W. E. CHILDS & CO.'S PATENT Elastic Fire and Water Proof CEMENT ROOFING.

THE undersigned purchased the State Right for Tennessee of the above patent about one year ago and has since introduced it extensively in various portions of the State, asks now the attention of builders, and the public generally, to examine its superiority over other modes of Roofing.

The material forms a hard and smooth surface. It is impervious to water, elastic and flexible; it will perfectly resist any ordinary exposure to fire; it is cheaper than any roof of the old style, and I am sure it will give better satisfaction as to its durability there is no question. It is the best thing ever invented for painting of old leaky tin roofs.

☞ The Cement will be furnished to those at a distance with directions for using.

☞ COUNTY RIGHTS FOR SALE.

☞ Orders sent to the undersigned, through the Post office will be promptly attended to.

I would respectfully refer to the following gentlemen for whom I have covered buildings with the Cement, and many others whose names are not here mentioned.
