New York Stock Market

New York, July 21.—With frequent periods of inactivity the stock market to-day resumed the upward movement inaugurated last week. Practically all market leaders rose 1@2 points on heavy trading in United States Steel, Union Pacific, Reading and Amalgamated. These stocks, as usual, comprised the bulk of the day's operations, but trading as a whole was broader than for several weeks. The notable exception to the upward movement was Wells-Fargo, which sold down to par, the lowest in twenty years.

News of the day was of the usual diversified character, including developments in the Balkans, which imparted firmness to London and Paris, while Berlin displayed nervousness over Turkey's reported intention to reoccupy Adrianople. London and the Continent were buyers here, probably of 25,000 shares, principally Steel, Union Pacific and Amalgamated. Private advices from Rio de Janeiro pointed to extreme financial tension in Brazil.

Union Pacific's preliminary statement for 1912-13 was the outstanding feature. The estimated surplus shows earnings equivalent to 15.96 per cent on the common stock, without including the fourth quarterly dividend on Southern Pacific, which would increase the surplus to 15.94 per cent compared with 13.8 per cent, the previous year. Baltimore and Ohio also submitted a creditable report for the same period.

Railroad tonnage in the Middle West was lighter last week, and further curtailment of business was reported. Money rates West and Southwest are quotably higher, in contrast to local conditions, where greater ease was shown.

Bonds were generally higher with an increase of business. United States 2s and 4s and Panama 3s declined ½ per cent on call. Total sales, par value, aggregated $1,535,000. Total stock sales 340,300 shares.

New York, July 21.—Money on call steady, 2@2½ per cent; ruling rate, 2½; closing bid, 2¼; offered at 2½. Time loans easier; sixty days, 3¼@¼ and ninety days, 3¾@4; six months, 4@4¼. Prime mercantile paper, 4½ per cent. Sterling Exchange steady, with actual business in bankers' bills at $4.8275 for sixty day bills and at $4.8500 for demand. Commercial bills, $4.83. Bar silver, 58¾. Mexican dollars, 46. Government bonds weak, railroad bonds firm.

COTTON MARKETS.

New York, July 21. With a sudden drop in temperatures over the entire cotton belt on Sunday and heavy showers in parts of the South Atlantic States, the cotton market developed moderate heaviness Monday and closed steady at a net decline of 5@12 points. On opening, it did was steady and 5@11 points higher, reflecting the some degree the weakness at Liverpool, which at the close of the local opening was about 5@6 points lower than due. Early trade been influenced by the disappearance of the temperatures over the cotton belt. The opening was quiet, liberal and included a fair amount of the offerings brought in by local traders on the decline of Wednesday the hot weather scare. These were fairly well absorbed however, and as there seemed to be some conflict of opinion in private advices from the South, the statement that there were buying from Wall Street and Liverpool sources relieved the market of pressure and prices recovered about half of their early loss. According to some authorities the drop in temperature has been feared by the trade, but the weather scare fears are expressed that there may be some sections of the eastern belt following the Monday's the frost-breaking heat of last week may cause shedding. This gave encouragement to local bears, and the market acted quite heavy at the decline. Later on, on the close had been given willing offers from the local to spot houses, checked the improvement and caused a moderate attack. As freely predicted on Saturday, the detailed weather report showed a continuation of extremely hot weather temperatures in the central and eastern belt, to the close of last week, but indicates a drop of 20@25 points in the maximums on Sunday. Aside from scattered showers, however, there was no rain and many private advices from the western belt said the crop would suffer unless the dry weather ended soon. The trade is divided, however, on the question of the effect of the hot weather, some contending that the dry weather had little injured the boll weevil damage, and some took the view that this more than offset up to the present time any drawback that may have occurred in Texas through drought.

Cotton futures closed steady:

Spot cotton closed quiet; middling uplands, 12.00; middling gulf, 12.25. Sales, 150.

Cotton quiet; middling 12.40; gross receipts 1,835 bales; sales 150 bales; stock, 21,000 bales; to France 700 bales; to the Continent 250 bales. Coastwise, 1,091 bales.

Total to-day at all ports—Net receipts, 3,820 bales; export to Great Britain, 1,750 bales; to France, 700 bales; to the Continent, 1,050 bales; stock, 375,405 bales.

Consolidated at all ports—Net receipts, 4,637 bales; export to Great Britain, 1,750 bales; to France, 700 bales; to the Continent, 2,421 bales; to Mexico, 190 bales.

Total since September 1, at all ports—Net receipts, 4,756,356 bales; export to Great Britain, 3,476,149 bales; to France, 955,656 bales; to the Continent, 2,626,[illegible] bales; to Japan, 386,020 bales; to Mexico, 14,[illegible] bales.

New Orleans, July 21.—Improvement in weather conditions over the belt held the cotton market down today, but while offerings were freer the short side did not aggressive, and in the afternoon the market had a very steady tone on moderate buying and threatened to make a full recovery from the decline. This buying appeared to come from covering shorts as much as it did from bullish traders who were taking the long side.

The weather reports noted considerable rain over the belt and a fall in temperatures. Many bales of new cotton were reported at various points in Texas, and rumor had it that a bale of new cotton had been ginned at Selma, Ala.

The market opened steady at a decline of 5@7 points on poor cables and the weather map. In the early trading the decline was widened to 7@8 points on the new crops. This was the low of the day. In the afternoon prices worked up to within a couple of points of Saturday's close, and closed at a net loss of 2@5 points. The tone on the close was steady. Spot cotton quiet and unchanged; middling, 12.7-16c; sales on the spot 523 bales and 100 to arrive. Cotton futures closed: July, 12.37; August, 12.30; September, 11.94; October, 11.59; December, 11.56; January, 11.58; March, 11.67.

Killed by Lightning.

[Special to The Times-Dispatch.]

Fayetteville, N. C., July 21.—Newton McFadden was killed by lightning when his father's house, near Sandy Grove Church, in Hoke County, was struck last night, while his bedfellow, George Livingston, was unharmed. Part of the house was wrecked.

MULVEY PRAISES RICHMOND TOWN

Declares That Norfolk and Portsmouth Are Not in Our Class.

"After a week's visit in Richmond, and making a careful inspection of the growth of its manufacturing industries, I have never been more surprised than at the progress that has been made in the past twenty years," said James A. Mulvey, secretary of the Central Improvement Association of Portsmouth, Va., on yesterday.

"I thought we had been doing some wonderful things along that line in Norfolk and Portsmouth, but must confess we are not in it with Richmond's growth along municipal lines, industrial growth, land development, and especially in the hotel and apartment house skyscrapers recently erected and in course of construction.

"I was especially surprised at the number of new residences under construction along the Forest Hill electric line in South Richmond, which demonstrates clearly the benefits to the smaller city from annexation.

"More than ever I am convinced that Norfolk and Portsmouth must consolidate, and get together in the commercial and industrial race, if they wish to keep pace with the rapid strides Richmond is making."
