BUYING ACTIVE AND PRICES GOOD

Aggregate of Sales of Stocks Largest of Any Day of Week.

MONEY OUTLOOK IMPROVED

Absence of Selling Pressure Kept Up Confidence of Traders to the Close.

(By Associated Press.)

NEW YORK, July 20.—Soon after the turn of the first hour in the Stock Market to-day the sales of stocks had mounted to a total as great as for the whole day yesterday. The rate of increase in the animation in the market was by no means sustained throughout the session, but the day's total mounted to the largest for any day of the week. Buying at times was very active and well pursued on the advances, and the speculative tone showed a decisive change from the hesitation and timidity lately prevailing. There was a momentary dip at the opening, in response to the decided upset in the London market, but the placing of large orders in the leading stocks promptly swept prices to a higher level. There was a congestion of demand in a few stocks which have been conspicuous market leaders for some time. St. Paul, Union Pacific, Southern Pacific and Reading absorbed a large proportion of the total dealings. In the later trading some other stocks were brought forward from time to time, and the discrepancy in the movement partly rectified, but the stocks designated held a market pre-eminence in the dealings throughout.

Sentiment over the money outlook was improved here. Accepted authorities estimate the cash gain by the banks on the week's currency movement at upwards of $6,000,000, and a strong bank statement is expected to-morrow. The absence of selling pressure at the successive stages of to-day's advance kept up the confidence of the buyers and sustained the rise at nearly the top. Bonds were irregular. Total sales, par value, $1,045,000. United States bonds were unchanged on call.

Total sales of stocks were 894,700 shares.

BALTIMORE STOCK MARKET.

BALTIMORE, MD., July 20.—Seaboard Air Line, common and preferred—Nothing doing.

COTTON MARKETS.

NEW YORK, July 20.—The cotton market was more active to-day and ruled very nervous and unsettled with the close at a net decline of 4@5 points. Sales for the day were estimated at 200,000 bales.

The market opened at a decline of 3@3 points in response to lower cables from Liverpool and unsettling reports concerning financial troubles among London firms, which was supposed to arise from the unfavorable situation in Russia. Later cables from Liverpool said there was no cause for uneasiness so far as English financial circles were concerned, but reported an unfavorable opening of the market, which closed at a decline of 5@6 points. The market was quite active from the start, and bears raided it vigorously during the first few minutes in an effort to catch stop orders. But at a decline of about 7@10 points there was a big demand for the covering of the smaller shorts and through brokers supposed to be operating for leading bulls which rallied the market 3 or 4 points. Later, however, reports from the southwest that new bales were beginning to come in, and that the movement would be heavy in August (together with favorable weather reports and forecasts) started renewed pressure, and the low point was reached in the afternoon. There was a slight recovery toward the close on covering, and the final tone was steady. At the low point July touched the low level of the season and August sold under the previous low level of June 26th. Southern spot markets generally unchanged. Private crop reports conflicting.

Receipts at the ports to-day were 3,506 bales against 3,317 last week and 18,198 last year. For the week 25,000 bales against 27,636 last week and 103,715 last year. To-day's receipts at New Orleans 1,214 bales against 2,632 last year, and at Houston 700 bales against 8,068 last year.

Cotton futures closed steady.

Futures opened steady at a decline on Liverpool cables, prices for every month except July being 3@5 points down with the latter month unchanged. After the opening the market showed a further decline, accountable for mainly because of the Liverpool news. Crop reports were conflicting and uncertain in their effects on the market. Toward the close prices rose slightly from the lowest. The closing was barely steady and at a net decline of 2@3 points.

RICHMOND PRODUCE MARKET.

FLOUR—Market continues very quiet; very little doing; receipts light. WHEAT—Market continues active for all good, dry wheat. We again urge farmers not to thresh their wheat while it is in a damp condition, and to see that it is dry and well cleaned before shipping, as damp, oniony, and samples not well cleaned are dull and neglected, and have to be sold at low prices. CORN—Receipts light and demand good. OATS—Quiet and steady; light receipts; winter seed oats in good demand. RYE—Unchanged; quiet; light receipts. HAY—All good grades of hay are in active demand at quotations. Off grades, stained, musty, etc., not wanted. Country produce—Very dull.

POTATOES—Receipts and demand light. Nearby stock being in plentiful supply.

EGGS—Active at prices quoted. Receipts light.

BUTTER—Unchanged; firm at quotations. Receipts moderate.

POULTRY—Receipts heavy and in excess of demand. Market quiet and in buyers' favor. No advance in prices can be expected until receipts are considerably decreased.

VIRGINIA BACON—Receipts continue light and market active at full quotations.
