by Woodbine, beating Millie by a nose, with Nema trailing a bad third, Sue Ryder a worse fourth; but Nema and Sue Ryder were placed respectively second and third, Millie being ruled out on account of crossing from the extreme outside, impeding Woodbine on the stretch at the start. Time—2:06¼. Woodbine was backed at two to one against the others.

Second Race.—Purse, $1000; for all ages; three miles dash. Harry Bassett led for two and a half miles, with Littleton lapping him for most of the distance. When they passed the half-mile pole, Bassett had opened two clear lengths between them, which Littleton closed up again in the last turn, and challenged Bassett for the lead as they came up the home-stretch, the latter (Bassett) answering gallantly, and winning by a couple of lengths. Time—5:43¾.

Third Race.—Consolation purse, $600, for all ages, one mile and a quarter. Won by Tubman, beating Gray Planet four lengths, with Fadladeen third, one length behind Planet. Time 2:18½.

John Harper says should Longfellow fully recover and be fit to race again, he would not let him start in another race, if he was certain of winning a hundred thousand dollars.

The races closed with much satisfaction to operators and profit to the association. The most perfect order has been observed during the season.

RALEIGH, N. C., July 19.—The trial of Shaddock Jones, colored, charged with intimidation of Simon Cravens, colored Liberal Republican, came off before United States Commissioner Best to-day. Six witnesses were examined, and much interest and feeling exhibited by both political parties. The counsel closed argument to-night, and the commissioner reserves his decision until court opens to-morrow.

Four arrests have been made in the conspiracy case against the colored man Cross. The trial commences at ten o'clock to-morrow. It is generally believed all the negroes implicated will be convicted under the enforcement act.

ROCHESTER, July 19.—A collision occurred on the Auburn branch of the Central railroad to-day. Mrs. Miles Cutting, of Railroad Mills, and E. B. Smith, of Detroit, were killed; J. Hawley and F. H. Harris, of Canandaigua, fatally wounded, and several others injured.

CLEVELAND, July 19.—The following is a summary of the result of the $5000 trot to-day, which was witnessed by 10,000 persons:

Goldsmith Maid	1 1 1
Lucy	2 3 2
American Girl	3 2 3

Time—2:19, 2:18, 2:19.

SAN FRANCISCO, July 19.—David E. George, deputy postmaster of San Francisco, was to-day convicted in the United States Circuit Court of robbing the mails. The accused's store, in which the postoffice was kept, had been broken open by robbers, who, threatening the lives of those in the store with pistols, prevented them from resisting or giving an alarm. George was sentenced to eighteen months' imprisonment.

Slanderous reports concerning the character of a lady named Kenney, eighteen years of age, and only a few months married, caused a separation between husband and wife. Yesterday the scandals were again circulated by one Cummings. The parties all reside near Petaluma. Mrs. Kenney, seeing Cummings riding past her house, seized a shotgun and shot him dead. She then went to Petaluma and surrendered herself to the authorities. She has the fullest sympathy of the community, as she is believed to be wholly innocent of the conduct imputed to her.

BALTIMORE, July 19.—The Mutuals, of New York, and the Baltimore club played an exhibition game this afternoon, which resulted in favor of the Baltimore club, the score being 19 to 4.

LONG BRANCH, July 19.—The President remains at his cottage, and receives visitors daily from all parts of the country.

ALBANY, July 18.—Senator Fenton addressed a large audience at Tweedle Hall on the national finances as they are at present managed. He asked how could we expect to return to specie payments. Currency was one of our most difficult problems. The administration was incapable of directing its relation. Upon it must largely rest the responsibility of a continued unsound monetary condition. It had had no financial policy, except to collect the taxes under the laws of Congress, beard a gold blockade in Wall street, and pay the debt. The men at the helm of the State neither tell us what plan should be adopted nor what principles should guide us. The speaker then at length detailed the baneful effects of a superabundancy of paper money, and pointed to history to show how much paper could be carried by a certain amount of gold. "One dollar of specie in the banks," he said, "for every $3 paper in circulation is a necessary condition for public confidence and financial security; but in our case we have $5 of paper for every dollar of gold."

He declared that this whole matter relating to the currency, from which springs a brood of evils, is either imperfectly understood by those invested with authority, or it has been grossly neglected.

The credit given General Grant and his administration for paying so much of the public debt belongs to the people, who, through their Representatives in Congress, suffered themselves to be taxed to raise the money. He showed that during the administration of Andrew Johnson more was paid than has been since. "The truth is," he said, "in the past no administration has been equal to the present in the careless and lavish manner of handling and using the public money."

He closed with a reference to the manner in which the act providing for the new loan and the canceling of five-twenties had been violated. The government had suffered this business to be manipulated by a number of financiers, and in a way which secured to them some $3,000,000, and which disposed of only $200,000,000 in bonds and at the highest rate of interest—five per cent. The speech was frequently applauded.

After a speech by Chauncey M. Deprew, the meeting adjourned.

CAPE MAY, July 19.—William H. West of Philadelphia, connected with the Naval Academy at Annapolis, was drowned while bathing this morning.

Who Carried the News.

This is a special to the Cincinnati *Enquirer:*

NEW YORK, July 15.—The *Sun's* Washington correspondent, telling how Union secrets were made known to the Confederates, says: "When the rebellion was in its early stage, no less a person than General Thomas Jordan, of Cuban notoriety, but then a rebel officer, made an arrangement with the notorious Mrs. Greenhow, who was afterward arrested, whereby she was to forward to the headquarters of the Southern army such facts as would be important for them to know. Mrs. Greenhow proceeded to become intimate with the Hon. Henry Wilson, then chairman of the Military Committee. This she confessedly accomplished, and the honorable Henry was so thoroughly manipulated that every plan and projected movement known to him was known to her. The design of the advance of the troops to the battle of Bull Run was got by her from him before the fact, and forwarded to the rebel headquarters through the agency of Tom Huelett, the brother of Mrs. Mason, the lady who was a witness in the French arms investigation in April last."

Red Cloud's Voice Still for Peace.

Sixty lodges of Spotted Tail's people have crossed the North Platte, going south. Several lodges attempted to leave the Red Cloud agency, but were turned back by chiefs and soldiers. Red Cloud sent a letter to the Northern Sioux, in which he says: "I carried on war against the whites until I went to see my great father two years ago. My great father spoke good to me. I told my people his words, and they have listened. I went to see my great father a second time, and he gave me good advice. I asked for many things for my people. He gave me these things. All the whites spoke well to me. I shall not go to war any more with the whites. I shall do as my great father says, and make my people listen to me, and not go to war any more. You must carry on war yourself. I am done, and shall make no more trouble for our great father. His heart is good. Be friendly to him and he will provide for you. Your old people and children will not starve. Take his hand and hold it fast."

The St. Louis *Republican*, once the great Whig paper of Missouri and the extreme West, long the leading Democratic organ of that section, and now the journal which may fairly claim to have initiated the movement which has finally brought the Democracy up to the height of the Cincinnati platform, gives cheering proofs of the signal prosperity it has attained. It is about moving into a splendid printing office which it has just built, furnished with three kinds of presses—Hoe's, Bullock's and the Walter invention of the London *Times*—is adopting the quarto form, and is to be as large as the *Tribune*. We congratulate the *Republican* on its worthily earned success, and the people of St. Louis on the proofs it gives that it deserves success.—*New York Tribune.*

MONETARY.

OFFICE OF THE DAILY REPUBLICAN,
FRIDAY EVENING, July 19, 1872.

Great dullness appears to pervade almost every department of the money market. The offerings at the banks are moderate, and there is but little movement on the street. All approved offerings of short business paper are readily done by the banks, but, with a few exceptions, they reject accommodation notes and long paper, which are consequently left for negotiation on the street, where, according to their grade, they can be placed without much difficulty at our quotations. We continue to quote first-class paper, with sound collaterals, at —@10 ⅌ cent ⅌ annum; 11@12 for less desirable names, which can hardly be classed as second grade; 12@15 for second grade; —@10 for first-class mortgages, and 12@— for second grade.

COMMERCIAL.

FRIDAY EVENING, July 19, 1872.

COTTON—To-day was a counterpart of yesterday. We did not hear of a sale, nor notice any inquiry.

The Exchange reports: "Market at a complete standstill. Sales of futures: 100 bales for October at 19c, and 200 for December at 18¼c." It omits quotations.

The decline at Liverpool of 3-16d in uplands and ¼d in Orleans, and at New York of ⅜c, has calculated to still further depress prices, but nothing transpired to show to what extent factors were willing to give way. On Wednesday evening we quoted good ordinary at 20¼@20½c, low middling at 21¼@21½c (outside figures for strict) and middling at 22¼@22½c, while the Exchange figures for the same grades were 20¼, 21¼ and 22¼c.

The sales for the past week sum up only 650 bales, against 1250 last week and 1550 the week before. Week's receipts 647 bales, embracing 127 from other delivery ports and 520 proper, against 470 proper last week and 4558 last year. Receipts proper since September 1, 952,733 bales, against 1,426,198 last year—decrease 473,465. The week's exports comprise 4907 bales, embracing 2629 to Liverpool and 2278 to New York.

The Exchange telegrams make the receipts at all the ports to-day 365 bales, against 328 last Friday and 1947 last year; for the week ending at 12 M., 2983 bales, against 29,23 last week, 10,836 last year, and 7477 in 1870. Total since September 1 2,667,351 bales, against 3,911,137 last year, and 2,850,923 in 1870—decrease from last year 1,243,780 bales, and from 1870 183,572. Week's exports to Great Britain 4424 bales, against 3913 last week, and to the Continent 1383, against none. Total since September 1 to Great Britain 1,433,915 bales, against 2,313,399 last year, and to the Continent 482,647, against 782,140 last year. Grand total to Great Britain and the Continent 1,916,612 bales, against 3,095,547 last year, and 2,159,899 in 1870. Stocks at all the delivery ports, made up to 12 M., 124,429 bales, against 136,005 last week, 156,319 last year, and 126,384 in 1870.

The amount on shipboard not cleared, going on board and engaged for shipment was set down this morning at 5400 (900 for Liverpool, 2000 for Havre, and 2500 for the North), which, deducted from our running statement, leaves 8100 bales to represent the quantity in presses and pickeries, unsold and awaiting orders.

SUGAR—The receipts were larger than usual this morning, and embraced 202 hhds from plantations. The market is firm, with a fair demand for the trade and for shipment, and the stock on hand is being considerably reduced. The stock in the sheds this morning was 3532 hhds Louisiana, and the stock in warehouses is estimated at 3000 hhds foreign sugar. PORK—The market is quiet, and appears to be a little in favor of buyers to-day. Mess is held at $13 25 ⅌ bbl, and buyers offer $13. A lot of 500 bbls mess sold last evening, not reported, on private terms. It is retailing at $13 50@13 75 ⅌ bbl. To-day 500 bbls sold for future delivery on private terms.

COFFEE—We note the sale of 4000 bags, to arrive per Minuet, on private terms. There is no strictly prime choice coffee on hand. The market continues very quiet at unchanged prices, with some small sales making in a job way. Ox horns 5c each.

MANUFACTURED TOBACCO—The demand continues good for the common and medium grades, with a fair inquiry for the better qualities at the reduced prices arising from change of tariff on the first instant. Buyers are waiting for receipts of stock, and the sales made to arrive will not be completed until next week. Much of the stock here in bond can not be offered, on account of the singular rulings of the Commissioner of Internal Revenue respecting tobacco in bond. We quote:

There is no Canada in the market. Prime to choice New York hops, crop of 1871, sell at 85c@$1, and ordinary to good Wisconsin 70@80c ⅌ lb. Old hops sell at 25@60c ⅌ lb, according to grade.

We quote extra pipe, called, ⅌ 1200, delivered alongside of vessel, $200; extra wine $125@130; extra hhd $140@145; extra claret $100@105; extra bbl $60@65; extra keg $40@45.

NAVAL STORES—The market is abundantly supplied with all grades of rosin and spirits turpentine, with only a limited local demand. There are large foreign orders here which can not be filled for want of tonnage to European ports. We quote rosin at $5 75@6 for virgin and pale; $4@4 25 for No. 1; $3 75 No. 2, and $3 50 ⅌ bbl for common. Spirits turpentine 50c ⅌ gallon.
