ABERNETHY'S DYSPEPTIC ELIXIR.

Dr. Abernethy, the celebrated English surgeon was of opinion that the stomachs of the diseases that afflict mankind originate in the stomach. This Elixir was used by him with the most unparalleled success, in his private and public practice for upwards of forty years, for the removal of the following diseases:

Loss of appetite, Flatulency, Distention of the Stomach, Pain in the side, Heaviness of the Head and inclination to sleep, Irregularity of the Bowels, and in all cases where Indigestion or a costive habit is found to exist.

This medicine cannot be numbered among the host of quack nostrums now before the public, as it is the sole invention of the robust and most scientific surgeon Europe ever produced, and the secret of preparing it was purchased by the agent of the undersigned. Its agency in all physical ailments, while it is a mild aperient, always keeps the bowels free, imparts vigor and strength to the system, an appetite to the mind, and a new life to every faculty of the body. It cured cases of Dyspepsia or Indigestion, and provides a return at any future period.

New York, 12th August, 1836.

Gentlemen—

SIR—In consequence of leading a sedentary life, I have been troubled, more or less, with Indigestion for ten years; for the last two years my sufferings have been insupportable. I have tried several physicians, and a number of quack medicines, without derriving any benefit. I despaired of ever obtaining any permanent relief, and resigned myself to the most hopeless despair. I was persuaded by many friends to try Abernethy's Dyspeptic Elixir. I have now finished the fourth bottle, and know not how to express my sense of its wonderful virtues and the miracle it has performed in restoring me to that health which I thought lost for ever. Send me half a dozen bottles quick and every thing thanks to the blessings you have conferred by restoring me to perfect health.

I remain yours, JOHN MONROE.

The agent has in his possession save hundred testimonials similar to the above, of the extraordinary virtues of this medicine. Sold by appointment, at Dr. Johnson's, 149 Gravier street. nov 5

PROSPECTUS.

THE subscriber proposes to publish, in the beginning of the ensuing winter, a Condensation of the twenty volumes of the Old and New Series of Martin's Louisiana Reports, to be comprised in four volumes, 8vo., according to the model of Peters' Condensed Reports.

This work is now in preparation by J. Burton Harrison, Esq., of the city, assisted by William F. Brand, Esq. The Editor is also permitted by a distinguished retired Judge of the Supreme Court, and by one of the sitting Judges, to expect from their personal supervision all the advantage which may naturally be expected from their experience.

Such a work is becoming every day more necessary, as the original is voluminous, expensive, and scarce. An increasing curiosity too is manifest, in the other States of the Union, in reference to the peculiar jurisprudence of Louisiana; and the circumstance of the numerous principles here decided in the adjustment of conflicts of laws, makes the knowledge of our adjudged cases of prime utility to the jurists of the whole Union. Moreover, the rising republic of Texas has adopted our codes, and thus there is a great demand for the Louisiana decisions from a foreign quarter.

Convenient notes, indicating the parallel cases decided in Louisiana, and occasionally those in the more authoritative forums of the other States, will be added to each case.

The work will form a four volumes, royal octavo, and will be delivered, bound, to subscribers at $8 per vol.; in case it should be found practicable to compress it into three volumes, the price to subscribers will be $7 per vol.
