,	150 00

Extra teeth where desired, for feeders, supplied a 40 cents each; the no. of teeth being about equal to the number of saws. One set of feeders, it is considered, will wear out two or three sets of saws. Extra saws supplied at 80 cents each.

The Gins ordered, will be delivered to the agents of planters in any of the sea port towns of the cotton planting States, at the above prices, the agents paying the freight as the same from New York, and becoming responsible for the amount of the Gin. A Gin wright will be sent with the Gins to put them up where desired, the charges for whose services will be extra but moderate.

Iron running gear can also be ordered where desired, on reasonable terms, but will be charge extra. Horse power, of any description, can be furnished on like terms. Small steam engines can also be ordered if desired.

It is desirable, when planters give orders for Gins, they should accompany them with their views in regard to the arrangement of saws, breasts, bushes, &c. It is found they differ in opinion. Some desire saws of larger diameter than others. The most common size is 9 or 10 inches; at some wish them 12 inches. Some wish saws with 8 and 9 teeth to the inch, while others want 10 or 11. With so much discrepancy, we prefer they should, at the time of giving orders, furnish a statement of their wishes, and the manufacturers can fulfil them in every particular. Where it is left to our discretion, we shall make them on the most modern and approved plan. A order can be executed, from the time it is received, or to give less saws in any of the following sizes, in the space of eight or nine weeks, and the Gin in that time placed in the hands of the factor. To be in time for the next crop, all orders ought to be in the hands of the manufacturers by the first or middle of May; except for plantations where they are late in commencing to pick or gin cotton.

N. B. The Patent Right, for any one of the cotton growing States, will be sold on reasonable terms.
