CHOICE FARM LANDS for SALE.—THE ILLINOIS CENTRAL RAILROAD COMPANY is now prepared to sell about ONE MILLION FIVE HUNDRED THOUSAND ACRES of

CHOICE FARMING LANDS,
IN TRACTS OF FORTY ACRES AND UPWARD,
ON LONG CREDITS AND AT LOW RATES OF INTEREST.

These lands were granted by the Government to aid in the construction of this Road, and are among the richest and most fertile in the world. They extend from the north east and north-west, through the middle of the State, to the extreme south, and include every variety of climate and productions found between these parallels of latitude. The northern portion is chiefly prairie, interspersed with fine groves, and in the middle and southern sections timber predominates, alternating with beautiful prairies and openings.

The climate is more healthy, mild and equable than any other part of the country—the air is pure and bracing, while living streams and springs of excellent water abound.

Bituminous Coal is extensively mined, and supplies a cheap and desirable fuel, being furnished at many points at $2 and $4 per ton, and wood can be had at the same rate per cord.

Building Stone of excellent quality also abounds, which can be procured for a little more than the expense of transportation.

The great fertility of these lands, which are black rich mold from two to five feet deep, and gently rolling—their contiguity to this Road, by which every facility is furnished for travel and transportation to the principal markets North, South, East and West, and the economy with which they can be cultivated, render them the most valuable investment that can be found, and present the most favorable opportunity for persons of industrious habits and small means to acquire a comfortable independence in a few years.

Chicago is now the greatest grain market in the world; and the facility and economy with which the products of these lands can be transported to the market make them much more profitable, at the prices asked, than those more remote at Government rates—as the additional cost of transportation is a perpetual tax on the latter, which must be borne by the producer, in the reduced price he receives for his grain, &c.

The title is perfect; and when the final payments are made, deeds are executed by the Trustees appointed by the State, and in whom the title is vested, to the purchasers, which convey to them absolute title in fee simple, free and clear of every incumbrance, lien or mortgage.

THE PRICES ARE FROM SIX TO THIRTY DOLLARS—INTEREST ONLY THREE PER CENT.
TWENTY PER CENT WILL BE DEDUCTED FROM THE CREDIT PRICE FOR CASH.

Those who purchase on long credits give notes payable in two, three, four, five and six years after date, and are required to improve one-tenth annually for five years, so as to have one-half the land under cultivation at the end of that time.

Competent Surveyors will accompany those who wish to examine these lands free of charge, and aid them in making selections.

The Lands remaining unsold are as rich and valuable as those which have been disposed of.

SECTIONAL MAPS

will be sent to any one who will inclose 50 cents in postage stamps, and books or pamphlets containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Railroad Lands throughout the State; also the cost of fencing, price of cattle, expense of harvesting, threshing, &c., or any other information will be cheerfully given on application, either personally or by letter, in English, French, or German, addressed to
