Love for the Beautiful.

The love for the beautiful, which is in every heart was clearly shown yesterday, says the *Evening Wisconsin* of September 19, in the facts related below:

At a residence on Milwaukee street a lady with a taste and talent for art was making a copy of a very beautiful picture. In order to secure the best light, she moved the easel near the window. Chancing to look up from her pleasant occupation, she discovered she was holding quite a matinee. On the sidewalk and fence were a dozen children, each gazing with openmouth admiration at the beautiful picture. Their interest was so great that they were not abashed by the knowledge that their presence was known. When those first on the ground grew tired and went away, their places would be taken by others, who, in passing, caught sight of the picture, and remained to admire it. For the greater part these children were of the uneducated class. The fact showed the common love for the beautiful which every one has to a greater or less extent.

MONETARY AND COMMERCIAL.

MONETARY.

NEW ORLEANS REPUBLICAN OFFICE, FRIDAY EVENING, October 23, 1874.

The money market continues quiet, with a fair demand for discounts at the banks. There is very little offering on the streets, the bank absorbing most of the limited supply of business paper making. Good commercial names, having ninety days to four months to run rule at 9@12 ₱ cent per annum, and second grade at 15@18. Very few transactions are consummated in any description. There is scarcely any movement in mortgages, and the occasional transactions reported in first class are at about 10@11 ₱ cent ₱ annum, while nothing is done in second grade on which to base quotations.

Gold opened at 109½@109¾, against 110¼ at New York, and after a fair business closed at the opening rates in both markets. The sales summed up $54,000, embracing $10 at 109½; $6000 at 109¾; $10,000 and $20,000 at 109¾ @109¾, and $2000 and $15,000 at 109¾.

Nothing transpired in silver. American half dollars are now quoted at 106@107, white Mexican dollars continue to rule at 96½ gold.

Under the influence of the decline in domestic exchange commercial sterling fell off 1 10 ₱ cent on the outside figures. The movement was of liberal extent amounting to £55,200, comprising £1500 Al clear at $5 28; £2500 bill of lading and £2000 Al clear at $5 28½; £1500, £17,500 and £1200 Al clear at $5 29; £17,000 and £13,000 bill of lading at $5 29@5 29½ and £2000 Al clear at $5 30.

Francs were unchanged; the sales summed up 305,000, embracing 30,000, 125,000 and 150,000 commercial at 4.75.

At the close sterling bills were quoted at $5 28½@5 29½ for bill of lading and Al clear, and —@$5 32½ for bank, and francs at 4.75 for commercial and — for bank.

The offerings of domestic exchange were of liberal extent, and meeting with only a fair demand, commercial fell off about ⅛ ₱ cent. The sales of New York sight covered $135 000, embracing $10,000, $15 000, $20,000 and $25,000 commercial at ⅜ ₱ cent discount; $15,000 do and $10 000 and $10 000 private bankers' at 5-16; $10,000 private bankers' at 9-32, and $15,000 bank at ¼.

The banks continued to check on New York at par, while commercial sight was quoted at ⅛ ₱ cent discount, against ¼ yesterday.

The stock market exhibits a trifling improvement, the extremely low prices inducing some investment dema d. With the exception of gold bonds, city securities are difficult of sale, and even for these the movement is spasmodic and irregular.

In stocks we noticed a sale of 100 shares of old Sugar Shed Company at $18, equal to $62 for new.

The sales of bonds included $10,000 city gold bearing seven per cents at 34¾, and $8000 and $10 000 at 35, at about which they closed.

Nothing transpired in city scrip. City appropriation certificates, Metropolitan Police warrants and time certificates of 1873 were still quoted at about 46@47.

In State warrants we noticed sales of $2000 and $3500 old at 20. Old are still quotedat —@20, and new at 45@—.

NOTE.—Quotations for nearly all classes of securities continue nominal.

The market opened with an active demand, and although the offerings were light, the sales up to 12 M. reached 2500 bales, at prices fully up to our revised figures of yesterday, after which the movement continued animated, resulting in further sales to nearly the same extent mostly at hardening prices, closing at the improvement noted above. At the same time a considerable portion of the business was done at yesterday's figures, and in exceptional cases buyers obtained slight concessions, others being accepted which were refused yesterday. As has been the case for the past three days, the controlling element was the pressure of the demand on the supply, the former being quite active, and the latter moderate. To day twenty brokerage houses participated in the business.

The sales of the past three days sum up 13,200 bales (4800 on Wednesday, 3450 yesterday, including 175 not reported until to-day, and 4950 to-day,) making, with the addition of 100 bales to Tuesday's report, an aggregate for the week of 25,150 bales, against 22,000 last week and 16,300 the week before.

Week's receipts 28,618 bales, embracing 3818 from other delivery ports (of which 3250 from Mobile and 528 from Texas) and 24,800 proper, against 26,039 proper last week, and 26 046 last year. Total proper since August 31, 99 207 bales, against 83,128 last year—increase 16,079 bales.

The exports comprise 19,752 bales, embracing 14,334 to Liverpool, 664 to Barcelona, 4516 to New York, and 239 to Philadelphia, to which we have added 46 by rail.

The Exchange telegrams make the receipts at all the ports from 12 M. yesterday to 12 M. to-day 26,376 bales, against 22,491 last week and 18,098 last year, and since Friday 132,486 bales, against 12,175 last week and 103,739 last year. Total since August 31, 505,412 bales, against 359,438 (up to Thursday noon, October 22, excluding the above 18,098) last year—increase 146,932.

Exports (Friday to Thursday inclusive) to-day 31,354 bales, against 42,463 last week and 29,008 last year, and to the continent 10,404 bales, against 5317 last week and 3212 last year.

Stocks at all the delivery ports made up to 12 M., 338,154 bales, against 265,091 last week and 221,656 (up to Friday noon) last year.

Week's receipts at the interior towns 37,932 bales, against 27,968 last year; shipments 26,594 bales, against 19,916 last year; and stocks 56,874 bales, against 49,012 last year, showing an excess this year of 9964 bales in receipts, 6678 in shipments and 7862 in stocks.

The amount on shipboard not cleared, going on board and engaged for shipment was set down at the opening this morning at 47,000 bales, embracing 27,000 for Liverpool, 9000 for Havre, 3000 for Bremen, 2000 for the North sea and 6000 for the North, which, when deducted from the stock on hand by our running statement yesterday evening, leaves 13,300 bales to represent the quantity awaiting at the landing and in presses unsold or awaiting orders.

The Exchange reports: "Sales 3160 bales, including 250 after 5 P M. yesterday. Demand active." Its quotations for low middling and middling are raised ⅛c.
