How Watch Cases are Made.

In buying a silver watch case great care should be taken to secure one that is solid silver throughout. The cap of most cheap silver cases is made of a composition known as albata, which is a very poor substitute for silver, as it turns black in a short time. The backs of such cases are made much thinner than those of an all silver case, being robbed in order to make the cap thicker and get in as much as possible of the cheap metal. Another important point in a silver case is the joints or hinges, which should be made of gold. Those of most cheap cases are made of silver, which is not a suitable metal for that purpose. In a brief period it warps, bends and spreads apart, allowing the backs to become loose upon the case and admitting the dust and dirt that accummulate in the pocket. The Keystone Silver Watch Cases are only made with silver caps and gold joints.

ST. LOUIS, MO., Feb. 17, 1883.

In our long and varied experience in handling watches, we cannot but acknowledge and give our testimony that the Keystone Solid Silver Watch Cases are the best made to our knowledge. Having no soldering they remain homogeneous, *harder* and *stiffer* than they would be were they heated for soldering, and have more resisting power against pressure than any other cases in the market. DR. HENDRICK'S MONUMENT OF HONOR.

AS A SURGEON.

To begin with, Dr. Hendrick is well prepared for his profession, having had a liberal education and the regular fitting that is only got in the best medical colleges and hospitals. And during eighteen years of professional life he has had as good luck as any other surgeon, in amputating arms and legs, hands, fingers, feet and toes; in excising tumors, cancers, and various vicious growths; in adjusting fractures of bones and dislocations of joints; in operating on all the various forms of piles and rectal diseases, and in treating those abnormal conditions peculiar to the female sex. In every direction there is a vast amount of good work that shows for itself; hence any amount of envious bickering can avail but little. And as far as surgical instruments are concerned, he has as choice an array of the best of what is made, as may be found in any other office in the county. In the future as in the past, as good a job in surgery as the case may admit of, may be reasonably expected of Dr. Hendrick, and he always has his share of that kind of work

CATARRH

ELY'S Cream Balm

Has gained an enviable reputation wherever known, displacing all other preparations. An article of undoubted merit.

CURES

ROSE COLD.

Is Not a

Liquid or Snuff.

Apply by the little finger into the nostrils. It will be absorbed, effectually cleansing the nasal passages of catarrhal virus, causing healthy secretions. It allays inflammation, protects the membranal lidings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications.
