Caution.
Attention is respectfully invited to the following Letter from CYRUS W. FIELD, Esq.
NEW-YORK, August 24, 1858.
Messrs. TIFFANY & Co.—*Gentlemen:* At your request, and in justice to you, I am bound to state that I disposed of the entire balance of the Atlantic Cable on the United States steam frigate Niagara to your firm, and that if any other party claims to have any portion thereof, it must either have been procured from you or from the small specimens which were distributed on board before the Cable was laid, in which case the quantity is too small to be worthy of notice.
There is a peculiar interest attached to the Cable which you have bought—twenty miles of it were actually submerged in the ocean and recovered, *while through all of it the electric signals were being transmitted during the whole of the time occupied in laying the Cable.*
Of course, any quantity of Cable can be manufactured in England, and many specimens have been circulated in this country; but to few, if any of these, attaches the peculiar value which the Cable purchased by you possesses, from the fact that it is part and parcel of the Cable which is now actually laid. I remain, Gentlemen, very truly your friend,
CYRUS W. FIELD.
