"CATS AND DOGS" LOOSE IN THE PIT

Class of Securities, Not Animals, Made Things Lively in Yesterday's Operations.

MOROCCO MEETING AFFECTS

Foreign Markets Took Tranquil View, However, Discounts Harden a Trifle.

NEW YORK, January 15.—The upward tendency of prices was continued in today's stock trading, but the movement diffused into some outlying quarter of the market remote from the usual course of activity. There was conspicuous showing of a class of securities known in brokers' parlance as "cats and dogs." The reaching of a speculative movement into the depth of the stagnant portion of the list, only occurs in periods of great speculation. The turning of the demand to-day into the stock of the lower grade, was much more conspicuous in the industrial and miscellaneous stocks known in the low grade railroad stock. The sustaining forces in the latter department were still for the most part, amongst the high class securities. The Northwestern grangers and Pacifics were notable examples, the Hill group, Chicago and Northwestern, and its subsidiary stocks and St. Paul, all rising notably. There was a continuance of the very extensive profit taking, which characterized last week's market. The profit taking was especially marked in the Southwestern Pacifics, copper securities, and some of the coalers. The sluggishness of the coalers may have been due, in part to the assembling of the mine workers' convention. Foreign markets took a tranquil view of the Morocco conference, upon the eve of its convening. Discounts hardened a trifle however, in Loundon and Berlin and Sterling Exchange fell back a fraction in Paris.

Time loans for 60 and 90 days, were made as low as 5 per cent. The strength of the United States Steel preferred, was an offset to the prominence of some of the low grade industrials. The constant profit taking, made more impression on prices late in the day, than at any other time. The closing was fairly steady, but at only slight rallies from the afternoon reaction.

Bonds were firm. Total sales, par value $4,770,000.

United States bonds were all unchanged on call.

Total sales were 1,572,900 shares.

BALTIMORE STOCK MARKET.

BALTIMORE, MD., Jan. 15.—Seaboard Air Line, common and preferred—Nothing doing.

COTTON MARKETS.

NEW YORK, Jan. 15.—The cotton market was moderately active and showed some irregularity. The tone, however, was steady in the main and the market closed at a net advance of 5@15 points. Sales were reported of 300,000 bales. The opening was firm at an advance of 9@13 points, and shortly afterward all the active months were selling about 15@16 points higher on bull support and covering as a result of a much higher Liverpool cables and evidence of a better general demand through wire and commission houses, which was attributed by some to the influence of the resolutions passed by the New Orleans convention favoring a further reduction in acreage and holding the balance of the present crop for 15 cents. It seemed, however, as though the advance to 11.67 for March was attracting a good deal of realizing, this price representing a gain of about 35 points fro the low level of last week, and toward midday the market turned irregular. In the early afternoon it weakened under realizing and some selling by local bears on rumors of freer spot offerings, but after declining a point or two under the initial figures, rallied on a renewal of covering and later dispatches from the South, claiming a better spot demand very firm holders. The close was steady on tone and within 3 or 4 points of the top on active months. Southern spot markets, according to official reports, were unchanged to ⅛c higher.

Receipts at the ports to-day 19,652 bales against 33,572 last week and 20,955 last year. For the week 130,000 bales against 161,874 last week and 125,917 last year. To-day's receipts at New Orleans 7,969 bales against 9,959 last year and at Houston 4,067 bales against 4,244 last year.
