IN RESPECT TO TRADE the present time is curious. Such merchants as combine the means of selling great lots and having the cash to pay for them have remarkable opportunities. Such is our case. Manufacturers know it, importers know it, wholesalers know it, consequently we are receiving weekly more than 200 cases of merchandise which were made to sell for a great deal more than the prices for which we are told to sell them to you. Some needed cash, some had too much stock. You see the results in our Special Sales ever day and the proofs are in our advertisements, in our store. Your failure to try us on anything you need to buy will cause you loss of money.
