The upper floor of the main State Capitol building is to be of well seasoned, tongued and grooved plank, so that it may be usable by the young people for dancing parties.

We notice a considerable quantity of home-made hay on the streets for sale. It is a "drug" in this market, and farmers would do well to keep it at home and feed it to their stock.

The preparations for the State Fair are progressing very satisfactorily. The attractions in the way of racing, machinery, stock and agricultural products promises to be extensive.

Mr. Llewellyn Jordan, the successful competitor for the Cadetship for West Point, left here from the 7th District, passed [illegible] but must [illegible] *en route* for the Academy.

Mr. John C. Virden and lady have returned from the North. Mr. Virden, while absent, made large purchases for the house of Stedman & Co., of which early announcements will be made.

It was Mr. A. A. Green, and not Mr. J. J. Green, as our local columns had it, who returned from Green Lake, Wisconsin, a few days since, in fine health and delighted with his trip.

The names of Col. Jones S. Hamilton, for Senator, and Mr. Wm. J. Brown, Jr., for Circuit Clerk, are announced in this issue—both subject to the action of Democratic Nominating Convention.

A sufficient number of applications have been received for the two orphan boys for whom homes are wanted to insure their being provided for. So much for generous humanity and printer's ink.

We were favored with a call yesterday from Col. Joseph E. Lane, one of the progressive planters of Madison. The new Yazoo Valley Railroad runs through his place where Pocahontas depot has been established.

We are requested by Secretary of State Fair to say that persons who indulge in morning and evening drives, are invited to try the race-track, which is now in good condition, and which will be improved by constant use.

The Convention to nominate a District Attorney for this District, meets in Jackson to-day. Each county in the District sends an instructed delegation. The candidates are all good men, and the nominee will get the hearty support of the people.

In Dr. Byron Lemly's show window is a large petrified vertebra, dug out of a marl bed in Jackson. It is one of the largest specimens of the kind we have ever seen, and no doubt belongs to an age of the world when animals were as big as houses and fish as large as ships.

Our ex-townsman, Col. Wm. B. Taylor, was one of the sufferers by the great fire at Meridian last week. His stock of groceries was valued at $3000,00; insured for $2000.00. Fortunately, he had rented another store house, much better located, and will resume busines very soon.

The Illinois Central moved into their new freight depot last Monday. The old depot will be torn down at once and the tracks moved. Mr. C. T. Rudd and Mr. C. P. Cabaniss, both genial and pleasant gentlemen, are in charge, and can always be found at their post ready for duty.

Our enterprising former townsman, Mr. John J. Rohrbacher, was in town last week. He has converted the splendid Jordan-Denson place, near Vernon, on which he now resides, into a stock farm. It has several thousand acres of choice land, and is within two and a half miles of Flora, the new railroad depot, near Vernon.

The Machine politician is abused all over the country; but our neighbor Mr. Charles Winkley has bought the patent right to a Machine for which every housewife will rise up and call him a public benefactor. It is a self-operating Churning Machine. All you have to do is to wind it up and it will run with a perpendicular motion as regular as a clock until the butter comes.

The Baptist Congregation have very considerately granted their pastor—Rev. H. F. Sproles—a month's vacation. He will leave Jackson next Monday. There will be preaching in the Baptist Church Sunday morning but not at night. Mr. Sproles wishes all who may write to him before 20th September to address him at Williamstown, South Carolina. All wish him a prosperous and happy journey and a safe return.

Rev. Allan S. Woodle, of Altoona, Pa., who has been invited by St. Andrews' Parish of this city, to succeed Dr. Tucker, has been visiting the parish during the past few days. He preached on Sabbath morning and also at night. He has made a pleasant impression as to his ability as a minister and his social qualities. He has the matter of the call to the Parish still under consideration, and if he decides to accept will return to Jackson in October.

At a church conference of the Methodist congregation of this city on Sunday morning last to devise ways and means for furnishing the Sunday School room with the most approved style of seats. Mrs. Thos. Green arose in her place and stated that she would provide the same at her own expense. The announcement was received with feelings of deep gratitude by all present. Mrs. Green has been one of the most active workers for the new church, and this most generous and timely contribution bridges over a difficulty that just at this season seemed insurmountable.

The colored Congregational church organized in this city on the 6th of March last, under the auspices of the American Missionary Association, and of which Rev. C. L. Harris was installed pastor, may be considered as one of the established religious institutions of Jackson. The church has a membership of sixteen, and a Sabbath School numbering sixty-three. Services are held in the hall of Hope Fire Company. Our citizens are subscribing quite liberally toward the erection of a house of worship, and the American Missionary Society will doubtless duplicate any sum that may be locally contributed Mr. Harris appears to be the right man for the work.

WHO would be so cruel, so unnatural, as to refuse to buy one bottle of Shriner's Indian Vermifuge, when he knows that worms are destroying his child. This is no trifling matter.

Mr. J. W. Bigner, Summit, Miss., says: "Brown's Iron Bitters greatly benefited me when suffering from general debility."

Address of Ex-Senator Gleed.

Last Friday night, Ex-Senator Gleed addressed an interested audience in the Hall of the House of Representatives on the subject of the moral, intellectual, and industrial development of the colored people. At the conclusion of Mr. Gleed's remarks, Governor Lowry, Rev. H. F. Sproles and Col. J. L. Power spoke in favor of the work suggested, and urged that some plan be formulated by a committee to give permancy to the object sought.

Mr. Spellman presented the following resolutions which were adopted:

Resolved, That the address delivered to-night by Ex-Senator Gleed, of Lowndes county, on the intellectual, moral and industrial elevation of the colored people, is most cordially endorsed by this meeting, and we commend Mr. Gleed's mission to the citizens of our State, as one worthy of their attention, and encouragement.

Resolved, That Thos. E. Helm, Esq., Col. J. L. Power, Col. W. L. Nugent, Hon. James Hill, and Rev. Marion Dunbar, be appointed a committee whose duty it shall be, after perfecting a permanent organization, to establish a Lecture Bureau, whose object shall be the arranging of a system of public lectures amongst the colored people, and to solicit contributions to defray the expenses of the lecturers.

Mr. L. G. Bergas, Tupelo, Miss., says: "I have used Brown's Iron Bitters, and think it is a true tonic."

"If you constantly echo all over Mississippi the terrifying sickness like Parker's Ginger Tonic."

Sixteen Miles Nearer to Yazoo City.

THE YAZOO AND MISSISSIPPI VALLEY RAILROAD COMPLETED TO POCAHONTAS STATION AND CONNECTED WITH THE OUTER WORLD BY TELEGRAPH.

The Yazoo and Mississippi Valley Railroad has been completed to Pocahontas Station, located on the place of Mr. Joe Lane, about sixteen miles from Jackson. A telegraph line is also completed to the same point. It is confidently expected that Flora, six miles further, will be reached next Monday. Track laying to latter place will be finished by Saturday night. A grand barbecue is on the tapis to celebrate the occasion at Flora. Mr. J. A. Deason, who is superintending the work, is a thoroughgoing railroad man. He is pushing the work right along, and in a few months our Yazoo friends can come over, take breakfast with us, take a look at Jackson and eat supper at home. We will keep our readers informed weekly as to the progress of the road.

Press Excursion.

Agreeable to resolution adopted by Press Association at Columbus, arrangements have been perfected for an excursion to Louisville and Cincinnati, via Milan, Tenn., to take place from September 6th to 12th. Details have been communicated by circular to all publishers in the State. Should any fail to receive same, they will please at once notify the undersigned.

J. L. POWER, for Committee.

Horrible Assassination in Rankin County.

Mr. John W. Pearson, a respected citizen of Rankin county, was waylaid, shot, and instantly killed last Saturday night about eleven o'clock, while on his way to his home, and when within four hundred yards of same. He had been to Vicksburg on Saturday, and came to Jackson on the afternoon train, remaining here until the night train. He was depot agent on the V. and M. R. R., five miles from Jackson, where he kept a small store. After getting off the train, he stopped at the store, where his nephew, Hugh Bowen, a lad of thirteen years, was sleeping. After leaving the store, and when he was about one hundred yards from same, he was shot down from the rear, a single ball of buckshot entering the back of the head. He was found early next morning by one of the colored women on the place. Soon after the shooting, a person knocked at the store, and asked admission, but young Bowen refusing, he made some inquiries as to the road to Brandon, and the name of a family residing there. On being refused admission, he moved rapidly away. It is thought the inquiries were intended simply to mislead the officers who might try to get upon his track. The body was not disturbed until one o'clock Sunday, when a coroner's jury arrived from Brandon, and investigated the killing, but without other conclusion than that deceased had been assassinated by some person unknown. Funeral services, conducted by Rev. Mr. Sproles, of this city, were held late in the afternoon, and the body was interred in the burial ground on the farm. Mr. Pearson was a brother-in-law of Mr. E. H. Reber, of this city. He leaves a wife and five children. He was an industrious, thrifty, good citizen, and his tragic death is greatly deplored.

A CARD.

BOLTON, MISS., Aug. 14, 1883.

EDITORS CLARION: Some one reports my name as a member of the Independent Executive Committee. That appointment was made without my knowledge or consent. Please make this correction through your paper and say to the people of Hinds county that I am an anti-Fusionist but still a Democrat.

A New Oil Mill.

We are always glad to hear of more machinery being introduced in our State. It is an evidence of substantial prosperity such as we like to record. We take pleasure, therefore, in saying, that after a recent visit of Mr. D. D. Boyd, Secretary of the Nesbit Oil Mill Company, to Cincinnati, where he investigated the responsibility of the Planters Oil Machinery Company, to make good their guarantee, and saw them make oil upon their Plantation Cotton Seed Oil Mill, their Hydraulic Oil Press working at a pressure of 7,500 lbs. to the square inch, his Company decided to buy said machinery and a 30-horse power Murray engine. We congratulate our friend, Capt. Bustamante, their agent, in securing this order. Nesbit is only 18 miles from Memphis.

Equalizing Taxes in Bolivar County.

Rosedale Leader.]

The Board of Equalization has been in session all the week, and up to our going to press had not completed their labors. We are reliably informed that the late assessment has been raised a least 50 percent.

Hon. J. G. Hamilton of Holmes.

Patron of Husbandry.]

The Democracy of Holmes county has nominated some good and true men for office, prominent among whom we find the name of Hon. J. G. Hamilton, for State Senator. A more faithful friend to the people can not be found anywhere and Holmes county has honored herself by nominating Col. Hamilton for re-election to this important position.

What Manufacturing and Diversifying Crops Will Do.

Avalanche.]

Union City, Tenn. is a busy and prosperous town. It has two furniture stores and factories, two wagon factories and a barrel and stave factory and many new buildings are going up. The farmers in the vicinity are also prosperous because they diversify their crops, and prosperous farmers make trade brisk with town people.

The Accident to Sheriff McNulty.

The distressing accident in Summit by which the life of Wm. N. McNulty of Pike county, is jeopardized, has cast a pall of gloom over all his friends and neighborhood, and with anxiety coupled with earnest prayers for his recovery, do they watch the tidings from his bedside. A rumor reaches us that Pat Geary, one of the oldest and most careful engineers on the Illinois Central, stated that in his entrance into Summit on the night of the accident to Capt. McNulty, "that the air brakes did not respond to his call," hence the extra speed was an indirect cause of injury to our Sheriff, suggesting to corporations the necessity of more vigilently watching the speed of trains in entering and departing from their midst. The lives of our people cannot be restored, while the time can be made up in the woods.

The Manner of Man he was.

Vicksburg Herald.]

Pressell, the wretch who was hanged in Mayersville for outraging a child and who was heralded by the telegraphic reporter of a Western journal as "one of the most influential men of Mississippi," was a miserable creature without character or influence, and to speak of him as one of the most influential men of Mississippi," was and is a grotesque absurdity.

Mississippi Matters.

The first bale of cotton ready for market in Mississippi this year was raised by Mr. D. Myer of Issaquena. It was ginned on the 11th.

Patron:—We learn, just as we go to press, that great excitement prevails in a portion of Neshoba county in regard to mad-dogs, one having bitten a citizen and a number of cattle. Kill the worthless curs, and avoid such trouble in the futurc.

Ellisville Eagle:—Messrs. Hamilton, Vance & Co., Land Agents, have sold 140,000 acres of Jones county land this week, to Mr. L. E. Sweet, of Ohio, who intends to put up a saw mill with capacity of 100,000 feet of lumber per day.

The People are Determined.

Enterprize Courier.]

The last legislature, or rather a majority of the members, so completely ignored the wishes of the people in regard to railroad supervision that in various counties of the state candidates are being called on to define their position on this and other important matters of legislation. Almost invariably they respond to the demands of the people and declare themselves in favor of supervision. The people are determined that their rights shall not be "signed away" by the next legislature, hence there is likely to be an overwhelming majority in favor of supervision.

Lumber!! Lumber!!!

Mr. A. A. Folkes wishes the public to know that he has the finest lot of lumber and building material ever brought to Jackson, which he will sell at bottom prices. Call at either of his yards—one up-town opposite THE CLARION office, or West Jackson opposite the New Orleans Depot.
