THE TRIBUNE for 1861.
PROSPECTUS.

THE WEEKLY TRIBUNE is now in its XXIst Volume. THE TRIBUNE will be, as it has been, a Political Journal though not exclusively so. But, while it gives prominence and emphasis to the discussion and elucidation of the great issue of the day, it sinks none of the characteristics of a Business and Family Newspaper. During the past year THE TRIBUNE has been obliged to devote quite a large proportion of its space to Politics, but we hope to be able to limit the space devoted to Political discussion, and devote more of our columns to subjects of less intense, but more abiding, interest. Among these, we mean to pay especial attention to

I.—EDUCATION.

The whole subject of Education, both Popular and General, will be discussed in our columns throughout the year 1861, and we hope to enlist in that discussion some of the profoundest thinkers and the ablest instructors in our country. It is at once our hope and our resolve that the cause of Education shall receive an impetus from the exertions of THE TRIBUNE in its behalf during the year 1861.

II.—AGRICULTURE.

We have been compelled to restrict our elucidations of this great interest throughout 1860, and shall endeavor to atone therefor in 1861. Whatever discovery, deduction, demonstration is calculated to render the reward of labor devoted to cultivation more ample or more certain, shall receive prompt and full attention.

III.—MANUFACTURES, &c.

We hail every invention or enterprise whereby American Capital and Labor are attracted to and advantageously employed in any department of Manufacturing or Mechanical Industry as a real contribution to the Public Weal, insuring ampler, steadier, more convenient, more remunerating markets to the Farmer, with fuller employment and better wages to the Laborer. The Progress of Mining, Iron-making, Steel-making, Cloth-weaving &c., &c
