DRESS CUTTING MACHINES.

BUDDINGTON'S CELEBRATED PATENT Dress Cutting Machine, patented February 13, 1883, leads all other systems of dress cutting. It was awarded first prize at World's Fair, New Orleans, 1884-5.

An adjustable tailor's system, which can be learned in a few hours' time, for cutting ladies' and children's wearing apparel.

This machine is made of metal and is adjustable in every part, and is set to the eight measures required in fifteen seconds.

With it a lady can cut for the most difficult figure without changing seams.

Two thousand three hundred machines have been sold in Utah during the last five years.

The Buddington dress cutting machine is a great success. The dressmakers say it is the greatest invention in their line since the introduction of the sewing machine, and is being used as extensively.—*Chicago Daily Telegram.*

Retail price, $3; with six lessons, $5.
