CARTER'S COMBINED Writing and Copying Ink.

A PERFECT ARTICLE.

Almost every one is searching for a perfect writing ink, and here it is. Ten years of constant use by many of the largest banking institutions and commercial houses in the country, by all the Government Departments, and by thousands of individuals for private correspondence has established the superiority of Carter's Ink beyond question.

These are some of the advantages of this Ink:

1st. Being equally good for book-keeping, ordinary writing or copying, it does away entirely with the inconvenience of using two kinds of ink.

2d. It flows from the pen as freely as any writing fluid.

3d. It gives a cleaner, better copy, with less spreading, than the best "copying ink."

4th. It is permanent, and cannot be erased even with acids.

5th. It does not fade, but grows blacker with age.

6th. It cannot mould, and consequently there is no waste.

7th. It does not thicken by exposure to the air.

8th. It will stand freezing without injury, and may be reduced with water without precipitation.

9th. The color, when first used, is a beautiful dark green, but changes in a very short time to a brilliant jet black.

10th. It is cheaper than any other ink, because a dollar's worth will do more writing.

11th. It is the best ink adapted to the most delicate writing, and always "makes its mark."

12th. It is warranted to flow as freely as any writing fluid, and to produce a perfect copy as any copying ink, and not to thicken or mould.

We are the Sole Agents for the sale of this Ink in this city, and unhesitatingly recommend it to our customers and all others.

It is put up in Quarts, Pints, Half Pints and Ounces. ASK FOR CARTER'S INK.

WASHINGTON FACTS AND IMPRESSIONS.

INTERNAL REVENUE RECEIPTS yesterday were $505,913.90.

JUDGE PATTERSON, of Alabama, will probably succeed Judge Fisher on the bench of the Supreme Court of this District.

H. J. NORTON has been appointed a temporary clerk in the finance office of the Post Office Department vice J. P. Richardson, promoted.

D. F. HOUSTON, of Penn., and Henry S. Martin, of Ohio, have been appointed special agents of the Treasury Department. The former will be assigned to duty at Philadelphia.

AMONG those who had interviews with the President yesterday were A. J. Rauzier, esq., chairman of the Republican Executive Committee of South Carolina, and F. L. Cardozo, Secretary of State of South Carolina.

THE PRESIDENT yesterday received engrossed resolutions of condolence on the death of Gen. Thomas from the Legislatures of New York and Ohio, both signed by the Governors of the States.

THE LEGAL TENDER CASES.—The argument in these cases will not be taken up before Wednesday, it is likely, in consequence of a long case which was taken up just before the adjournment of the court last Thursday being still under consideration.

THE HEADS OF DIVISIONS in the office of the Secretary of the Treasury have, at his suggestion, designated a clerk to attend the mail matter of their respective offices in order to secure a prompt transmissal of letters on the day they are written and signed.

THE SECRETARY OF THE NAVY yesterday received a letter from Commander J. G. Walker, of the frigate Sabine, announcing that he had arrived at Gibraltar on the evening of March 22, ten days from Naples, and would sail with the first fair wind for Madeira. All well on board.

IT WAS RUMORED last night that Minister Thornton had protested on behalf of his Government against the interoceanic canal treaty across the Isthmus of Darien unless the British Government was allowed to participate equally with the United States. It is understood that this right is claimed under certain treaty stipulations.

CONSCIENCE FUND.—The penitential season of Lent did not excite that compunction which might have been expected throughout the country, and the conscience fund was scarcely increased $10 during the six weeks just passed. The collector of internal revenue of the Second Maryland district yesterday forwarded $5 from some one who acknowledges that he has swindled the Government to that extent.

NATIONAL THEATRE.—Mr. Neil Warner, as Othello, made an admirable "hit" last night. Claude Hamilton astonished his warmest friends as Iago, and the oldest habitues of the theatre will asseverate that a better Desdemona has not appeared on the stage in Washington for the last half dozen years than Lillie Eldridge. To-night Mr. Warner will appear as Hamlet, with Miss Eldridge as Ophelia.

ANOTHER SIXTEENTH AMENDMENT.—In the Senate, yesterday, Mr. Drake introduced a joint resolution, which was referred to the Judiciary Committee, proposing the following sixteenth amendment to the Constitution:

"Sec. 1. That the United States shall protect each State against domestic violence whenever it shall be shown to the President, in such manner as the Congress may by law prescribe, that such violence exists in such State.

"Sec. 2. The Congress shall have power to enforce this article by appropriate legislation."

DIVORCES IN THE DISTRICT OF COLUMBIA.—Mr. Mungen introduced in the House yesterday a bill concerning divorces in the District of Columbia, which provides that in all cases in which by law the Supreme Court of the District of Columbia is authorized to decree a divorce from bed and board, it shall have authority in its discretion to decree a divorce from the bonds of matrimony. Referred to District Committee.

NOMINATIONS.—The President sent the following nominations to the Senate yesterday: J. Guest King to be collector of customs at Annapolis, Md. Wm. F. Slater to be postmaster at Wytheville, Va. First Lieutenant P. C. Pope to be captain in the Marine corps. Second Lieutenant M. C. Gordrell to be first lieutenant in the Marine corps. John L. Neilson to be assistant surgeon in the navy. Charles F. Eastman to be assistant paymaster in the navy.

THE PRESIDENT intends spending his summer vacation this year principally at Long Branch. A handsome cottage erected for him is nearly finished, and is already known as "The White House." It is situated on the grand drive from the Stetson House to the race course, which is to be called President's avenue. President Grant will, if the session of Congress is not protracted late into the summer, make a tour of the Northern, and perhaps some of the Western States.

COMMISSIONER DELANO has received a letter from some newspaper man at Hartford, insisting that under the law he has a right to inspect the income returns of the assessor's office, and that there is no authority to prevent his publishing the list if he chooses to copy it. To this the Commissioner replies that the order recently issued is prohibitory to the fullest extent, and that permission to examine the books does not confer the right to copy the list. The order will be strictly enforced and no facilities given for collating such information as has hitherto been published.

RIGHTS OF RECEIVERS.—In the case of Hooe et al. vs. Wilson, from the Supreme Court of this District, the Supreme Court of the United States, yesterday, held that the receiver of property appointed by the court could not be a purchaser at the judicial sale of such property, in consequence of his fiduciary relations to it, and to all the parties, as trustee. Wilson, as receiver of certain property in the District, had become the purchaser at the sale, and claimed that he had a right to do so, because his fiduciary relations did not extend to the property itself, but only to the rents and incomes therefrom. The decree below was reversed.

VISIT OF THE PRESIDENT TO GEORGETOWN.—The President, accompanied by Secretary Robeson, yesterday afternoon paid a private visit to Duvall's foundry, Georgetown, for the purpose of witnessing the practical operation of the new petroleum fuel process of Messrs. Whipple & Dickerson, which has attracted so much attention of late. It is hardly necessary to state that the distinguished visitors were much impressed with the results before them, especially when they learned that this was not a mere experiment with an invention, but its every day practical operation.

The adaptation of this new fuel to the primary industries of the country was alluded to by the President in a manner which shows that he is fully alive to the necessity of progress in this direction, and both he and Secretary Robeson seemed gratified at the degree of success in this respect, which is attained in this new discovery. The feature which attracts most attention in this process, especially from experts and scientific men, is the perfect degree of combustion achieved by combining the hydrogen and oxygen of the steam with the carbureted hydogren of the oil. Yesterday it seemed nearer perfection than ever.

APPORTIONMENT OF REPRESENTATIVES.—The following is the bill which passed the House yesterday in relation to the new apportionment of Representatives among the several States:

A BILL to provide for the apportionment of Representatives to Congress among the several States.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That from and after the 3d day of March, 1871, the House of Representatives shall be composed of two hundred and seventy-five members, to be apportioned among the several States in accordance with the provisions of this act: *Provided*, That if after such apportionment shall have been made any new State shall be admitted into the Union the Representative or Representatives of such new State shall be additional to the number of two hundred and seventy-five herein limited; and if the number of Representatives of any State shall be reduced by such apportionment such reduction shall not take effect in the Forty-second Congress, but such State shall have the same number of Representatives in the Forty-second Congress to which it is by law entitled in the Forty-first Congress, and any Representative or Representatives which such State may have in the Forty-second Congress in excess of the number fixed by such apportionment shall be additional to the number of two hundred and seventy-five herein limited; and if the representation of any State shall be increased by such apportionment, any additional Representative or Representatives of such State in the Forty-second Congress shall be chosen by the State at large; and all other Representatives of the Forty-second Congress shall be chosen in the respective Congressional Districts now provided by law in the several States.

SEC. 2. That after the next enumeration of the inhabitants of the United States shall have been completed according to law, and before the fifteenth day of August, eighteen hundred and seventy, the Superintendent of Census shall prepare and submit to the Secretary of the Interior a preliminary report of the results of such enumeration, embracing such statistics as shall be necessary to enable the Secretary of the Interior to perform the duties in this act prescribed.

SEC. 3. That after the preliminary report provided for in the foregoing section shall have been submitted to the Secretary of the Interior, he shall ascertain from such preliminary report, the basis of representation of each State, and the aggregate basis of representation of the United States; and he shall ascertain the basis of representation of the several Congressional districts by dividing the aggregate basis of representation of the United States by the number two hundred and seventy-five, rejecting any fraction of a unit which may remain; he shall ascertain the number of representatives to be apportioned to each State by dividing the basis representation of such State by the basis of representation of the several congressional districts, rejecting any fraction of a unit which may remain; and he shall apportion so many additional representatives to the States having the largest rejected fractions, one to each, as shall make the whole number of representatives two hundred and seventy-five.

SEC. 4. That the Secretary of the Interior shall, on or before the 10th day of September, 1870, prepare and transmit, under the seal of his office, to the Speaker of the House of Representatives, and also to the Governor of each of the States, a certified statement of his proceedings under the provisions of this act.

SEC. 5. That all acts and parts of acts in conflict with the provisions of this act are hereby repealed.

What Troops First Entered Washington.

Representative Cake of Pennsylvania, who offered a resolution in the House of Representatives yesterday providing for the award of a medal to each Pennsylvania soldier who entered the capital on the 18th of April, 1861, was one of that advance guard, serving then as corporal in the Pottsville Light Infantry which he had formerly commanded. These Pennsylvania troops 430 strong entered the eastern door of the Capitol, about sunset of April 18, 1861.

They were only partially uniformed, and they had but about thirty muskets, having been hastily mustered into the United States service at Harrisburg the day previous, and sent here to be uniformed and armed. They came from Harrisburg to Baltimore with, and escorted through the last named city by a company of fifty regulars, well armed, who had come from the West to reinforce the garrison of Fort McHenry. This, however, did not prev
