LITHOGRAPHIC & PRITING OF ALL KINDS, 53 Magazine street, opposite Banks' Arcade.
W GREENE takes pleasure in announcing to his friends and the citizens of New Orleans, that he has at length brought Lithography on a par with copper plate printing, and from the facilities the art has over copper plate engraving, he can execute all orders entrusted to him, at one half the expense of engraving and nearly as cheap as type printing.
Merchants wishing Circulars sent out in their own hand writing, can have any quantity at a few hours notice; or they will be executed for them in a beautiful style, such as has heretofore given general satisfaction to all the most respectable commission houses in this city. Gentlemen desirous of having Visiting or Business Cards finished in the best manner, will do well by calling at the office and see specimens.
Feb. 1, 1839

HARROWGATE SPRINGS

Montgomery county, Ala.
THREE DAYS JOURNEY FROM NEW ORLEANS.

THE proprietor of this establishment has the pleasure of announcing to his friends and the public in general, that he will be in readiness for the first day of May to receive visitors. He will also state for the benefit of those at a distance, that there have been large improvements made, and others now going on and in rapid progress for completion, which will enable the subscriber to accommodate a much larger number than heretofore, and at the same time much better.
Families can be accommodated with good rooms, or those who prefer can have large cabins finished from the mountain building.
It is deemed unnecessary to say anything in particular of the character of these waters, for it is generally believed that they are not inferior to any in the Southern States. All the amusements that are generally found at Watering Places, will be found at this. The best music that this part of the country affords, has been engaged, and will be in constant attendance at the Springs during the whole season.
The subscriber will avail himself of this opportunity in returning his unbounded thanks for the very liberal support given him last season, and hopes by the exertions that have been made in improving and extending the accommodations, to merit a liberal patronage the present season.

july 9 cor Common & Tchepitoulas sts

TRUTH IS MIGHTY AND WILL PREVAIL.

IT is a fact that 150,000 of Sarsaparilla Blood Pills have been sold during the past six months.
It is a fact—that they are taken in unmerciable instances to invigorate and correct the mischievous and bad effects of quack pills and other quack nostrums, by which many lives are endangered.
It is a fact—That all quack medicines contain minerals or mercury, which quacks think "must kill or cure," and trust to their effect to "hit or miss."
It is a fact—That numerous quacks and foreign impostors call themselves doctors and that they may more effectually impose their vile and dangerous preparation on the public, caring nothing for the consequences, in that they can only put their impost guile.
It is a fact—That the quacks and foreign impostors who now infest our country know nothing of the nature of medicines, much less about diseases of the human system.
It is a fact—They are principally the cause of the following diseases, all of which are more or less caused by impurities of the blood and animal fluids, namely—

Rheumatic affections;	Ulcerous sores of the nose, throat and body;
Scrofula Kryspelas;	
Jaundice; Heartburn;	Scaly eruptions and blotches of the skin;
Diseases of the liver, skin, mucous and glands;	Dry and water pimples, and pointers of the face and all the body;
Pain at the sides, alone the back and spine, near the region of the heart and stomach;	Tetter and ringworms;
Inward fevers, bad taste in the mouth, foul breath,	Swelling and hardening of the glands of the neck, in the groins, breast &c.
Flatulency; Indigestion;	Stomach coughs;
Want of appetite;	Low complaint;
Sour eructations and acidities of the stomach. Wormbrash, &c.	

RECOMMENTORY FACTS:

It is a fact—The only proprietors and manufacturers of the Sarsaparilla Compound are regular physicians and well as practicals, attended by the most celebrated practitioners of the United States.
Doctors Physick, Chapman, Jackson, Gibson, Dewees, Hare, James, Horner, Coxe, &c.
It is a fact—That the Sarsaparilla blood pills are employed in the practice of many physicians, and very strongly recommended by many throughout the U States. (See directions accompanying each box of pills.)
It is a fact—They are composed entirely of vegetables, and they are warranted to be free from all mercury or mineral preparations.
It is a fact—They may be taken by the most delicate, and at all ages, without restraint of occupation or business, without fear of taking cold, without change of diet or restraint from temperate eating.
It is a fact—They will not lay their operation, which may be mild or active, according to the quantity taken, weaken the system so much as many of the purgative medicines generally do.
It is a fact—That they are the most effectual
PURIFIERS OF THE BLOOD.
AND
RENOVATOR OF THE SYSTEM
Ever discovered.
Also, constitutional diseases, produced by mercury, or the mercurials, or the consequence of syphilis, lues, venereal, &c &c.
It is a fact—That never in a single instance have they been known to be used, that they did not produce a good effect—and in most instances many of whom were before considered incurable.
It is a fact—that one box of Sarsaparilla pill and one bottle of the Compound Syrup of Sarsaparilla, is all sufficient to cure any of the above diseases.
It is a fact—Should the sick or ailing, that usually place their confidence in quacks, or foreign impostors, in Orleans, to call on the subscriber, they will be cured, or no charge, and be fairly dealt with.
DOWSE'S Indescribed opposite Hannah only to his old, elderly friends and old friends of both sexes, to call on him and with a certain and well tried remedy, for the cure of the Sarsaparilla Compound Syrup of Sarsaparilla, and Sarsaparilla or Blood Pills. With the correspondence and testimonials of the most celebrated physicians, and the most learned and able professors in the United States, and the most learned and able professors in the United States, and the most learned and able professors in the United States. These pill or syrup are evidently as sweet pills to which prudence and experience have given perfection, and to which the physicians, in making the syrup, have added the Sarsaparilla, and taking or destroying those mercurial or other ingredients, that formerly were used in the pills, and which have caused the pills to be called Mercurial pills, and which have caused the pills to be called Mercurial pills, and which have caused the pills to be called Mercurial
