NEW AND IMPORTANT INVENTION—STARR, FELLOWS & Co.'s NEW LAMP FOR BURNING FLUID.
PATENTED MARCH 15, 1855.

In setting forth the merits of this Lamp, it is not necessary to disparage any of the numerous materials used and advertised for illuminating purposes. It is sufficient for our purpose to know this fact: that the great majority of people continue to return to and use BURNING FLUID, after having tried the various kinds of Coal Oil—good evidence, we think, that it possesses many advantages over them all. Some of these advantages may be thus stated:

1st. Its universality of production. Good Burning Fluid may be procured everywhere.
2d. Its perfect cleanliness—which all will agree is a first-class virtue.
3d. Its sweetness and healthiness of odor.
4th. Its adaptation to portable as well as stationary lamps.
5th. It is not injured by age or change of climate.
6th. Its expense is below the average of other lighting materials.

We offer to the public the most
PERFECT BURNING FLUID LAMP
yet produced, at once
SAFE, SIMPLE AND CONVENIENT.

It gives a clear, agreeable light, which may be increased or diminished at will, and is admirably adapted for light in the Parlor—and for Reading or Sewing is unequaled. We are selling them for Churches and Halls, daily.
