MONETARY AND COMMERCIAL.

MONETARY.

NEW ORLEANS REPUBLICAN OFFICE,
MONDAY EVENING, May 1, 1876.

We are officially informed that, under instruction from the Treasury Department, it has been optional with the assistant United States treasurer to sell from the supply of gold on hand sums arranged pro rata to the demand, or to issue gold certificates that can be more conveniently used in transactions with the Customhouse, where they pass the same as coin. Last week the assistant treasurer sold $40,000 in coin. When quarterly payments of the United States five-twenty coupons are made, as is now the case, the coin on hand is reserved for that purpose.

The fifth annual drawing of the eight per cent first mortgage bonds of the Crescent City Live Stock Landing and Slaughterhouse Company took place to-day. The ten per cent ($50,000) of the original amount ($500,000) is drawn annually on the first of May, the time on which the interest on all outstanding bonds matures. The interest on the bonds drawn is paid on the day of the drawing, and the principal on the first of July following. The amount of undrawn bonds outstanding is $150,000. The following are the numbers of the $500 bonds drawn: 115, 121, 155, 148, 37, 56, 171, 44, 143, 41, 122, 60, 96, 153, 94, 15, 61, 46, 133, 36, 10, 86, 91 and 114, and the following of the $100 bonds: 123 177, 81, 31, 51, 5, 133, 2, 97, 184, 138, 156, 82, 107, 44, 126, 109 and 34.

We learn that the Louisiana Savings institution is paying depositors its semi-annual interest of 6 per cent.

The following were to-day elected directors of the Hibernia Insurance Company: Messrs. P. Irwin, John Henderson, Thomas King, John G. Ryan, Thomas Gilmore, W. J. Castell, John T. Gibbons, James A. Gardner, William Hart, Emile Gauche, David Jackson, J. H. Lanna and F. J. Gaequast, and the following of the Louisiana Savings Bank and Safe Deposit Company: Messrs. James Jackson, Ed. Conery, E. C. Palmer, Frederick Wing, J. H. Keller, W. H. Thomas and W. B. Schmidt.

The demand for money continued of fair extent to-day, both in bank and on the street, with the rates on commercial paper unchanged. Under an advance at New York a liberal business was done in gold at higher rates. Foreign exchange also ruled materially higher; the movement, however, was limited. New York sight being scarce and in request, was a shade higher for commercial. Securities exhibited but little animation. Only a few sales of stocks were reported. City bonds were a shade lower, while State consols ruled at little stronger rates.

We continue to quote exceptional paper at 8@9 per cent per annum discount; Al do at 10@12, and second grade nominal. First class mortgages still rule at 9@10 per cent per annum, while second grade are entirely nominal.

The banks continued to check on New York at ⅛ per cent premium, while commercial sight was quoted at ⅛@3-16, against ⅛ on Saturday.

The demand was slack throughout the day, and to a great extent firm, buyers claimed concessions which factors would not grant, parties being nearly as wide apart in their views as on Saturday. The market consequently exhibited considerable irregularity, with a more general tendency to easier prices. The dispatches reported Liverpool easier, but not quotably lower, with sales of 8000 bales, and arrivals offering 1-32d lower, and New York, under a revision of quotations at the close, 3-16c lower for spots, but 1-32@3-32c higher for futures.

The Exchange make the amount on shipboard not cleared (before to day's export) 54,891 bales, embracing 35,449 for Liverpool, 10,448 for Havre, 1229 for the North Sea, 6680 for Bremen, and 1135 for coastwise ports, leaving in presses, agreeably to its account at 12 M., 128,757 bales. If we deduct from this the amount sold but not yet delivered, the balance will be about 117,000 bales to represent the quantity unsold, a large part of which is withheld from the market in transit or not yet sampled.

The Exchange reports: "Sales 2400 bales. Market irregular."
