COUNTY'S OLD FURNITURE.

It Will Be Sold Cheap to Some County Needing an Outfit or to Anyone Who Wants It.

Kent county is not exactly in the furniture business, but it has a large quantity of good office furniture and record files, pigeon holes, etc., for sale. If some of the counties in Michigan are needing an outfit for their county office, they will find this an excellent opportunity to secure everything desired, and at little cost; though the old furniture is massive and substantial it was hardly modern enough to grace the offices in the handsome new court house.

The furniture is that which was used in the register of deeds, county clerk, treasurer, judge of probate, circuit court, and superintendent of poor offices.

There are over 200 chairs, among which are office, cane seat with arms, leather seats, cane seats and backs, kitchen chairs, wood seats, etc., also a large number of wood settees. There are also a number of writing desks, tables, book racks, pigeon-hole cases, record cases for register's office, file cases, three large safes, one containing steel chest, counters, office desks, double, single and upright water coolers, several fine wood office stoves, vault fixtures, cases for legal blanks, in fact everything needed to thoroughly equip a county office. Anyone wishing to purchase the whole or any part of the above furniture should communicate with Supervisor John Benjamin, chairman committee on public buildings, or see him at Benjamin Bros. & Co.'s store, 84 Monroe street.

GRAND EXCURSION TO MILWAUKEE.

It Will Be Given by the B. O. P. Elks, July 31.

On Sunday next the first grand translake excursion to the Queen City of the lakes will be conducted by the Grand Rapids elks. The party will travel via the Detroit, Grand Haven & Milwaukee railway and one of its palatial lake steamers. The train will leave this city at 8 a. m., arrive in Milwaukee at 2 p. m., leave for home at 9:30 p. m. and arrive in this city at 6:30 a. m. The fare for the round trip will be only $2.50, children half fare. The Arion double quartet will accompany the excursion party. This popular order never does things by halves, and this generous offer of a delightful outing upon the cool, blue waters of Lake Michigan carries with it the guarantee that the committee in charge will spare no pains or expense that will subserve the perfect pleasure of every member of the party.

A BIG CAROUSAL.

The Biggest One You Ever Saw.

The attractiveness of Reed's lake has been greatly enhanced during the past few days by the arrival of the largest carousal in America. The huge machine, or merry-go-round, as it is otherwise called, is of such immense proportions as to attract widespread attention from the mechanical problem involved in its construction and operation alone, but its attractiveness is brightened by the rich draperies and artistic decorations with which it is trimmed. Like all machines of a similar kind, it consists of a whirling platform sheltered by a conical canvas top. The interior is a mass of crystal braid and fringe, with elaborate designs in gold, silver and silk upon costly draperies.

The machine is 50 feet in diameter, will seat 108 persons and moves at the rate of nearly a mile a minute. It is operated by a stationery engine and illuminated by electric lights. Five men are required for its management. The platform is 12 feet in width and contains life-sized lions, tigers, zebras, wolves, raindeers, panthers, giraffes, elephants, peacocks, horses, donkeys and dogs. There are also numerous upholstered settees. The animals are all very life-like in form, color and poise and each is provided with an appropriate saddle, or similar device, with bridle and whip. This monster carousal has been in use but a short time in Washington park, Chicago. It was built in that city recently at a cost of $18,000.

Standing beside the carousal is a German merry-go-round, consisting of several recently imported bicycles. This, also, is a new and very large machine and moves at a terrific rate of speed and will be viewed with great interest upon this, its first appearance in America. Both machines will be run today on the lot adjoining Huber's garden.

ADVERTISING DOCTORS

AND DOCTORS WHO ADVERTISE.

Dr. FRENCH'S GREAT SUCCESS

In Grand Rapids—His Opinions About Doctors Advertising—Also Some Marvelous Cures Made by His Wonderful Magnetic Healing Power.

There is a vast difference between an advertising doctor and a doctor who advertises; the former is made up of a class of people who have no right to the title of doctor and are generally unprincipled and unreliable, while the latter are men who are determined to succeed in their profession at any cost. This is the opinion of Dr. French, the justly celebrated magnetic physician, located at the Vendome Hotel, 188 Fulton street, expressed to a reporter of this paper. This country is overrun, continued the doctor, with half starved doctors who, if they would only use the columns of the reliable newspapers the public in general would know they were in the world and practicing the healing art by some code of ethics, but an ironclad law of medical societies prohibits them from advertising, so they waste valuable time doing nothing or following other kinds of business. Still the medical colleges are turning out about eleven thousand new doctors every three years and the country is full of men with diplomas who can get no practice for the good and sufficient reason that no one knows they are even alive. Diseases of every name and nature are alarmingly on the increase, and it is a bad commentary on the ability of the general practitioner to cope by any ordinary means with the vast army of suffering humanity. Not only do those who have been suffering for years with some severe chronic disease continue to grow worse under medical treatment alone, but new cases are developing every day and incipient diseases are fast allowed to be driven into chronic disease by the ordinary method of medical practice. And it is left for the advertising specialist to effect the cure after all other means fail, but when he has cured the patient by new and improved methods known to the latr and more advanced school of doctors like Dr. French and he advertises the cure in some reliable daily journal, the whole medical profession set up a long, loud cry of "quack" and "humbug." Now this is unjust. The doctor has just as much right to advertise as the grocer or dry goods merchant, and he who does the most judicious advertising does the most business. Dr. French advertises and as long as he continues to practice and newspapers are published and printing offices are run, he will do so, and it is a senseless idea for a person who is sick that they will not patronize a doctor, who advertises simply from mere prejudice and for fear of what the neighbors may say. Mrs. Chas Day, Waverly street, cured of distressing stomach troubles, suffered several years and could obtain no relief from medicine or ordinary treatment; cured by Dr. French's magnetic treatment in four weeks. Mrs. George B. Chamberlain of No. 142 Belmont street may be referred to as having been relieved in a few treatments of inflammatory rheumatism; suffered extremely for years. The blind see—Miss Sophia Gendron, No. 111 Remsem street, blind from 3 to 16 years of age, restored to sight after all other treatment had failed, can now see to read. Miss Louise Payson of Hope was cured of a very bad case of catarrh. Mrs. D Underwood, cured of spinal weakness and dyspepsia in two weeks; lives on Wilder street. Mrs. Widdicomb cured of rheumatism of shoulder and right arm in one week. Mr. Patrick Cronin of No. 276 Franklin street suffered for months the most excruciating agony from sciatica; he could neither sit or lie down or sleep nights or daytime either; was completely worn out and obliged to give up his work altogether. In this condition he was brought to Dr. French and was cured in four weeks. Mr. Cronin has been at work ever since and has had no return of sciatica. Many other cases, too numerous to mention, could be cited. A young lady, whose name is withheld by her request, began treatment six weeks ago for ovarian trouble. She had been treated for cancer by one doctor and for tumor by another. This lady's sufferings can never be told in words; bedridden, the future that lay before her made her despondent and extremely nervous. She is now as well as any woman, and is willing to confer with any one similarly affected. Do not wait to see a case like yours published, but come now and be cured before you grow worse by Dr. French's magnetic power and skill. Office hours from 9 a. m. to 6 p. m.
