Real Estate for Sale.

THE ILLINOIS CENTRAL RAILROAD COMPANY IS NOW PREPARED TO SELL OVER TWO MILLIONS OF ACRES OF SELECTED

PRAIRIE, FARM AND WOOD LANDS, IN TRACTS OF 40 ACRES AND UPWARD,

To suit purchasers, on long credits and at low rates of interest.

They were granted by the Government to encourage the building of this Railroad, which runs from the extreme north to the extreme south of the State of Illinois. It passes, from end to end, through the richest and most fertile Prairies of the State, dotted here and there with magnificent Oak Groves. The recent opening of nearly 600 miles of this road throws open the lands for cultivation. They are scattered from one to fifteen miles on each side of it, through its entire length.

The soil is a dark, rich mold, from one to five feet in depth, is gently rolling, and peculiarly fitted for grazing cattle and sheep, and the cultivation of wheat, Indian corn, &c.

The first crop of Indian corn planted on the newly broken prairie usually pays the cost of plowing and sometimes fencing. Wheat sown on new turned sod is sure to yield very large profits. One man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at $2 to $2.50 per acre. By judicious management farms may be broken and fenced the first, and under a high state of cultivation the second year.

The larger yield on the cheap lands of Illinois, over high-priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market. The rapid increase and growth of flourishing towns and villages along the line of this road afford a growing home demand for farm produce.

Coal and wood are delivered along the road at different points, at from $1.50 to $4 the cord or ton.

Parties having in view Iowa, Kansas, Nebraska, or Minnesota for their future homes should take into consideration that the country west of the Mississippi is destitute of railroads; that the convenience of transporting grain and produce from farms on the line of the Illinois Central Railroad, direct to the great Eastern market, is sufficient of itself to pay the investment at from $10 to $15 per acre higher than in government lands in Iowa. In other words, that it costs so much more to get produce from the interior of the country west of the Mississippi to the Eastern market, that the farmer will find it much more profitable to locate on the line of this railroad.

PRICE AND TERMS OF PAYMENT.

The price will vary from $5 to $25, according to location, quality, &c. Contracts for deeds may be made during the year 1855, stipulating the purchase money to be paid in five annual instalments—the first to become due in two years from date of contract, the others annually thereafter. The last payment will become due at the end of the sixth year from date of contract.

By the 22d section of the Act of the Legislature, approved 10th February, 1851, these lands are free from taxation until they are paid for and a deed of conveyance granted to the purchaser.

INTEREST WILL BE CHARGED AT ONLY TWO PER CENT PER ANNUM.

As a security for the performance of the contract, the first two years' interest must be paid in advance, but it must be understood that one-tenth of the land purchased shall yearly be brought under cultivation. Longer credits at six per cent per annum may be negotiated by special application. Twenty per cent from the credit price will be deducted for cash, in which case the Company's Construction bonds will be received as cash.

It is believed that the price, long credit, and low rates of interest charged for these lands, will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. Meantime the rapid settlement of the country will probably have increased their value four or five fold. When required, an experienced person will accompany applicants to give information and aid in selecting lands.

Large Plats, showing the precise location of the lands throughout the State, may be seen at the office. Small pocket Plats, as a guide to any part of the company's lands, and Pamphlets, containing interesting information, accompanied by numerous letters from respectable farmers throughout the State, may be had on application at the office of the Company, No. 52 Michigan-av., Chicago. CHARLES M. DU PUY, Jr., Land Agent Illinois Central Railroad Company.

AN EXCELLENT CHANCE to buy 20 or 40 acres of good LAND at $12.50 per acre, situated but three hours' ride from New-York by railroad, in a good neighborhood. The land is new, has a rich loaming soil, and is unsurpassed for productiveness. J. C. SANDERS, No. 3 Nassau-st.

There are most of the conveniences of a city residence in the dwelling-house—hot and cold water on three floors, bathing room, water-closet, furnace and range. Also, water taken to the barn and in use on the floor of the stable and carriage-house. The views of the country from the house are beautiful, and that from the back piazza remarkably so. There are many bearing fruit trees, and a large quantity growing. The garden is well arranged, and stocked with usual fruits, &c. The place embraces about 800 feet in the road, less than three fourths of a mile from the center of Morristown, a few minutes' walk from the post-office, depot, churches and schools. For particulars apply to BAKER & WEEKS, Auctioneers, No. 6 Pine-st.

The premises may be reached several times daily by railroad, and is in all respects a most convenient and desirable residence for a gentleman doing business in the city.
