Bishop's creek, three furlongs from the starting place. Here the Oxfords spurted vigorously and drew up, passing the Cambridges at the soap works, a mile and four furlongs from the Aqueduct bridge.

The steady stroke of the Cambridges soon after began to tell on their opponents, and in a few moments the Cambridge had resumed the lead. The race was practically over at Corvey's reach, the Cambridge thereafter maintaining the lead and winning easily by three lengths.

CRIME.

Counterfeiters' Implements—Wife Murderer Remanded—Drover Robbed—Arrest for Conspiracy—Hung for Rape—The Bank of England Forgers.

NEW YORK, March 29.—Among the articles, used by the counterfeiters, found in a box, discovered under the Wall street ferry house on Thursday, were the seals in electrotype of Arkansas and Alabama, besides the certification stamps of several national banks in this city.

PHILADELPHIA, March 29.—In the case of Charles J. Clark, charged with the murder of his wife, upon plea of habeas corpus for bail, the court declined to hear the evidence, and remanded the prisoner without bail.

WASHINGTON, March 29.—F. Hahn, a Virginia drover, was murdered and robbed last night.

Captain D. F. Jocknock, of the Indian office, was arrested to-day, on a bench warrant issued by Judge Carter, on the indictment found in the United States Court for the western district of North Carolina, against several parties, for a conspiracy to defraud the government by the alleged making of a false census of the eastern band of Cherokees. He was delivered into the hands of the marshal, and afterwards gave bail for his appearance when wanted.

ST LOUIS, March 29.—A mob at Chillicothe hung a negro who raped a respectable white woman.

NEW YORK, March 29.—Edward Myers, the Englishman claiming to be a member of the firm of George Myers & Sons, of London, and who represented to Wall street that he had letters of credit for £1,500,000 for railroad operations, has been arrested in Jersey City on the charge of issuing a worthless draft for $30 on the banking house of James King & Son, New York.

A special dispatch from Havana says that the man Bidwell, arrested on the charge of complicity with the forgeries on the Bank of England at the request of the English government, is not a British subject, but an American, and a native of Indiana. His arrest is declared by lawyers to be illegal and without precedent, except in the case of Arquems, in 1864. They also declare that it is a violation of the laws of Spain, of the treaty stipulations with the United States, and in contempt of the guarantees of the laws of 1870 relative to foreigners.

The British vice consul obtained, by compulsion, $5000 from Mrs. Bidwell in bonds, but complaints having been made, the Captain General ordered that the money be deposited.

Bidwell has expressed a desire to be sent to New York.

It is reported that the counsel for Macdonnell, the alleged Bank of England forger, will apply for a writ of habeas corpus, on the ground that Commissioner Gutman is not authorized to sit in extradition cases, and that the charge of conspiracy is not covered by the extradition treaty.

LONDON, March 29.—Edwin Noyes, the American who is charged with being implicated in the frauds on the Bank of England, was again brought before the Lord Mayor at the justice room of the Mansion House to day for examination.

Among the witnesses examined was the manager of the Continental Bank, who, upon being shown a photograph of Bidwell, identified him as the party who opened an account with that institution under the name of Horton. The manager also gave details of several extensive transactions had with the bank by Bidwell, and expressed his belief that Noyes was merely a clerk for the really guilty parties.

The examination was further adjourned.

The Staple of Life.

That most deserving class, the house keeper element, is subject to more trials and difficulties than most mortals. The old saw of Horace, "that every man has his own taste," is the best evidence of this fact. It is true that bread is "the staple of life," but when it is possible to make that word bread, including everything, from a pie-crust to a biscuit, so as to furnish the most nutritious, agreeable food, entirely free from everything which could injure the human system or neutralize the effects of the farinacious matter itself, the old saying might well be rendered, "Bread made with 'Dooley's yeast powder' is the staple of life." Housekeepers! You all know that the greatest difficulty you have is to make palatable, nutritious, easily digested bread, biscuits, rolls, pastry, cakes, etc., and if you want to get rid of one of your troubles "go for Dooley's yeast powder."

The Ohio State law against lotteries also prohibits churches from holding fairs, and fines any one that raffles for turkeys the night before Thanksgiving.

New York city owes a gas bill of nearly a million dollars, and the authorities have been told that if it is not paid forthwith the Gas Company will cease to supply the streets and public buildings.

A hogshead of Louisiana sugar opened at New York the other day contained a chunk of wood weighing forty-one pounds. It was evidently packed for the Chicago market.

The Hoosac tunnel will have cost the State of Massachusetts, when completed, $20,000,000. That sum of money would have built and equipped a double-track freight railroad from Boston to Oswego.

They wash their children in the street sewers in Salem, Massachusetts. In olden times they used to dry their mothers at stakes in the same place.

A rise in the price of strychnine is reported in Alabama as the result of a recent act of Legislature exempting widows from taxation.

Another little boy in Illinois had a revolver among his playthings, and the doctor says that if the ball had gone an inch higher it would have penetrated the heart.

MONETARY.

OFFICE OF THE DAILY REPUBLICAN, SATURDAY EVENING, March 29, 1873.

We noticed less demand for money to-day, particularly on the street, but the offerings at most of the banks continued of liberal extent. The Clearing House returns for the week, show an increase of about $500,000 in the volume of currency, and a like amount in the deposits, and in the discounts a slight falling off. Outside banks report a strong demand for discounts. We hear of no transactions that justify a change of our street rates, and continue to quote first class paper, with or without collaterals, 9@10 ⅌ cent ⅌ annum, A1 12@—, second class —@18, first class mortgage paper 9@10, and second class 12.

SATURDAY EVENING, March 29, 1873

COTTON—The sales to-day (not including 400 bales omitted yesterday, when the actual business was 6400 bales) embraced 3300 bales, at stiffer prices for strict good ordinary and all the grades above, and easier for average good ordinary and the poorer qualities, requiring, however, no change in quotations, except raising the outside figures for strict low middling ⅛c. We give also the Exchange figures, which are for average lists according with its types, while ours present the proper range of the market for average lists, but with the outside figures for low middling, good ordinary and ordinary given as the outside for strict of those grades:

Good ordinary	15¾@17⅞	16⅝

Good middling	20⅛@20½	20⅛

Dusty and sandy cottons sell at from 9@14c, according to condition, and slightly dusty at ¼@½c under the figures for clean of their respective grades. The market opened with a fair inquiry, but the movement was checked by factors being more stringent in their pretensions for the better qualities, which were the most in request. The sales during the morning were consequently of moderate extent, at stronger prices for all desirable kinds, and easier for the poorer qualities. Operations were also restricted by telegraphic communication being interrupted, and no market reports received from Liverpool; and later in the day, although the dispatches subsequently received were not discouraging, the movement continued sluggish. The sales were consequently confined to the moderate amount noted above. Strict ordinary, with but little dust, sold at 14c, strict good ordinary, high style, at 17½c and strict low middling at 18¾c. The lower grades exhibited continued irregularity. Strict ordinary was quoted as high as 14⅞, and even 15c and upward, while sales, as noted above, were reported at 14c. The market closed quiet but firm, with little low middling to be had under 18½c, while good style sold at 18¾c.

The amount on shipboard not cleared, going on board and engaged for shipment was set down at the opening this morning at 91,000 bales, embracing 42,000 for Liverpool, 15,000 for Havre, 1000 for Spain, 10,000 for Bremen, 4000 for Cork and a market, 13,000 for the North Sea and 6000 for the North, which, when deducted from the stock on hand by our running statement last evening, leaves 112,200 bales to represent the quantity at the landing and in presses unsold or awaiting orders.

The Exchange reports: "Sales 3700 bales, including 400 after 4 P. M. yesterday. Market quiet and unchanged."
