STRONG PRESSURE ON THE MARKET

Prices Crumble Under Enforced Liquidation—Trading is Heavy.

New York, Sept. 4.—Renewal of professional pressure, combined with enforced liquidation, effected extreme declines of 3 to 10 points in today's active marvket. Sales approximated 1,100,000 shares.

Resumption of operations on the stock exchange after the triple holiday was attended by many substantial rallies from last week's final prices. United States Steel, the market leader, opened at 110⅝ to 111, a maximum gain of 1½ points. Crucible Steel advanced as much and other industrials as well as equipments and coppers rose 1 to 2 points with shippings and prominent specialties.

Rails were irregular, material gains in New York Central and Reading being offset by the heaviness of Pacifics and the southern division.

Except the rails, which were retarded by weakness of New York Central and New Haven, almost all early prices were surpassed. Texas Company advanced 7½. Marines and other shippings 1½ to 3½. Baldwin Locomotive 4, and other industrials and metals 1 to 2.

United States Steel extended its gain to 111⅝ and some of the high grade specialties, including Industrial Alcohol, registered further advances with motors. Prices reacted fractionally at noon on the 6 per cent call money rate. Liberty bonds were active at 99.90 to 99.94.

Selling of rails assumed the proportions of a liquidating wave later, although originating largely, according to reports, from professional quarters. Investment issues registered lowest quotations of recent years and others established absolute low records. Industrials broke violently, reacting 3 to 6 points.

Prices melted away in the final hour when selling was at its height. The closing was weak. Liberty bonds 99.88 to 99.94.

GOVERNMENT PLAN WORKS SMOOTHLY

U. S. Food Administration Buys All Wheat in This Country Today.

Chicago, Sept. 4.—Government buying of wheat began today, and proceeded as automatically as operations over the counter at any ordinary national bank. There was only one standard of values, the basis of $2.20 a bushel for No. 1 northern grade. Consignees in receipt of wheat merely had to send their commodity into storage at a warehouse and on turning the receipt over to a representative of the food administration were given a check for cash in full payment.

Estimates were current that the 1917 domestic yield would be about 687,000,000 bushels, an enlargement of 25,000,000 bushels since August 1.

Frost damage reports from the northwest had a bullish effect on corn. Opening prices, which ranged from ½c off to ¼c advance, with December at $1.11⅛ to $1.11⅜, and May at $1.07⅝ to $1.08, were followed by an advance all around to well above Saturday's finih.

Assertions by a leading expert that the crop condition for the United States as a whole on September 1 was 76 as compared with 79.2 on August 1, gave a further advantage to the bulls, but weakness in the New York market led a decided reaction. Prices closed heavy ⅝ to ⅝c net lower, with December at $1.11 to $1.11⅛, and May at $1.07¼ to $1.07⅜.

Oats sympathized with the strength of corn.

Lower quotations on hogs pulled down provisions.

windows were broken. One party raided the premises of an officers' training corps and stole 56 rifles, 30 revolvers and a number of swords. The correspondent reports that he talked with several American sailors yesterday and that they believed the affair was organized, but not aware of the reason. They said they had been well teated hitherto in Ireland.

107 NAVAL MEN ARE KILLED IN AERO RAID

(Continued from Page One.)

came into action, but without result.

"The secretary of the admiralty reports that in the course of the air raid last night the following casualties were caused to naval ratings: Killed, 107; wounded, 86."

A dispatch to the Star from Chatham says that part of the naval barracks there was struck by a bomb during last night's air raid, this causing serious loss of life. The Chatham dock yard, the message states, entirely escaped damage.

Chatham is on the east bank of the Gedway, 30 miles southeast of London. It is the seat of immense military and naval establishments, including a vast dock yard, an arsenal and extensive barracks.

The term naval ratings applies to the grade of men on board ships, usually those before the mast.
