HELMBOLD'S GENUINE PREPARATION OF

HIGHLY CONCENTRATED COMPOUND FLUID EXTRACT BUCHU.

For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Affections Arising from Secret Habits, Female Complaints, and all Diseases of the Sexual Organs.

Leaving from excesses and imprudences in life, and impairing all the elegant faculties, destroying vital energy, whether arising in youth or manhood, from whatever cause they may have originated, and to whom of the sex they may belong.

HOW TO THE AFFLICTED.

Extract from a letter addressed to Helmbold, on this subject all the symptoms, through which the frame gradually succumbs under the baneful influence of secret habits, such as Dimness of Sight, Lassitude, Pain in the Head, Dyspepsia, Nervous Irritability, Pain in the Back, Pimples on the Face, Premature Decay, Loss of Memory, Confusion of Ideas, Aversion to Society, Blotches on the Face, Pain in the Limbs, Nocturnal Emissions, Wasting of the Muscles, Coldness of the Extremities, Loss of Power, Hot Hands, Flushing of the Body, Eruptions on the Face, Pain in the Back, Dullness of Hearing, Cold Sweats, Frequently Black Spots Flying before the eyes with Temporary Suffocation, and many other symptoms, which lead the victim to premature grave, insanity, or consumption, for which disease they are mistaken by the medical fraternity, and treated with Mercury, Quicksilver, Nitrate of Silver, Iodine, Sarsaparilla, &c., which only aggravate the disease, and instead of restoring the patient to health, hurry him to the grave. Thousands of the most talented men of the country, who have allowed themselves to be thus treated, can testify to the fatal effects of Mercury, Quicksilver, Nitrate of Silver, Iodine, Sarsaparilla, &c., when used in this disease. Nothing is more dangerous to such patients than stimulants and nothing they more need for a time than a tonic. Any expression of mine in regard to my own preparations, as a specific for the diseases for which they are recommended, is unnecessary, as testimony from the medical profession, and from those who have used the article, will be found in every case. Nature, when assisted by the proper remedies, will throw off the disease, and restore the patient to health and happiness.

THIS IS THE ADVICE OF EVERY PHYSICIAN

who understands the nature of the above distressing complaints, when he finds the patient has gone too far to be benefited by medicine, usually advises the patient to marry, in order to relieve the mind from the dreadful forebodings of impending insanity or consumption. The records of the private asylums and the melancholy deaths by consumption have ample witness to the truth of these assertions. In launching this preparation into the world, I do so with the full confidence that it will prove to the sick and afflicted the most valuable medicine ever given to the public. Its effects are so decidedly beneficial, and so speedy in most cases, that it will be found a blessing to those who are in need of a medicine.

THIS IS THE GREAT REMEDY

for those diseases which have baffled the skill of the most eminent physicians, and which have caused so many to resort to the use of quacks, whose nostrums have ruined the constitutions of thousands who might have been restored to health by the use of a proper medicine, and who, from the nature of their complaints, for fear, shrinking from exposure, or from being in the last stage of consumption, have hitherto kept from the public eye, suffering all the misery which a diseased imagination, aggravated by the gloomy forebodings of some medical pretender, can inflict upon the victim of improper treatment.

THIS COMPOUND FLUID EXTRACT BUCHU

is the result of a long and extensive practice, during which time it has been administered to thousands of patients, with the most astonishing success. In all those affections for which it is recommended, no other remedy has been used by the medical profession, with such decided advantage to the patient, as it has been in the hands of the proprietor for the last twenty years, during which time it has been administered to thousands of patients, who have been given up by their physicians as incurable, and who were in the last stage of consumption, for whom there was no hope, and who were expected by their friends to follow their friends to the grave, who have been restored to health and happiness by the use of this invaluable medicine, after all else had failed to produce a permanent cure.

THIS IS THE GREAT DIURETIC

and should be used in all cases where a diuretic is required, as it is the most powerful diuretic in the world, and will be found in every case to be all that is required in a diuretic, when used according to the directions, which are plain and simple, and should be followed by persons who are their own physicians, in preference to any other medicine, as it is the only medicine now before the public for the cure of the diseases for which it is recommended, with the exception of the Extract Buchu, which is a kindred preparation, and which, in the diseases for which it is recommended, is equally as efficacious as the Fluid Extract Buchu, but in a more concentrated form, and in a form more convenient for those who have to travel or reside in a warm climate, as it will keep in any climate, and in any quantity, for any length of time, without injury, while the Fluid Extract Buchu, from its nature, will not keep in a warm climate for any length of time, without liability to injury, unless it be put up in a large quantity, and then it is very inconvenient for those who have to travel or reside in a warm climate, on account of its bulk and weight
