The Board of Public Works Allows

ITS OWN QUARTERLY SALARY

Without a Dissenting Vote and Discusses the Usual Number of Contracts and Estimates.

President Shelby presided over the board of public works yesterday. Residents of East Fulton street asked that sidewalks be left six inches above the grade line. Alderman Jacobs was present and asked the board to allow the sidewalks in front of business blocks south of Hall street to remain six inches higher than the grade line. Referred to the inspector. Mr. Riddle, a representative of a New York filter concern, was before the board and explained their system of filtering river water.

The bid of the Peninsular General Electric company offered to wire the pump building for electricity, but made no bid for an engine. The bid was laid on the table for a week, and the company will be asked to bid on an engine. The board of police and fire commissioners asked that the slant of the floor in the stable and wagon shed at headquarters be changed. Granted. The present slant of the floor makes it unsafe for the horses.

Accounts Allowed.

The following accounts were allowed by the board: For superintendance and repair of water works for five weeks, ending July 30, $494.20; F. Letellier, for services attending sessions of board from May 4 to July 30, $66; Harvey O. Carr, same, $60; A. E. Worden, same, $63; W. R. Shelby, same, $69; other service, $16.50; Eli F. Weatherly & Pulte offered to put in place in the new pump house a galvanized iron skylight with one-fourth inch glass for $120. Contract awarded. Rosema & Co. were awarded a contract for doing the woodwork for skylight in pump house for $90.

City Engineer Collar submitted the following approximates of cost: For grading, graveling the alley between Barclay and North Lafayette streets, $610; for constructing a sewer in North Division street, from Lyon to Park streets, $169,152; for constructing a sewer in Bostwick, from Lyon street to Park street, $1,192.02; for a sewer in Jefferson avenue, from Sycamore to Pleasant street, $639.10; for constructing a sewer in Jefferson avenue to Wenham avenue, $381.90; for constructing a sewer in Bradburn street, from Thomas street to Fifth avenue, $394.96.

More Estimates.

A delegation from Dunham street visited the board and desired that the grade line of the street be changed. It now makes a cut of about seven and one-half feet, and the houses are about ten feet from the street line. They desire some of the earth left in. The board will visit the place and consider the matter.

The following contracts were let: For sewer in Madison street to Musty & Van Overen, $649; sewer in alley between Lyon and Fulton streets, $447.19; for sewer in North avenue, Musty & Van Overen, $627; for sewer in Mechanic street to Jacob Meyers, $581; for sewer in Ninth street, James O'Hara, $381.50; for sewer in Sixth street to James O'Hara, $2,162 with $1 extra for rock excavation; for improvement in Tenth avenue to Peterson & Skeels, $1,[illegible].

Stevens and Poll Discharged.

Gerrit Stevens and Cornelius Poll, arrested some time since on complaint of Zaum Burnham for tearing out his mill dam in South Grand Rapids, were discharged by Justice Holcomb yesterday. The complaint charged them with having destroyed property to the value of more than $25, but the evidence did not sustain the charge. The justice held that it was not an examinable offense. The parties will probably be rearrested.

Hoagland is Caught.

Ed Hoagland, the young man implicated with Lew Remington in the burglary of Wollcot's drug store on Wealthy avenue sometime ago, was captured in South Bend, Ind., yesterday by Sheriff McQueen and Detective Kennedy. Hoagland skipped his bail from police court while he was waiting an examination. Mrs. Arnold was with him. They're both in jail.

A Collection of Crowns.

A whole collection of crowns is kept at the royal palace (the Kremlin) at Moscow, Russia. These relics of departed greatness—they nearly all come from countries which have been subjugated by the Russians—are kept in what is known as the "Throne Room" of the Kremlin. Here are shown the crowns of Poland, Kazan, Georgia, Astrakhan and Persia, besides the thrones and other royal insignia too numerous to mention. Besides the crowns of conquered nations, those of almost all the czars may be seen in that vast treasure house.

The most curious one of the lot is the double crown made for Peter the Great and his half witted brother; the most costly that of the Empress Catherine, which contains 2,536 diamonds of the first water.—St. Louis Republic.

A WONDERFUL GIFT

Healing by a Seeming Marvelous Power.

NO DISEASE ESCAPES ITS INFLUENCE

Catarrh, Paralysis, Dyspepsia, Neuralgia, Nervous Debility, Goitre, Glandulous Tumors, and All Chronic Diseases Permanently Cured—Dr. French the Most Successful Magnetic Physician in the World, No. 188 Fulton Street.

A more sublime and merciful gift never came from Heaven than the magnetic "gift of healing disease," and Dr. French seems to be endowed with this wonderful gift to a greater extent than almost any other man. Few possess this marvelous power, although many claim it. That Dr. French is possessed of some strong power to heal disease simply by applying his hands to the afflicted parts has been thoroughly demonstrated, but what the power is no one has been able to satisfactorily explain. Some say it is a secret known to him and others that it is spirit power, others that it is the work of the Lord, but Dr. French says it is a "scientific application of magnetic life or magnetic force" possessed by a strong and healthy body introduced into weak and exhausted systems. What the sick man wants is health. What the dying man wants is life. And he who can cure the sick and dying in the easiest and quickest way is the sick man's best friend, and is sought for by them far and near. Stop filling your stomach with worthless and nauseating drugs and patent medicines which only poison the system and aggravate the disease. Go to Dr. French at Hotel Vendome, No. 188 Fulton street, Grand Rapids, and be treated by new methods and become speedily and permanently cured. Something over one year ago Mr. Charles H. Blackstone, a well known agent for the sale of pianos and organs, was taken with the most intense pain in the left knee. After exhausting the usual supply of liniments and other remedies usually resorted to in these cases, without obtaining any relief, and finding the knee growing more painful and much swollen, a physician was called, who pronounced it a case of inflammatory rheumatism, and treated with medicine according to his code of ethics and mode of practice. Mr. B. continued to grow worse, the knee was swollen to twice its natural size and extremely painful. The limb was drawn up so that the toe did not touch the floor and shrivelled and wasted to half its natural size above and below the knee, which was twice its proper size. In this woeful condition he came to Dr. French who, upon examination, pronounced it "synovitis," a very severe inflammation of the synovial membrane of the knee joint. He gave him magnetic treatments and in three weeks Mr. B. was walking without his crutch, and in seven weeks was fully cured and can walk now as well as any one; not even a limp. This is only one of the hundreds of severe cases cured by Dr. French by his great magnetic healing power. Do not wait to see a case like yours published, or for some other sick person to get well, for while you are waiting your disease is growing worse and may become incurable. Pay no attention to those who constantly prate against every new method of cure, forsake the old beaten tracks of medicine and come to Dr. French if you wish to get well. No matter what your disease, you can be cured if curable. An examination costs you nothing. Consultation is free and private. Office hours from 9 a. m. to 8 p. m.
