BULLS RAIDED STOCK MARKET.

Specialties Had Less Sway Over Business Which Was Large.

BONDS WERE NOTABLY ACTIVE.

Evidencing the Pressure of Large Sums of Money Seeking Investment There Was a Conspicuous Movement in Iron and Steel Stock

NEW YORK, Oct. 28.—The stock market took on to-day many of the characteristics of a bull campaign in full force. Business was large and exceedingly well distributed, while the market was much less dominated by the specialties, which, however, continued very active, principally Sugar and Tobacco. The former was less violent in its fluctuations than on yesterday, and although it advanced several times, it met more stock than it could carry. It ended the day unchanged. Tobacco, on the other hand, after a fractional decline, surged strongly upward, the extreme rise being nearly five points. The rise was coupled with rumors of the flotation of the new plug tobacco company and in the taking in of many large competitors in that field. Another conspicuous movement was that in the iron and steel stocks, which was led by the dealings in the securities of the new Federal Steel Company when issued. Speculation in the railway stocks was active and varied, the grangers leading in point of activity. Reports of one or two southwestern roads, showing the increased earnings more than eaten up by enlarged operating expenses, were a drag on that group, and this caused some heaviness among the trunk lines. There was a marked diminution in the activity in the latter part of the day, and the room traders took profits, reducing the day's net gains below the figure of the extreme advances.

There was very notable activity and strength in the bond market, and evident pressure of large sums of money seeking investment. Bonds of western and southwestern roads, especially reorganization bonds, seem to be in special favor, and there was a strong recovery in the Reading and Erie general 4's, which have recently been under pressure. Iron Mountain 5's were also conspicuous. Pittsburg and Gulf 1sts dropped to 67½, a fall of 2½ per cent., but fully recovered in the late dealings. Total sales, $5,315,000. United States 3's, old 4's registered and the 5's coupon advanced ¼ in the bid price. The new 3's were very active, the coupons selling at 106 nearly all day, which is the record price. There were 385,500 of this issue changed hands during the day.

The total sales of stocks were 379,800 shares, including 7,492 Atchison, 18,810 Chicago, Burlington and Quincy; 14,340 Manhattan, 7,766 Metropolitan Street railway, 10,590 Northern Pacific, 10,920 Rock Island, 28,541 St. Paul, 69,450 Tobacco, 12,410 People's Gas, and 33,648 Sugar.

MONEY AND EXCHANGE.—Money on call steady at 1¾@2 per cent.; last loan at 2 per cent.; prime mercantile paper, 3@4 per cent. Sterling exchange firm, with actual business in bankers' bills at $4.85¼@4.85⅝ for demand and at $4.82¼@4.82⅛ for sixty days; posted rates, $4.83@4.83½ and $4.86@4.86½; commercial bills, $4.81. Silver certificates, 61@62; bar silver, 60⅝; Mexican dollars, 47¼. Government bonds strong; State bonds strong; railroad bonds strong.

BANK CLEARINGS.—The total bank clearings in the United States for the week were $1,323,528,596; per cent. increase, 11.0. Exclusive of New York, $524,546,820; per cent. increase, 7.3.

COTTON MARKETS.

NEW YORK, Oct. 28.—COTTON—While the cotton market was very quiet to-day it was also very steady. Public cables and weather reports failed to make much impression either one way or the other. Private cables were decidedly hopeful as to the outlook for business with Egyptian spinners. The market was generally steadier, due chiefly to covering on the part of the more conservative shorts, who feared that the market had been extensively oversold at low prices. It was difficult to interest traders in cotton as a speculative venture, because the movement continued very heavy, and some were predicting a new record for maximum receipts to displace the record established last week. The market, therefore, had but little support beyond that furnished by the shorts themselves. This was sufficient to hold prices, but not to advance them to any considerable extent. The market was finally quiet at unchanged prices to 2 points net higher.
