Hoops.

NEW SKIRT FOR 1865-6.
The Great Invention of the Age in
HOOP SKIRTS.

C. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double) SPRING SKIRT.

This invention consists of Duplex (or two) Elliptic Pure Refined Steel Springs, ingeniously Braided Tightly and Firmly together, Edge to Edge, making the Toughest, most Flexible, Elastic and Durable Spring ever used. They seldom Bend or Break, like the Single Springs, and consequently preserve their perfect and beautiful Shape more than twice as long as any Single Spring Skirt that Ever Has or Can be made.

The wonderful flexibility and great comfort and pleasure to any Lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Muslin Dress.

A Lady having Enjoyed the Pleasure, Comfort and Great Convenience of wearing the Duplex Elliptic Skirt for a single day will Never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are attractive to all others.

The Hoops are covered with 3 ply double twisted thread and will wear twice as long as the 2 ply yarn covering which is used on all Single Steel Hoop Skirts. The three bottom rods on every Skirt are also Double Steel, and twice or double covered to prevent the covering from wearing off the rods when dragging down stairs, alone steps, &c., &c., which they are constantly subject to when in use.

All are made of the new and elegant Corded Tapes, and are the best quality in every part, giving to the wearer the most gracefull and perfect Shape possible, and at the same time the lightest, most durable, comfortable and economical Skirt ever made.

Weeks' Bradley & Cary, Proprietors of the Invention, and Sole Manufacturers, 79 Chambers, and 73 & 75 Reade Streets, New York.

For Sale in all Retail Dry Goods Stores in this City, and throughout the United States and Canada, Havana, Cuba, Mexico, South America, and the West Indies.

☞ Inquire for the Duplex Elliptic (or double) Spring Skirt. aug 26 3m d

Stoves.

EDDY'S
Kerosene Cooking & Heating
STOVES AND RANGES.

THESE COOKING STOVES WILL
BAKE, BOIL, STEW, FRY & ROAST
With the greatest economy and facility, and without heating the room in which they are used. They are perfectly simple, operating like an ordinary Kerosene Lamp with a chimney, and are the only Kerosene Stoves that burn without smoke or odor.

"We have been perfectly astonished to see what a labor saving, dirt saving and heat saving institution is EDDY'S PATENT KEROSENE STOVE. Taking the cost of running it, and the result attained, it is the best patent in the market."—Worcester Daily Spy.

Our Heating and Cooking Stoves are very convenient and economical, especially where a fire is required but a few hours at a time.

Orders for Stoves may be sent through American Advertising Agency, 380 Broadway, New York.

Daily Empire.

The Fenians in Ireland.

The steamer China brings English news to Oct. 1st. The news with regard to the arrests of the Fenians is important.

The Fenians were brought before the police magistrates at Dublin on the 30th ult., including the editor and proprietor of the Irish People newspaper, Mr. Barrey, Queen's counsel, appeared for the crown and made a long speech. He said that within the last fortnight £3,500 had arrived from America to be expended in revolutionizing Ireland, and by that day's mail the government had intercepted a letter for one of the prisoners named Sapper, containing a draft for £415 on the house of the Rothchilds, and several other letters containing bills of exchange. The making of pikes had also been extensively carried on. One of the prisoners had made 2,000 of these murderous weapons, and numerous revolvers and breast-plates had also been found in the possession of the prisoners connected with the Irish People newspaper. He quoted an incendiary paragraph, urging the employment of force, from the number of that paper which was about to be issued when the office was seized. Mr. Barry concluded his speech by asserting that the Fenians were powerful, both in Ireland and America. He trusted that this affair would end forever such hopeless conspiracies. Evidence was then given against the prisoners, and some of them were identified as connected with the suppressed Fenian organ. The investigation was still pending October 1st, and would probably last for several days.

At a private examination of six of the Fenians at Dublin castle, evidence was put in showing that the plot of the Fenians was of the most sanguinary character. It was to write down the nobility, the aristocracy and the landowners, and assassinate them all on the breaking out of the rebellion. The duke of Leinster and others were specially named for assassination. The linen manufacturers and others were to be called on to give material support to the Fenian cause under threats of extermination and confiscation of their property if they refused to do so. The evidence of treason against the prisoners is said to be most complete.

A special commission will shortly be convened at Cork to try the Fenian prisoners on the charge of high treason. Fenianism is said to have been discovered among the Irish residents in London, and the police were keeping a strict surveillance over them.

The official Dublin Gazette of the 29th contains a proclamation disarming several places in Tipperary, Limerick and Waterford counties.

The London Times suggests that the Prince of Wales should visit Ireland occasionally, and pointsout that the royal family have passed more time on the continent than in the sister kingdom. The Times' correspondent in America represents the Fenians as mustering three hundred thousand men in America.

Sir Robert Peel, Chief Secretary of Ireland had been summoned before a magistrate by Robert Grey, a Dublin banker, in consequence of an altercation in a railway carriage.

Gen. Lee's Installation.

On Monday, October 2d, Gen. Lee was installed President of the Washington College, at Lexington, Va. The proceedings were strictly modest and unpretending—Gen. Lee having absolutely overruled a proposition for an imposing public display with music, military, and girls bearing chaplets of flowers. The ceremony took place in a recitation room, at which only the college officials and a few town officers and visitors were present.

The General was inducted into the room by the Board of Trustees. At his entrance and introduction in the room, all rose bowed and then become seated. The installation was the simplest possible—an exact and barren compliance with the required formula of taking the oath by the new President, and nothing more. The ceremonies were opened by prayer, in which a divine invocation for the President of the United States was a noticeable feature.

This ended, Judge Brockenbrough, chairman of the Board of Trustees, stated the object of their coming together. He felt the serious dignity of the occasion, but it was a seriousness and a dignity that should be mingled with heartfelt joy and gladness.—Passing a brief eulogy upon General Lee, and congratulating the Board and the College, and its present and future students, on having obtained one so worthy to preside over the College, he said he could say a great deal more, had it not been voted against speech-making.

General Lee, during the brief address, remained standing before the speaker and audience. He then took the oath of office, which consisted of a pledge to faithfully discharge his duties in accordance with the College Charter. The keys were then delivered to him, and the proceedings, which were marked by solemn decorum throughout, terminated with a few words of congratulation and a general hand-shaking.

Snow Storm at Salt Lake.

The Salt Lake News of September 13th reports a heavy snow storm on the Saturday previous in that valley, and says "it stormed eastward as far as Laramie, and a foot of snow is reported on the Sweetwater. The snow was six inches deep on Green river." The snow fell in huge flakes for hours. The News add:

"We have heard of lots of sugar cane, late wheat and other standing crops being leveled with the weight of the snow, and we know that the fruit trees in many parts suffered severely, peaches in particular. The snow falling on the thick foliage of trees already being borne down with a heavy crop of fruit, splintered limbs off, and split open trunks to a serious extent and altogether did a great amount of damage.

We have bought for cash a large stock and will be ready to supply the trade in any shape, at the lowest prices.
d3m LADOW & WINDER.

HE VISITS DAYTON, O.

J. FLATTERY, M. D.,
FROM
NEW YORK CITY,
PRACTICAL PHYSICIAN
FOR
CHRONIC DISEASES,
WILL OPEN ROOMS AT THE
"PHILLIPS HOUSE,"
DAYTON, OHIO,
FOR A LIMITED PERIOD TO CURE THE
SICK,
Commencing October 17, 1865,
at 1 o'clock P. M.
THE LAME WALK AND THE BLIND SEE.
CHRONIC DISEASES CURED
ACCUTE PAIN INSTANTLY RELIEVED.
Consumption Cured
BY INHALATION.
NO POISONS GIVEN.
NO MERCURY USED.

Dr. F. for the last fourteen years has been engaged traveling in the practical treatment of all medical and surgical diseases of Europe, the United States, Australia and the South Sea and Sandwich Islands, British Columbia and Vancouver's Island and during which time he has had
Thousands of patients under his medical supervision, and by careful and practical attention to all acute and chronic diseases of a special, surgical, and general nature, (having discovered the true physiological and pathological character of all diseases by microscopical and other minute researches) has been enabled to restore the enfeebled, debilitated and exhausted constitution to a state of energy, health and happiness, and as it were to revive the sinking, life-like faculties of the brain and nervous system to a new existence and renovate life with all its natural companionship and enjoyments.

Therefore the commonly called "Incurables" are particularly invited to avail themselves of this rare opportunity to recover their health.

In consequence of the deep-seated and in many instances just prejudice existing in the minds of many against all traveling, advertising physicians and Surgeons, Dr. F. will prescribe to, and operate on all such who consult him, and charge nothing unless he performs all that is promised.

All therefore who have been doctored till they are tired and are no better should call at once on Dr. Flattery, and have the cause of their disease removed.

All who have Consumption, Bronchitis and Throat disease should apply to Dr. Flattery, whose cure of these complaints is based on recent discoveries in physiology of respiration and which bears the closest philosophical examination.

All affected with Chronic diseases which have baffled the Quacks and exhausted the medical skill of the faculty of surgeons, should apply to Dr. Flattery, whose marvelously successful treatment of all affections is owing to his medical discoveries made by microscopical and other minute researches during fourteen years' travel, and twenty years' practice.

The unfortunate should at once call and consult Dr. Flattery who has had twenty years experience in this class of disease, and branch of his profession, and therefore guarantees every cure.

All young men injured in body and mind from the effects of self abuse, with its concomitant symptoms such as pain in the head, morbid despondency and aversion to society, inability to concentrate the memory and intellect, and disqualified from the various duties of life, whose countenances and debilitating constitutions depict the evil effects of that horrible and devastating vice, should consult Dr. Flattery before it is too late—all suffering with stricture and result of quack remedies, should avail themselves of Dr. Flattery's new method, by which the most malignant forms of this disease is cured in from one to two weeks, and without the usual torture to patients.

All having secondary symptoms Rheumatism and spermatorrhœa whose nervous temperaments having been destroyed by reading clap trap-catch penny publications and swallowing mercury until they are walking barometers, and have finally been given up as incurable, by an abominable set of illiterate and non-graduates of medicine, should seek the surgical skill of Dr. Flattery in these prevalent and worst of ills.

All who are barren and thus deprived of connubial bliss and parental happiness, should take the advice of Dr. Flattery at once.

All whose circumstances and physical condition will not admit of offspring, should consult Dr. Flattery, and if not too late, procure his safe and infallible preventative.

All whose eyes and ears are diseased and have had the misfortune of being cauterized and drugged consult Dr. Flattery without fail, as he is a thorough oculist and aurist.

All who stammer should procure Dr. F's newly invented appliances for the cure of all impediments.

All suffering from nervous complaints, female affections, skin diseases, heart, stomach and liver complaints, diseases of the bowels, kidneys, bladder, piles, rupture, ulcers, scurvy, tumors, masked ague, cancers, Panama and intermittent fever, erysipelas, &c., &c., should suffer no longer, but straightway proceed to Dr. Flattery for his new treatment.

All students and physicians of limited experience having a desire to learn Dr. Flattery's generally successful method of cure, will give him a call at his rooms, where he will instruct them individually or by class.

All patients at a distance can be cured at home by consulting Dr. Flattery, by letter, stating their name, age, occupation, time taken ill, constitution, number of treatments submitted to, description of causes and symptoms experienced and those existing. He will then send medicines with directions to cure any disease.
