HIGHLANDER.
THIS very superior and famous Horse is located for the season of 1858, at my farm adjoining Nashville. Mares will be received from 10th of March to 10th of July at $30 each, and $1 to the groom, for 10th July; in all cases of failure they may be returned gratis next year.
HIGHLANDER was bred by Thomas Taylor, of S. C., in 49, he was got by Gimlace, imp., his sam Castaud, a winner at all distances, by Sloan, ch. imp., &c. his pedigree is *full, pure and fashionable*, and has the horse himself excites the admiration of the most critical observers.
HIGHLANDER is a rich chestnut, of excellent constitution and temper, measuring 15 hands in height, and has unusual length and stoutness of frame, coupled with surpassing beauty of form and action. He is a great racehorse, highly esteemed in the south, throughout the Union, was, for some time, hardly equaled, having beaten, in the best style, all or his many competitors in South Carolina and Georgia, mostly when three years old, when he was sold for $10,000, and at once went forth to meet other formidable rivals, wherever to be found.
In this extremely trying career, Highlander gained as large a share of fame as has ever attended any race-horse, under like circumstances—constantly traveling and running all distances as he did, whether in good or bad health and condition.
All who have examined HIGHLANDER and his colts freely express the opinion, that, as a breeder of superior stock, for every sire, he will take rank among the most reputable horses of the country.

PATENT
Elastic Fire and Water Proof
CEMENT ROOFING.
THE undersigned is prepared to introduce into use in Tennessee W. E. CHILES & CO'S PATENT ELASTIC FIRE AND WATER-PROOF CEMENT ROOF—No. and asks the attention of Architects, Builders, Building Committees, and the public, to examine its superiority over other Roofing.

Architects and Builders
Should not fail to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the atmosphere, and will neither evaporate, crack nor rot; and, as to durability, there is no question.
It is practically unsinkable, and will perfectly resist any ordinary external exposure to fire, as is fully and satisfactorily proven, and we will warrant it a good roof. We will engage to put our Roofing on over ordinary good sheating, old shingles, tar and gravel, tin, zinc, copper, or iron roofs. Making no difference how shingled or how many layers of dollars per one hundred square feet; it being far cheaper than any roof of the old style, and we are sure it will give best satisfaction.
It will also be found to be the best thing ever invented to cover or mend old leaky tin, tar and gravel roofs, or around chimneys, scuttles, dormer windows and gutters, where the tin is all rotted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any object to which it is applied. Tin roofs can be covered over (and warranted not to leak) at two dollars and fifty cents per hundred square feet, which is cheaper and much better than paint. This Roofing will be found to be the best thing for covering large flats where they are exposed to fire—such as steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, Station Houses, steamboat Decks, and in fact every kind of Roof where there is an actual exposure to fire. As the Roof is perfect, without a joint in it, it presents no chance for fire to communicate, and any light substance will burn as it without roofing.
☞ Roofs put up at Cincinnati, and other places where Chiles & Co's Cement has been used, insure buildings with Roofs covered with this Cement, at the same rates as for those covered with Iron, Copper or tin.
☞ The Cement will be furnished to those at a distance with directions for using.
☞ Orders sent to the undersigned, through the Post office will be promptly attended to.
I would respectfully refer to the following gentlemen for whom I have covered buildings with the Cement.

The Cherokee Corn Planter!
PATENTED BY ELLIS & CHARLTON, Sept. 8th, 1857.
THE only cheap, durable and efficient machine for planting corn ever presented to the Planters of the South. It opens the furrow, drops the corn, covers and rolls down the hill, all simultaneously in the hill—covers the hills and presses the earth, (as by the old method with the hoe)—and marks accurately the position of each hill. Was a single horse, a mule or boy can plant ten to fifteen acres per day with ease.
Planters and others are invited to an examination of this machine, at Messrs. Armstrong & Co's, where it may be seen daily in practical operation.
Persons wishing to purchase COUNTY RIGHTS in this or adjoining states, by applying immediately, (as territory is being disposed of rapidly,) can do so upon such terms as will insure them a large return on the investment. Call at once at No. 69 Market street, CHILDS & McDOWELL.

NEW TREATMENT.
Buffalo Medical Dispensary,
Established for the Cure of
Dyspepsia, General Debility, Fever and Ague, Asthma, Incipient Consumption, Infirmities of Youth and Old Age, &c.
NO MERCURY USED.
DR. AMOS & SON,
Corner of Main and Quay streets, Buffalo, New York.
ARE the only Physicians in the State who are members of the Royal College of Surgeons, London. May be consulted from 8 o'clock in the morning, until 8 at night, to every state and symptom of Disease.
The treatment they adopt is the result of upwards of 30 years' extensive and successful practice in Europe and America.
A Most Scientific Invention.
An instrument for the cure of genital Debility, or Nocturnal Emissions, more properly known as Seminal Weakness, &c., can be permanently cured in from fifteen to twenty days, by the use of this instrument, when used conjointly with medicines.
Young Men Take Particular Notice.
DR. AMOS & SON take pleasure in announcing that they have invented a most important instrument for the cure of the above diseases. It has been subjected to a test of the most eminent physicians in London, Paris, Philadelphia and New York; it has been declared the only useful instrument ever yet invented for the cure of Seminal Weakness or any disease of the genital organs, caused by the secret habits of youth.
DR. AMOS & SON in order to satisfy the most skeptical as to the merits of their instrument, pledge themselves that in any instance where it may prove unsatisfactory after a fair trial, the money will be refunded by returning the instrument in good order.
Persons wishing the above useful instrument will observe that the price, with the accompan
