3. Numerous bonfires to be lighted along the North and East Rivers, and in the Public Squares of the city.

The Joint Committee earnestly request that, during the firing from the Park, all the church bells in the city be rung, and the ringing continued for one hour; and that, in the evening, the citizens in the vicinity of the Park will illuminate their buildings.

SECOND.

On the arrival of the Niagara, a salute of 100 guns will be fired from the Battery and Park, and national salutes are expected to be fired from Fort Hamilton, Governor's Island and the Navy Yard, to be replied to from the Niagara.

THIRD.

1. The general festivities will take place on the day to be agreed upon with the authorities of the City of London, of which due notice will be given.

On that day, Cyrus W. Field, esq., and the officers of the Niagara and Gorgon will be received by the City authorities at the Battery, and, while being received, will be saluted with a salvo of 100 guns.

2. After the reception, Mr. Field and associates will be escorted by a procession of the military and civil bodies of the city to the Crystal Palace, where appropriate addresses will be made, and testimonials presented to Mr. Field, Capt. Hudson and Capt. Dayman of the Gorgon; also, an address to the Telegraph Companies.

3. The ceremonies at the Palace to be commenced by the vocal performance, by the various Musical Societies, of "Ashlewd is the glorious work," and closed with the doxology, "Praise God," &c., to the tune of "Old Hundred."

4. After each address, appropriate music will be performed by the instrumental bands, and an ode and a chorus will be sung by the societies.

5. At the conclusion of the ceremonies, the authorities and guests will be escorted from the Crystal Palace to the City Hall by the Firemen, in torch-light procession, together with such societies as may desire to cooperate.

6. Appropriate transparencies to be placed at the gates of the Park through which the procession will pass, and upon the City Hall, with a display of fireworks in front thereof.

The citizens are requested to illuminate their dwellings along the street through which the torch-light procession will pass.

FOURTH.

1. On the day subsequent to the reception and parade, Mr. Field and Captains Hudson and Dayman to be received by the authorities at the Governor's room in the City Hall, where they can receive the congratulations of the citizens from 1 to 3 o'clock, p. m.

2. In the evening, a municipal dinner to be given at some place to be selected.

It is intended that these festivities shall take place simultaneously with those at London and the cities throughout Europe, and it is respectfully requested that the citizens throughout the United States and the British Provinces will arrange to celebrate this great event upon the same day.

THOS. McSPEDON, Chairman.
CHAS. T. McCLENACHAN, Secretary.

The following communication was received by telegraph from Capt. Dayman, of the Gorgon, in reply to an invitation to attend the celebration of the successful laying of the Atlantic Telegraph Cable:

"ST. JOHN'S, N. F., Aug. 14, 1858.

"C. T. McCLENACHAN, *Secretary of Committee of the Common Council, New York.*

"SIR: I beg that you will convey to the Common Council of the City of New-York the best thanks of myself and of the officers of this ship for the honor they have conferred upon us by their kind invitation of this day, which it will give us the most sincere pleasure to accept, if the permission from the Admiralty should arrive in time. If not, we shall carry back with us to England their kind message as the first fruit of the united labors of the American and English naval officers.

"JOSEPH DAYMAN,
"Commander H. M. S. S. Gorgon."

The following communication was received from Vice-Admiral Sir Houston Stewart in reply to an invitation by the Joint Committee of the Common Council to participate in the ceremonies at New-York in commemoration of the successful laying of the Atlantic Telegraph Cable:

"HALIFAX, Aug. 14, 1858.

"CHAS. T. McCLENACHAN, *Secretary of Joint Committee of Common Council, New-York.*

"SIR: Your telegrams of yesterday have both reached me. I am much flattered by the invitation of the Common Council of the City of New-York, to be present at the celebration of that great and most important achievement which has just been accomplished, and it is with much regret that I find myself compelled to decline the distinguished honor, my duties demanding my presence elsewhere.

"With respect to the Gorgon, I have already signified to Mr. Field my inability to interfere in any way with Capt. Dayman's proceedings. He is not under my orders; I have no notice whatever concerning him, and he has instructions direct from the Admiralty by which he must be guided.

"I beg you will convey my grateful acknowledgments to all the members of the Common Council, together with my cordial good wishes for the successful issue of their laudable intention to commemorate an event which I earnestly hope will materially tend to cement those feelings of amity and good will which ought ever to prevail between the United States and Great Britain.

Is manufactured from common salt.
B. T. BABBITT'S BEST SALERATUS
Is prepared entirely different from other Saleratus. All the deleterious matter extracted in such a manner as to produce Bread, Biscuit, and all kinds of Cake, without containing a particle of Saleratus when the bread or Cake is baked; thereby producing wholesome results. Every particle of Saleratus is turned to gas and passes through the Bread or Biscuit while baking, consequently nothing remains but common Salt, Water and Flour. You will readily perceive by the taste of this Saleratus that it is entirely different from other Saleratus. When you purchase one paper you should take the old paper with you, and be very particular and get the next exactly like the first (same and picture, twisted Loaf Bread, with a glass effervescing water on the top, as you see in the bill).

To Whom it May Concern.

EMIGRATION to OCEANICA.—A project is on foot to establish an independent Colony upon unoccupied territory in Central Oceanica.

The projector of the Colony has visited this region, which he regards as eminently salubrious in climate and favorable to the human constitution, and has carefully matured a plan of emigration and settlement.

The Colonial and commercial establishment that is contemplated will be enabled, shortly after its arrival out, to send home a return cargo of valuable mineral and vegetable staples of commerce, the site for settlement being contiguous to a deep, spacious, land-locked harbor, and having coal and ship timber in the immediate vicinity; and, on account of position, will be available as a coaling station for lines of American steamships now projected to traverse the Pacific and Indian Oceans. It will also be in a position to control a lucrative insular trade with China, and will find ready and convenient market for many of its products in the ports of Australia.

This scheme of emigration and colonization has no connection with any peculiar religious or social organization. However, the projector, while contemplating the important commercial results that must attend the enterprise, entertains, at the same time, the highest hopes that from the center of industry and civilization about to be established, there will radiate pure religious and civilizing influences throughout this island world.

A company is partly formed—a few more are invited to join in the enterprise. The expedition will set out probable early in November next. For further particulars address, with letter stamp inclosed for answer, A. O. C., Box No. 2,327 City Post-Office.

Restricted to Fifty Students, one half being boarders, and supplied with Twenty Professors, Lecturers and Teachers, this Seminary offers the highest educational advantages; while it brings every pupil under the direct personal influence of the Teachers, and secures to each a kindly home influence and home feelings, and supplies, as far as possible, parental care and guidance.
