Among the judges were Gottschalk, Wm. Mason, H. A. Wellenhaupt, and other musical celebrities. STEINWAY & SONS do not refer to artists who were in this country many years ago, or to certificates and testimonials given a long time since as it is a well-known fact that such important improvements have been made in piano quite recently that many makers whose instruments were justly considered to rank among the best years ago cannot by any means claim the same position at the present time. We subjoin the following certificate, given within the last six months, by nearly all the leading and most prominent artists and musicians now residing in this country: The undersigned, having personally examined and practically tested the improvement in Grand Pianos invented by H. STEINWAY, in which the covered strings are overstrung above those remaining, do hereby certify: 1 That as a result of the said improvement the voice of the Piano is greatly improved in quality, quantity, and power. 2 The sound by Steinway's improvement is much more even, less harsh, stronger, and much better prolonged than that realized in any other Piano with which we are acquainted. 3 The undersigned regard the improvement of Mr. Steinway as most novel, ingenious, and important. No Piano of similar construction has ever been known or used, so far as the undersigned know or believe.
