CYPRESS HILLS CEMETERY, Office No. 261 Broadway, corner of Warren-st.—Undertakers and others interested are hereby notified that a messenger leaves the office for the grounds every day, except Sunday, at 10 a. m. and 3 p. m., and on Sunday at 10 a. m.

Also, that a Map of the entire grounds has been completed, showing all the Avenues, Paths, Lakes, Groves, Parks, &c., &c., which may be had at the office.

These grounds were first offered to the public for Cemetery purposes in 1849, and they now contain the remains of more than 20,000 persons.

The increasing number of interments in this Cemetery is such as to render it absolutely necessary that all funeral processions should enter at the funeral entrance, in order that the Bell may be tolled, giving notice to the keepers of their approach, thus avoiding delay and confusion.

The attention of Undertakers is peticularly called to this regulation. By order of the Board of Trustees.

EDMUND DRIGGS, President.

E. THEO. NEXSEN, Secretary.

FARM LANDS for SALE.—The ILLINOIS CENTRAL RAILROAD COMPANY is now prepared to sell about TWO MILLIONS OF ACRES of

FARMING LANDS,
IN TRACTS OF FORTY ACRES AND UPWARD,
On Long Credits, and at Low Rates of Interest.

These Lands were granted by the Government to aid in the construction of this Railroad, and are among the richest and most fertile in the State. They extend with the Road, from Chicago on the north-east to Cairo at the south, and thence to Galena and Dunleith in the extreme north-western part of the State. Most of these Lands lie immediately on, and within six miles of, the Road, and none are more than fifteen miles distant from it; hence, ready and cheap facilities are furnished for transporting their products to any of the Eastern or Southern markets. The great increase of population by immigration, &c., and the consequent rapid growth of flourishing towns and villages on the line of the Road and throughout the State, furnishes a substantial and growing home demand for every kind of farm and garden produce.

In the northern and central parts of the State, prairie lands predominate, interspersed with magnificent groves of oak and other timber; in the southern, the timber is more abundant, and exceedingly valuable.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc. The air is pure and bracing, the climate more healthy, mild and equable than that of any other part of the Union; while living streams and springs of excellent water abound.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly-broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very large profits. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to $3 per acre. By judicious management, the land may be plowed and fenced the first, and under a high state of cultivation the second year.

Corn, grain, cattle, etc., will be forwarded at reasonable rates to Chicago, for the Eastern, and to Cairo for the Southern market.

Bituminous Coal is extensively mined along the Road, and supplies a cheap and desirable fuel, being furnished at many points at $1 50 to $4 per ton. Wood can be had at the same rate per cord. Extensive quarries have been opened in the southern part of the State, near the line of this Road, of Building Stone of excellent quality—such as white and blue Limestone, and white and red Sandstone—which can be had for little more than the expense of transportation.

The Government lands, in the Land States, having generally been withdrawn from market, emigrants from the Eastern States and Europe can be accommodated by this Company with valuable Farms, at the old prices and terms, which, in all probability, will double in value within twelve months.

When those lands are restored to market, persons who think of settling on them, or in Minnesota, should bear in mind that the Lands of this Company, at the prices for which they are sold, are better investments than those in other States or Territories more remote from market, at Government prices; for the reason that the expense of transporting the products of the latter to market will always be a heavy drawback on them, and after a few years' cultivation they require manuring, which is not the case with Illinois lands.

The same remarks hold good in relation to the lands in the Territories of Kansas and Nebraska; for although vacant lands may be found near the water-courses, the distance to market is far greater, and every hundred miles the products of those lands are carried either in wagons, or interrupted water communications increases the expenses of transportation, which must be borne by the settlers in the reduced price of their products; and to that extent precisely are the incomes from the farms, and of course on their investments annually and every year reduced.

The great fertility of the lands now offered for sale by this Company, and their consequent yield over those of the Eastern and Middle States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of Summer or the frosts of Winter.

PRICE AND TERMS OF PAYMENT.

The price will vary from $5 to $25, according to location, quality, etc. Contracts for Deeds may be made until further notice, stipulating the purchase money to be paid in five annual installments. The first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract, and the lands are not subject to taxation till finally paid for.

INTEREST WILL BE CHARGED AT ONLY THREE PER CENT PER ANNUM.

As a security to the performance of the contract, the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

Ready framed Farm Buildings, which can be set up in a few days, can be obtained from responsible persons.

They will be 12 feet by 20 feet, divided into one living and three bed rooms, and will cost complete, set up on ground chosen anywhere along the road, $250 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over their road promptly.

It is believed that the price, long credit, and low rate of interest charged for these lands, will enable a man with a few hundred dollars in cash and ordinary industry to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required, an experienced person will accompany applicants, to give information and aid in selecting lands.

Circulars, containing numerous instances of successful farming, stamed by respectable and well-known farmers living in the neighborhood of the railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, etc., by contract—or any other information—will be cheerfully given on application, either personally or by letter, in English, French or German, addressed to

JOHN WILSON, Land Commissioner of the Illinois Central Railroad Company.
Office in Illinois Central Railroad Depot, Chicago, Ill.
