Of the celebrated and incomparable WELSH NIGHTINGALE, MISS E. L. WILLIAMS,
the most surprising, fascinating and original WELSH, SCOTCH, IRISH and ENGLISH BALLAD VOCALIST
ever listened to and applauded in any country. From the very midst of her artistic triumphs in London, with the British Press echoing her praise and the nobility of Great Britain crowning her with laurel wreaths, this wonderful cantatrice has been snatched away by American enterprise, to delight with her beauty, her freshness of originality, her vivacity and her novel song-acting, the citizens of New-York—the management of this establishment having secured her exclusive services, at a heavy expense,
FOR A SHORT TIME ONLY.
The "Welsh Nightingale" will make her first appearance, therefore, in America on MONDAY, Sept. 14, 1857,
IN THE EVENING at 7½ o'clock,
supported by an Orchestra selected expressly for the occasion, and embracing some of the most brilliant musical talent in the country.

and sing SEVENTEEN DIFFERENT SONGS.
Sofa Seats will be reserved for the accommodation of families, numbered tickets for which may be obtained during the day at 50 cents each. Private Boxes, $5 each; Seats in Private Boxes, $1 each.
Books containing a biography of the "Welsh Nightingale," as well as all her Songs, are for sale, and may be had at the door.
On TUESDAY AFTERNOON at 3 o'clock, and every subsequent afternoon this week, the "Welsh Nightingale," at the earnest intercession of a number of distinguished families, and in order to accommodate the citizens of Brooklyn, Williamsburgh, Jersey City, &c., will repeat her UNIQUE ENTERTAINMENT.
The evening's entertainment will be repeated as usual.

the natural operations of the plants and animals keeping it always pure, and rendering a change superfluous.
The Proprietors of the Museum manufacture these tanks of elegant form and sound materials, so as to render them a very pleasing addition to the embellishments of the conservatory, the garden, the parlor, or the drawing-room. Mr. W. D. BUTLER will be in attendance at the Aquaria Saloons to furnish information to such visitors as may desire to possess themselves of some of these latest novelties.

On Tuesday, Sept. 22, we propose to publish THE GREAT BOOK OF THE YEAR—The new Tale, by the authoress of THE LAMPLIGHTER.
Miss Cummins has chosen for the title of her new book the name of the principal heroine, the beautiful and accomplished
MABEL VAUGHAN,
and has written a story which, for elegance of diction and thrilling interest, has rarely been equaled by any American lady. The question has been repeatedly asked, can Miss Cummins write another book equal to "The Lamplighter?" We can answer this question now with perfect assurance, not only from our own personal knowledge, but from the unqualified testimony of two literary gentlemen of Boston, who have read the work with great care and with absorbing interest, both of whom pronounce it a superior book to the first, and assure us that the authoress of "The Lamplighter," instead of losing position, will add immensely to her previously well-earned and world-wide reputation. Many writers, flushed with the success of their first efforts, resume authorship in such haste as to leave no time for the recreation and recuperation required by both body and mind. Not so with the authoress of "The Lamplighter." She has shown her good judgment in waiting two years and a half, and, by so doing, will undoubtedly take a position in advance of the one she now occupies.
MABEL VAUGHAN,
like "The Lamplighter," will soon become a familiar household name, and her charming character a model for imitation. We are printing
TWENTY THOUSAND COPIES
for the first edition. It will make a handsome 12mo volume of about 500 pages, to sell for $1, with our usual discount to the trade. Special terms made for 1,000 copies. Early orders from the trade are most respectfully solicited. We hope to publish it about the middle of September.

THE NEW-YORK TRIBUNE—1857-8.—
THE TRIBUNE was first issued as a Daily on the 10th of April, 1841. Its Weekly edition was commenced in September of the same year; its Semi-Weekly in May, 1844. It was the first daily in America to issue a double or eight-page sheet at a low price, and it has kept at least even with the foremost of its rivals in the rapid expansion of Newspaper enterprise, which the great extension of Railroads, and the establishment of the Telegraph system have crowded into these last sixteen eventful years. No larger journal is afforded at so low a price in any quarter of the world; none in America, no matter at what price issued, pays an equal amount, weekly or monthly, for intellectual labor. It employs correspondents regularly in the leading capitals of Europe, and at the most important points on this continent, with a liberal staff of writers and reporters at home, regarding full, early and accurate information as the first object of a Newspaper, and the timely and thorough elucidation thereof as the chief end of its Editorials. In that spirit, THE TRIBUNE has been and will be conducted, extending and perfecting its correspondence so fast as the increase of its patronage will justify the expense. Should the current attempt to connect the Old with the New World by the magnetic wire prove successful, we shall very soon, at a heavy cost to ourselves, and, we trust, a corresponding advantage to our readers, publish each morning a synopsis of the preceding day's occurrences throughout Europe, Northern Africa and Western Asia, with regular reports of the markets, the monetary aspects and harvest prospects of hither Europe. With a good atlas beside him and his daily paper on his fireside table, the American farmer or artisan within a day's ride of the city may then study each evening the doings of the civilized world throughout the day preceding; and it seems hardly possible that any who can read, but especially one who has children to educate, will longer deny himself the pleasure and profit of a daily journal. The same is true measurably of those who live further inland; though, where mails are infrequent, a Semi-Weekly, or even a Weekly paper, may seem sufficient.

THE TRIBUNE deals with questions of Political Economy, Public Policy, Ethics, Material Progress, and whatever may affect the Intellectual, Moral, Social and Physical well-being of mankind, dogmatic Theology alone excepted. Its leading idea is the honoring of honest, useful Work, in whatever sphere or capacity, and the consequent elevation of the Laboring Class in knowledge, virtue and general esteem. It is necessarily hostile to Slavery under all its aspects, to Intemperance in whatever form or degree with its accessories, to War save in the defense of Country and Liberty against actual invasion, and to every form of Gambling. Desiring to see Production extended and encouraged, while wild Speculation and useless Traffic are curtailed, it favors the policy of sustaining and diversifying Home Industry by a discriminating Tariff—a policy which tends to increase the price of Grain to the farmer while diminishing that of Bread to the artisan, by reducing the distance across which their respective products are exchanged and, of course, reducing the cost of their transfer. Regarding Fillibusterism in all its phases, and every form and device of National covetousness, with unqualified abhorrence as the bane of Republics and in their triumph the grave of Equal Human Rights, we seek by every means to woo and win the attention of our countrymen from projects of aggrandizement abroad to enterprises of development and beneficence at home, foremost among which we rank a Railroad through the heart of our territory to connect the waters of the Atlantic with those of the Pacific. Believing that the goods of this life are not yet fairly distributed, and that no one ready to work should ever famish in unwilling idleness, it lends an open ear to every suggestion of Social improvement which does not countervail the dictates of eternal Morality nor war upon that natural right of every one to whatsoever he has fairly produced or honestly acquired, whose denial must sink mankind into the chaos and night of barbarism and universal squalor. With a profound consciousness that idlers, drunkards, libertines and profligates can never be other (in the main) than needy and wretched, it bears aloft the great truth that Prevention is better than Punishment—that the child trained up in the way he should go, will rarely in after years desert that way for the thorny paths of Vice and Crime—that a true Education—Religious, Moral and Industrial as well as Intellectual—is the most effective temporal antidote to the errors and woes of our race. Recognizing in the most degraded specimen of Humanity a divine spark which should be reverently cherished, not ruthlessly trodden out, we have charity for all forms of evil but those which seek personal advantage through the debasement of our fellow-beings. The champion of no class or caste, the devotee of no sect, we would fain be the interpreter to each other of men's better impulses and aspirations, the harbinger of general concord between Labor and Capital, and among those whom circumstances or misapprehensions have thrown into unnatural antagonism. A cotemporary once observed that he never knew a hard, grasping, niggardly employer who did not hate THE TRIBUNE, nor a generous, large-souled, kindly one, willing to live and let live, who did not like it. We ask no higher praise, no warmer attestation.

The circulation of THE TRIBUNE is at this time as follows: Daily **32,000** copies; Weekly, **176,800** copies; Semi-Weekly, **16,000** copies; California and European, **6,000** copies; Total, **230,800** copies. That of the Semi-Weekly and Weekly we believe to be exceeded by no other newspaper published in the world; that of the Daily falls behind that of some of our cotemporaries. Had our hostility to Human Slavery and the Liquor Traffic been more guarded and politic, our Daily issues would now be some thousands heavier and our Advertising far more lucrative; but of our patronage generally we have no reason, no wish, to complain.

Of late, a concerted effort has been made to diminish our rural circulation through the influence of the Postmasters, some of whom embark in it eagerly, others under political constraint, while a large number, we are happy, for the sake of Human Nature, to state, refuse to be dragooned into it at all. Still, we have been made to feel the heavy hand of Power, and have doubtless lost thousands of subscribers in consequence. Pretexts to which no individual in his private capacity would have stooped have been relied on to justify the stoppage of our papers within reach of their subscribers and rightful owners, and their retention in the Post-Office till their value was destroyed. Postmasters have been schooled by rival journals—several of them living on their self proclaimed ability to serve as an antidote to THE TRIBUNE—as to their political duty to promote at our expense the dissemination of gazettes of adverse politics. We shall outlive this warfare, but we do not affect indifference to it. In the open field of discussion, we fear nothing; but in the ten of thousands of rural neighborhoods where the Postmaster can induce many of his quiet neighbors to take the journal he recommends, we have already lost some patrons, and expect to lose more as our subscriptions for this year expire. We appeal, therefore, to the hearty, faithful, fearless advocates of Free Labor and Free Soil throughout the land to take care that the official warfare on our circulation be not prosecuted without counteraction. We employ no traveling agents, for we will not consent to have the public harassed with the solicitations of strangers in our behalf. We strike the name of each subscriber to our Weekly or Semi-Weekly from our books so soon as his term has expired, for we will not haunt our patrons with duns for arrears which they may say they never intended to incur, for papers which perhaps they never read; we rely for the renewal of our club subscriptions solely on the volunteered efforts of those who, liking our paper, believe its influence salutary and worthy to be extended; and thus far our reliance has been justified, as we trust it may continue to be.

THE TRIBUNE is printed on a large imperial sheet, 32½ by 44 inches, folded in quarto form, and mailed to subscribers at the following

## Watches, Jewelry, &c.

AMERICAN WATCHES—To the TRADE.—These Watches are made by the aid of new and original machinery and tools expressly designed to secure with a low price a fine, substantial and correct time-keeper. The movements are new, simple and beautiful in plan and construction, remarkably easy of repair, and have been pronounced by the ablest chronometer and watch-makers to be faultless in principle and quality, and by all who have used them to be reliable in performance. Each one is engraved "Appleton, Tracy & Co., Waltham, Mass.," and is accompanied by a certificate of genuineness and perpetual warranty over our written signature.
We ask no man to buy these Watches merely because they are of American manufacture. We ask only that this fact shall not be permitted to exclude them from consideration. We claim that Watches equal in quality and merit cannot be obtained so cheap in Europe; and we ask our countrymen to give these a trial under our warranty.
Orders or inquiries may be addressed to us directly, or to any of the under-mentioned firms, who are agents for the sale of our goods in New-York, viz:
