PROSPECTUS OF The Comet.

THE subscriber proposes to publish in the town of Raymond, Mississippi, a weekly newspaper, called "THE COMET," to be devoted to Politics, Agriculture, Literature and the dissemination of useful knowledge.

In its politics the Comet will earnestly and firmly advocate the cause of DEMOCRACY; and will give its untiring exertions to the dissemination and defence of those views of political economy, and of the administration of our Government, which constitute the elements of that political creed. To the great work of deliverance from the corrupting and enervating influence of the paper money system, which, with all its attendant curses, has been crushing down, like an incubus, the energies of our Republic, the Comet will bring, most heartily, all the aid Providence may permit it to command. To oppose this work, so nobly commenced by the preceding, and pursued by the present Administration, it is believed the off-casted hacks of Federalists, and the would-be aristocrats of Bank monopolies have league d themselves for a last desperate struggle.—With a Jesuitism and insidiousness suitable to such an object, they are endeavoring to hide from the public their real purposes; and in accordance with that contempt for the people which is at the bottom of all their manœuvering, instead of addressing themselves fairly to the popular understanding, so that a judgment may be obtained on their principles, they are appealing to the lowest appetites and prejudices, and are attempting to awake an excitement in favor of a candidate whose pretensions to the Presidency they make to consist, mainly, in his (at least doubtful) claims to military renown; in his living in a "log cabin," and an extraordinary virtue of drinking "hard cider"—a candidate who insults the people by virtually saying, that such is their ignorance and caprice, that these are the most effective means of electioneering for their suffrages; and absolutely refuses to make any declaration of his principles for the public eye. In view of these things, it is thought high time that every sober and reflecting citizen—every friend to truth and fairness, should be called upon to give his support to the cause of sound and constitutional government, and set his face against such unhallowed attempts to corrupt and debauch the public mind. It has *heretofore* been acknowledged by all parties, that one of the maxims of our Republic should be "principles, not men." This maxim, which the opposition seem now to have openly thrown aside, it shall be the object of the Comet to keep steadily in view. Warning the people alike against a blind devotion, or a phrenzied opposition to particular leaders—it will endeavor to address itself fairly and candidly to the understanding of its readers; and while justice and freedom are the objects for which it shall battle, truth shall be its motto, and argument its weapon.

A considerable portion of its columns will be devoted to such subjects as will interest the Farmer and the Husbandman.

To advance the cause of education, morality and religion, will be its constant aim; while it shall no less strenuously exert itself to diffuse into the community a taste for reading, by opening its columns for such selections and original literary communications as shall render it a sheet to be welcomed in the domestic circle of every family. In short, no exertions shall be wanting to render its columns acceptable to every class of readers.

The Comet will be printed on a large imperial sheet, to appear every Friday, and will be a permanent establishment.—Terms, $5 for 12 months, in advance; $2 50 for 6 months.

The editorial department will be committed to Messrs. J. J. DAVENPORT and JOHN JENKINS.

J. E. MARTIN.

Raymond, July 9th, 1840.

To the Public.

THE rights of Editors and publishers of papers have been too long neglected. Justice will never be done unless they themselves assert their rights & enforce the most rigid rules, which in the end will be found alike salutary to the public and beneficial to those engaged in the press. Publishers of papers have been so long imposed upon by the community at large, that they are considered to some extent a degraded class of beings, when in fact there is no situation in life so honorable, deserving of so high consideration, productive of so much good or a class which exerts so powerful an influence. It is known to be proverbial for the debtors to newspaper publishers to consider their demands as the last to be paid—debts to which there is attached no moral obligation, and which they can refuse to pay with justice and honor; hence it is incumbent upon the conductors of the press to assert their own rights, and resolve, severally and jointly, to bring all patrons of newspapers under the same obligations that attach to other contracts, or always remain in poverty and want, with thousands due them from the most solvent men in the country.

We call upon all editors and publishers of papers who approve of the following rules to endorse them by their signatures—place them at the head of their papers, and strictly adhere to them.

1. No subscription received without payment in *advance.*

2. No subscription received for less than six months.

3d. Advance payment will be required from all transient advertisers.

4th. To announce no man for any office, either state or County, without the *advance* payment of *ten dollars.*

5th. Political circulars charged as advertisements and payment required *in advance.*

6th. All advertisements of a personal altercation will be charged double, and payment required in advance.

7th. Election tickets will not be printed without order, nor delivered to any person without payment in advance.

8th. All subscribers, without respect to persons who are delinquents, on the first of October, will be stricken from our list and their accounts put in suit.

The above rules, we the undersigned, pledge ourselves to abide by.

Notice.

HAVING purchased of Mr. T. B. Rundle, the right of Waterman & Leonard's labor saving Brick Machine, I now offer to dispose of individual or county rights to suit purchasers.

This machine has been in operation the past season, a sufficient time to test its utility as it respects its durability, and the saving of labor.

The principal advantages this machine has over all others now in use, consists in the simplicity and strength of its structure, having no complication of machinery that is liable to get out of repair, and the capacity it imparts the clay and moulds the brick making from 60 to 80 per minute with the aid of two horses, four men, and a sufficient number of boys to bear off the brick.

Those wishing for a cheap and expeditious method for manufacturing brick would do well to avail themselves of this opportunity.

All communications addressed to the subscribe will meet with immediate attention.

COMMISSION MERCHANTS,

Refer in Lowndes county to Messrs. Franklin & Dunber, C. H. Abert, Esq. Richard Barry, Esq.

Treasurer's Office.

City of Jackson, February 8th, 1840.

SIR:—Herewith you will receive a copy of an act of the Legislature, passed this day, prescribing the kind of funds receivable in payment "for all taxes and dues to the State."

From the assessment rolls returned to the Auditor's office it appears that much property in your county, subject to taxation, has not been assessed. The law in such cases requires the tax collector to assess taxes on all property omitted by the assessors, and to collect and pay the same into the State Treasury.

Below you will find a statement of a portion of the property not assessed in your county. You will be particular to assess and collect the lawful tax on said property.

I am instructed to notify you, that suit will be instituted on your bond, unless the taxes due on the first day of March, 1840, are paid over before that time, into the State Treasury. Interest, at the rate of thirty per cent. per annum will, in all cases, be exacted, as required by law, on all arrearages.

I am, Sir, yours, respectfully,

JAMES G. WILLIAMS,
State Treasurer.
