VAN KISE IS CAUGHT

Deputy Sheriff Walker Captures a Suspected Horse Thief.

MORE CRIMES TO ANSWER FOR

It Is Believed Also That Van Kise Is the Man Who Burglarized McCoy's Store Near Grandville.

Deputy Sheriff David Walker, of Lowell, made a clever capture yesterday afternoon and through his means, Charles Van Kise, whom the officers believe to be an expert horse thief and burglar, is now stopping at the Hotel de L'Amoreaux. About the first of June, Van Kise hired a rig from Liveryman Phillips of Lowell, and like the gentleman in the song, "he never came back my more." The rig was found, however, pitched out in the road near Ada. Since this achievement officers have searched diligently for Van Kise, but without success until Deputy Walker came up with his man yesterday near Cedar Springs. The officers say that the prisoner obtained a rig from Benton Harbor by the same methods and that his description tallies with that of the man who broke into McCoy's general store near Grandville a few weeks ago. The sheriff's force are of course greatly rejoiced over the capture.

Prays for Another Guardian.

Mrs. Nellie S. Munson of New York city filed a petition in the probate court yesterday asking that she be appointed guardian of her mother, Hannah Porter, widow of the late Lewis Porter, of this city. Mrs. Hannah Porter is an inmate of a private insane asylum at Hartford, Conn., and has hitherto been under the guardianship of his brother, John Porter of Wyoming township, who died June 11. The estate in question consists of $5,000 in personal property and the Porter block on the corner of Monroe and Division streets.

Mrs. Dickon Is Free.

Judge Adsit yesterday granted a decree of divorce in favor of the complainant in the case of Carrie Dickson against Herbert C. Dickson. The grounds are non-support and drunkenness, but, in accordance with Judge Adsit's usual custom, the husband is prohibited from marrying again within two years.

Court Notes.

Josie Van Cise had a pitiful story to tell Judge Haggerty yesterday concerning the desertion and cruelty of her husband, James. After hearing all the details, sentence for non-support was suspended until July 22. Meanwhile, it is said, Josie will begin divorce proceedings.

Elmer Kicer, a small boy arrested Tuesday for stealing bananas from a G. R. & I. car, was released from police court yesterday afternoon upon payment of $2.85 fine and costs.

B. Yonkers, an Alpine avenue druggist and groceryman, was held yesterday afternoon in police court to answer the charge of selling liquor as a beverage.

George Baker and James Baker must answer in the superior court to a charge of larceny from a dwelling and from a store.

CRUEL JULY

Fearful Death Rate This Month.

Infants Die for Better Food

Anxiety in Thousands of Homes.

Improper Diet Should Be Avoided.

Lactated Food the Preventative of Cholera Infantum.

The Safest and Best for Little Ones.

Pre-Eminently the Most Nourishing and Natural.

Thousands of homes are now thoughtful and anxious for the safety of the little ones during the hot weather.

No one thing is so essential to their health and safety as a wise choice of food.

In the four summer weeks ending July 17, last year, the mortality of infants under a year old in the state amounted to 48.2 per cent; under two years, 60 per cent; under five years, 64 per cent of the total mortality. The mortality of babies under a year was about equal to the total average mortality for the whole year of all diseases under ten years.

The cold, cruel, statistical proofs which might be accumulated indefinitely, show only what physicians know too well—that improper diet in the summer destroys baby life in uncommon numbers. And they prove, also, that it is mainly the infants who suffer from the effects of the season, on this account.

The epidemic of bowel affections of children frequently corresponds with the rise in temperature, but the causes always lie in unsuitable diet.

An absolutely pure and reliable infant food had therefore been eagerly sought for years as a substitute for pure mother's milk.

Lactated food solved the problem completely. It stands today pre-eminent above all others. Infants fed upon it suffer less, and fewer die, it is now well known, than those fed upon anything else. It is used in the big charitable institutions for children. It has saved the lives of thousands of infants during the hot, dangerous months of summer.

It is indorsed by the best physicians, by nurses, and by happy, grateful mothers in every town and village in the land.

Sugar of milk, the basis of mother's milk, is the basis of lactated food. With it is combined pure barley malt, the finest wheat gluten, and the nutritious elements of the oat. It is thoroughly cooked by high steam heat, and a predigested, nutritious food is made that fulfills every requirement of the growing child. It is by far the safest food a child can eat in the summer. It is a true preventive of cholera infantum.

No home where there is an infant can afford to be without it.

Lactated food saves babies' lives!

A remedy which, if used by Wives about to experience the painful ordeal attendant upon Child-birth, proves an infallible specific for, and obviates the tortures of confinement, lessening the danger thereof to both mother and child. Sold by all druggists. Sent by express on receipt of price, $1.50 per bottle, charges prepaid.

BICYCLES

King Richard's cry, "My kingdom for a horse!" arouses little enthusiasm in these days when not a horse, but a Safety, is the one desire of all, both young and old.

It's right it should be so.

What, a more healthful or more delightful than a spin over a smooth road?

The cool air fans one's cheek as with shout and laughter we skim along.

Distance counts for nothing. Two, four, six miles we easily cover before breakfast, and with renewed health and vigorous appetites we begin a day of work or pleasure with cheerful thoughts and a clear brain because of an hour's use of our Safety.
