Kentucky, North and South Carolina, and Virginia and Canada. The blow was struck a little too soon. The passing of the train (Phelps's on Sunday night) did the work against us—that killed us. I should not have let it pass. But I only regret I have failed in my designs, but I have no apologies to make or concessions to ask now. Had we succeeded, when our arms and funds were exhausted by an increased army, contributions would have been levied on the slaveholders and their property appropriated to defray expenses and carry on the war of freedom. SEWING MACHINES

THE PERFECTION OF SCIENTIFIC arrangement and mechanical simplicity is attained by the

GROVER & BAKER
Sewing Machine Company,
IN THEIR IMPROVED
NOISELESS MACHINES.

They have the following advantages over all others: They have no pads to keep in order; no bobbins to wind; no tangling or waste of thread; no oiling the thread or work; no tool chest stocked with wrenches, pliers, pickers, leather, &c., &c.

The directions are simple, easily understood and easily explained by the instructors. There is no taking apart for cleaning or oiling. They require about ten drops of oil per day, when in constant use. They make no more noise than a common clock, when making fifteen hundred stitches per minute. They run easy—a child of ten years old can work them to full speed. They run fast or slow, without any danger of altering the length or tightness of the stitch. They will HEM, FILL, GATHER, BIND, STITCH AND EMBROIDER, in so superior a manner that we challenge comparison.—The same Machine will sew pavilion gauze and plantation goods. The seam is elastic as the most elastic fabric, and will not break in washing or ironing. The same Machine runs silk, linen thread and common spool cotton, with equal facility. The needles are shorter, and therefore stronger than any other high or low priced Machine. That they are superior to all others is evident from the fact of their having been thirty thousand Machines made and sold, in competition with others already in successful operation. The question is no longer which is the best maker, but which of the numerous patterns of GROVER & BAKER shall I take.

PRICES, $50 TO $130.
