The True American.

PRICE 12½ CENTS. NEW ORLEANS, TUESDAY MORNING JULY 23, 1839 VOL.—VI No 2000

Terms of the Newspaper Press of New Orleans unanimously agreed to at an adjourned meeting of the Proprietors, held on the 14th of March, 1837.

SUBSCRIPTIONS.—Twelve Dollars for the daily paper annually, payable semi-annually in advance; ten dollars for the tri-weekly country paper, payable one year in advance, where no city reference is given—Five dollars for the Weekly, payable in advance. No subscription will be discontinued and arrearages not settled. In case of discontinuance, one week's notice in writing must invariably be given, previous to the expiration of subscriptions.

ADVERTISING.—Ten dollar per square for the first insertion, and half that price for each subsequent one; any material alteration from the original advertisement will be charged as a new one.

YEARLY ADVERTISERS.—Merchants and Traders, forty dollars for English alone, and sixty for both languages; Banks, Insurance Offices, and other similar public institutions, fifty dollars in English only, and eighty for both languages; Ship and Steamboat Owners, or Commission merchants sixty dollars in English only, and eighty for both languages.

MARRIAGES, OBITUARY NOTICES, and articles calling the attention of the public to sales of property, cards of passengers, benefits, &c. &c. will be charged one dollar per square for the first insertion in each language.

COMMUNICATIONS, or Advertisements, of any personal nature, which admissible, shall be charged liberally, and in advance.

A deduction of twenty five per cent will be made to Auctioneers, Sheriffs, Registers of Wills and Marshals on sales of real estate, published in both languages, and 50 per cent in the English edition; 40 per cent on sales of other property.

ADVERTISEMENTS out of the direct line of business of the advertiser, such as legal, and real estate sales, rewards, lost shares, strayed animals, &c. &c. will be charged for separately, at the ordinary rates.

ADVERTISEMENTS not specified as to time, will be published one month, and charged accordingly.

No advertisement of a quadrupedal or of a doubtful nature, in any case, unless paid for previous to insertion, or previous guarantee be given for non-appearance.

The rates and other places of amusement, advertising daily, on the season, to be charged $10 for English alone, and $15 in both languages.

All announcement of candidates for political offices will be charged double the price of other advertisements.

Owing to the immense loss sustained by newspaper proprietors, from their inability to collect the trifling sums of persons who are continually in and out of town within one month after publication, shall be well known to the respectable, that the proprietors will be compelled to require payment for such as may themselves not be in town at the time of publication, and forward the bills of advertisements accordingly.

No subscriptions to be taken for less than six months.
Terms cash, or at rates as per contract.

HORRIBLE!!

HAYS' LINIMENT.—No Humbug—This extraordinary chemical combination, the result of science, and the invention of a celebrated medical man, the virtues of which is to the public equal now, the only thing wanting, is a knowledge of its existence, to ensure its general use. It is now brought before the public, and it is fully sustaining the expectations of the learned Dr Gridley's last testimonial, that it will do more good than any other medicine, and the great object of publicity is to enable the sick to know where to procure it, and be benefited by its use. Persons who are in the habit of using it, are its best advocates, and it is only necessary to mention the name of Hays, the secret of its efficacy.

It is now used in the principal hospitals, and the private practice in our city, and most certainly for the cure of the Piles, and extensively and successfully in scalds, scrofula, and all other diseases where its effects are witnessed. Internally in the following complaints:

For Dropsy—Creating extraordinary discharges at once.

All Swellings—Reduce in from one to five hours.

Rheumatism—Acute or Chronic, giving quick ease.

Sore Throat—By Cancer, Ulcers or Colds.

Croup and Whooping Cough—Relieved in an hour, and cured in a few hours.

Sores and Ulcers—Whether fresh or long standing, and fever sores.

Its operations are so rapid and so often in relieving chronic suffering, with the severe coughs and lingerings of the disease of the lungs, that it has been sometimes termed empirical. The common remark is, "I wish I had known of it in the Piles, or Rheumatism, or other complaint."

THE PILES.—The proprietor of a certain person who suffered so much from Hays' Liniment for the Piles, and returned to his family both well and happy, cured. The proprietor is the agent, and all orders must be addressed to him.

We might insert a number of testimonials, but prefer that the cures speak for themselves, and leave the public to judge.

CAUTION.—None can be genuine without a splendid engraved wrapper, on which is my name, and also that of Dr Aycoth.

SOLOMON HAYS.

Sold wholesale and retail, by COMSTOCK & Co., New York, and by one Druggist in every town in the Union.

For sale in this City Wholesale Agents, corner of Common & Chartres streets, and by the Apothecaries generally.

BURNHAM'S DROPS.—This medicine was discovered by the proprietor and has been subjected to his careful observation for many years in every variety of practice, and all the diseases of the diversified American climate; and it is offered to the public with the utmost confidence in its efficacy, as most clearly adapted to the purpose, and the best medicine ever known within the reach of all classes of society. It is with the greatest propriety given in all the maladies which affect the human frame, from the established fact, that, when taken prior to so much it accumulates on the state of the stomach and the nature of the disease, either as an emetic, diaretic, sudorific, expectorant, or purgative medicine. That it is perfectly harmless, it needs only attend to satisfy the most sceptical. The fact is daily coming to the knowledge of the proper form of its use, and its saving effects in cases of the agues and fevers, colics, bilious, nervous and bowel fevers, influenza, violent colds, dysentery or flux, dropsies or swellings, sinking down of the stomach and weakness, worms in children, and all other maladies of a similar nature, but very a trifle, when from a sense of duty, a gentleman may be induced to say to a friend, or friend to a friend, simply recommend to a friend, or friend to a friend, or friend to a friend, or fri
