COMMERCIAL.

HONOLULU, OCT. 11, 1869.

SINCE our last report, the only foreign arrival has been the clipper ship Grace Darling, which arrived yesterday, 17 days from San Francisco, en route for the Guano Islands. Our advices from San Francisco, by her, show little change from the last. Our friends write as follows:

The Sugar Market remains quiet, as last reported. Choice No. 1, 12@12½c; Medium, 9@11c; Dark, 7@8½c. We notice the arrival of 23,000 bags of Manila to the Refinery, within a day or two. All other Island produce remains unchanged.

We notice the sale at auction of Costa Rica Coffee, as follows: 1000 bags, $18.40 @ 100 lbs; 500 bags inferior quality, $13.35; 250 bags Central American, $17.10; 640 bags do. $17.25.

Last quotation of gold, 137½.

The D C Murray had not arrived over on the 22d Sept.—21 days out.

The Danish brig Carl Ludwig will sail for Hong Kong to-morrow. She has only a part of a cargo, consisting of Pungas, old Copper, Bottled Ale, and some 50 barrels of Hawaiian Beef. The latter is sent as a trial, and we hope that it will lead to a permanent demand for this article.

We learn of the arrival of the bark Ka Moi, hence, at Falmouth, 120 days out.

The bark Ethan Allen is now repairing, and will be laid on the berth for San Francisco on the 15th inst., in the Hawaiian Packet Line.

The steamship Idaho is due to-morrow, but may come in this evening. She has a full cargo waiting for her, consisting chiefly of paddy and some bag sugar.

The Planter's Meeting took place last Saturday and Monday, and was well attended; many planters having come from the other Islands on purpose. Others who were unable to attend in person sent their opinions in writing. A set of resolutions, drafted by Mr. Wilder, were laid before the meeting and adopted by a large majority. We refer to a full report in another column.

Messrs. Adams & Wilder held a credit auction sale of Chinese goods, imported by Messrs. Afong & Achuck, per Carl Ludwig, yesterday; the prices realized seemed mostly satisfactory, and the bidding was lively.

COLLECTOR GENERAL'S OFFICE,
Honolulu, H. I. Oct 11 1869.

SIR:—I regret exceedingly that an error was made at this office in the table of Domestic Exports that I sent to your Excellency on the 4th inst. The error was caused by omitting from the table the cargo of the bark Cambridge.

I now enclose to your Excellency the correct table which shows an increase in the exportation of sugar of 209,729 lbs; Rice 13,486lbs; Coffee, 16,377lbs; Palu, 3,962lbs; making an additional value for quarter of $27,874.42. This makes the totals for the three quarters so much more, and shows an increase of $287,321.11 in the total value of Domestic Exports for the three quarters ending September 30th.

I have the honor to be, your
Excellency's most ob't servant,
W. F. ALLEN,
Collector General of Customs.

To His Excellency C. C. HARRIS,
H. B. M. Minister of Finance.

TABLE OF THE PRINCIPAL DOMESTIC EXPORTS, PORT OF HONOLULU,

Molasses, galls		4,837 Sugar, lbs	144,900

Value Domestic Produce $6,628.00
Value Foreign Produce $2,550.00

LOCAL NEWS.

Supreme Court.

OCTOBER TERM, 1869.

The Court came in on Monday, October 4th, at 10 o'clock A. M.; on the bench, Justice Hartwell and Justice Widemann, the former presiding. Notice was given by the presiding Justice that hereafter hearings in chambers would be held in the Court room, whenever practicable, at 10 o'clock A. M., on Monday, Wednesday and Friday, by the First Associate, and on Tuesday and Thursday, by the Second Associate; also that the Clerk at this Term would not be required to take notes of evidence.

On calling the panel of foreign jurors, one juror, Frank Brown, not appearing, it was ordered by the Court that the Marshal summon said juror to show cause at the next day of Court, why he should not be fined for contempt.

The case of the King vs. Pemberton, for selling intoxicating liquor without license, then came on to be heard. The Defendant's counsel sought postponement on account of the absence of Watson, a witness deemed material to his case, and who appeared to have given certain evidence at the trial of this case at the last term of Court, which evidence was on record. The Attorney General offering to admit that the witness would testify according to the record, Defendant's motion was denied, and a jury was impanelled to try the case. The defence sought to be established, under a plea of not guilty, was that of an alibi. The jury retired to consider of their verdict at 12½ o'clock P. M. and at 3 o'clock P. M. returned, stating, by their Foreman, that they were unable to agree, whereupon they were discharged, and on motion of Defendant's counsel, the Court ordered the prisoner to be discharged under Sec. 1178 of the Civil Code.

In the case of the King vs. Makoolani, for House breaking, it appeared that at the last term of this Court, it was ordered to be postponed indefinitely.

In the case of the King vs. Raymond, for Malicious Injury, appealed from the district Court of Ewa, the Attorney General stated that he would not contest the appeal, whereupon it was ordered by the Court, that the Judgement of the Court below be set aside, with costs to the Defendant.

In the case of Akiu vs. Raymond, for trespass by animals, neither party appearing when called, the appeal was ordered to be dismissed, but on subsequent motion of Mr. Judd, for appellant, was reinstated on the Calendar, and jury being waived, was set for Thursday, Oct. 7th.

The Plaintiff's counsel in Jos. Morris vs. Geo. Morris, for trespass, being an appeal case, stated that he could type the case upon the decision of the case of Geo. Morris vs. Jos. Morris.

In the case of Aliipa vs. Squires, trespass for being appealed by the defendant, the Plaintiff not appearing when called as his case was reached upon the calendar, it was ordered by the Court that the judgement of the Court below be set aside.

In the case of Kaolikoo vs. Tonkee, Trespass the Plaintiff, appellant, by his counsel, stated that he had at last term withdrawn his appeal.

IN *Bonnet's* Oen of this week and the week previous, great complaint is made of the Chinese victualling houses on Nuuanu street. It would seem that the facts hardly warrant the extreme views entertained in regard to this matter by the correspondent and editor of that paper. As we are assured by Mr. Dayton, the Deputy Marshal, the visitors at those places on Sunday evening, are principally, very respectable people, who call on their way from church to procure tea or coffee, and as there are a great many of them, their talking undoubtedly sounds somewhat loud. But that there are any such scenes enacted there as is represented by *Bonnet's Oen* is denied. Great care has been taken in granting licenses for eating houses, that no one should have such license who would be at all likely to keep a disreputable place; and it is a fact that a large number of respectable Europeans board at these houses. They are not what would be called first class coffee houses, but there is nothing about their management which calls for a "sensation" "first-class" or otherwise.

THE *Advertiser* in its last issue in referring to the article published in the GAZETTE of last week in which directions were given as to the proper treatment of Scarlatina says:

"Shutting the stable door after the horse is out was exemplified last week in the GAZETTE, by the publication of a leading article on the treatment of *Scarlatina*. After the disease has raged more or less violently through this group for six or more months it is rather late to advise people how to treat the malady. However, 'better late than never.'"

The facts are that in the AU OKOA of the 2d of June last, (at which time the disease was first known to have shown itself outside of Oahu), the very same directions were given for the treatment of the disease as those given in the GAZETTE and AU OKOA of last week; such directions having been furnished at the request of the Minister of the Interior, (who was on Maui at the time), by Dr. Hillebrand. A similar article appeared in the *Enokoa* of June 12th, and had the editor of the *Advertiser* been as ready to furnish his readers with valuable and useful information as he is to carp and growl at everything, he would have exercised his knowledge of the Hawaiian language by translating the article in the *Kuokoa*, for their benefit.

MR. EDITOR:—I notice in the *P. C. A.* of last week's (editorial), the following:

"The dragging in of the name of one of our merchants to bolster up the false statements of the GAZETTE's commercial writer, was wholly unauthorized, and as impudent as unauthorized. Yet it is characteristic of the management of that paper, which seeks some respectable name to corroborate its false assertion."

I read the article in the GAZETTE, referred to, while in the compositors hands, and was of the opinion that it was correct.

J. S. WALKER.

LATE FOREIGN NEWS.

By the clipper ship *Grace Darling*, which arrived yesterday in 23 days from San Francisco we have dates to the 22d ult, five days later than those by the *Ethan Allen*. With the exception of the discussion both in the European and United States papers on the affairs of Spain and Cuba, the news is of an unimportant character.

European News.

LONDON, Sept. 18—Thomas Graham, Master of the Mint, and one of the most eminent chemists, is dead.

The London papers continue to comment on the Cuban question. The *News* says the question as to an improved understanding between Spain and the United States remains unsolved. It says the condition of Spanish exchequer must be considered in estimating the possibilities of the pending crisis.

NEW YORK, Sept. 18.—A *Herald* special, dated Paris, Sept. 18th evening, says Gen. Prim's second and latest audience with Napoleon was of some hours duration. The subject matter of the conversation is affording cause for a very considerable amount of anxious outside speculation, it being pretty accurately ascertained to-day that the situation in regard to the Cuban revolution and the chances of its suppression, as well as the probable future of the island as regards its form of government and rights of rule were discussed. The Emperor advised an amicable arrangement between the Spanish authorities and the Cabinet at Washington in the matter of the American desire for the acquisition of territory by purchase, adding toward the close of his remarks, his opinion to the effect that if the war continued with the present attendant barbarities, President Grant would be compelled to interfere between the contending parties, if only in behalf and for the cause of humanity.

Gen. Prim replied that he was himself personally willing to negotiate with the American Authorities in the direction indicated by the ruler of France, but Spain and his fellow countrymen at large remained opposed to such a course.

Napoleon, in reply, advised Gen. Prim and the Spaniards to imitate, in this case, his own example, and give up Cuba, just as he had given up Mexico, before it was too late to do so with honor.

Sickles has proposed a new plan of compromise on the Cuban subject. Spain is in an intense state of excitement, blazing and boiling over, it may be said, on account of news from Cuba, reports from Washington and other parts, and the adherence of Sickles, in Madrid, to the policy of "Sell, or purchase Isle."

LONDON, September 21—The Pope has sent a communication to Cardinal Manning, in reference to the proposal of Dr. Cummings to appear at the Ecumenical Council. The Pope refers Dr. Cummings to the terms of the letter, in the invitation addressed to the Protestants, and says he will find it an invitation, not for discussion, but only to profit by an opportunity to return to the Church. He says there is no room at the Council for a defence of errors which have already been condemned. The *Times*, commenting on the letter says the decision of Rome to Dr. Cummings' letter is pronounced with unexpected promptitude. The Pope must have acquainted himself with the purport of Dr. Cummings' letter through the newspapers, and replied before its receipt. Dr. Cummings is to be congratulated on the authoritative reply elicited. The Pope speaks plainly, and if the Doctor had considered the claims of the Church he would have seen that there could be no room for him in the Council.

LATER NEWS.
Per Steamer Idaho.

The *Idaho*, Capt. R. S. Floyd, arrived today ten days and thirteen hours from San Francisco. We are indebted to Purser McLellan for the files of California papers and report of the ship. The *Idaho* brings 57 passengers and a full freight. More freight was offered than she could bring. In her passenger list will be found the names of a large number of our old residents, who are returning from their tours abroad, and also several shipmasters whose names are familiar here.

The *Idaho* passed, in Lat. 27° 22', Long. 147° 22', on the 8th inst., a vessel steering southward, supposed to be the bark *Vernon*, with lumber, for this port; also, on the 10th, a vessel apparently bound for this port.

The *B. C. Murray* 20 days out, had not arrived over, at the sailing of the Steamer. Light winds and calms, have prevailed, during her passage over. Her popular commander, Capt. Bennett, has arrived in San Francisco and will resume command of the vessel on her down trip.

Admiral Turner has transferred his flag to the *Mohican*, and was to leave San Francisco for Honolulu, two days after the *Idaho*. He expects to meet here the *Saranac*, now on her way up from Tahiti.

The ship *John L. Stimmack* has been chartered by C. L. Richards & Co., to load oil from this port. She was nearly ready for sea, and was expected to leave San Francisco from the 6th to the 8th.

The market for Island No. 1 Sugars remains firm, quotations heavy from 12@12½c.

Business is dull in San Francisco, with money stringent, and at high rates.

The "corner in gold" in Wall street, during the last week in September, has made itself felt disastrously in business both East and West. On the 24th in the gold room, gold fluctuated from 144 to 164. Millions changed hands, during the few days in which the bulls were pushing the market upward, until at the culmination of the movement, it was impossible to reach settlement, on account of the magnitude and multitude of the operations. No business was done in the gold room, for two or three days, and no quotations were sent over the wires. The gold gamblers having finished their game, the ratio of values have settled down, and business men are again able to make out the value of gold, sterling, exchange and greenbacks.

Hon. W. H. Seward and party, left San Francisco, on the *Golden Age*, on the 8d, for New York. He is accompanied by his son Frederick Seward and wife. Their route will be through Mexico, as the party will land at Mazatillo, thence to Colima, where they will remain a day or two to visit the volcano, which was active. Thence they proceed through Guadalajara, Guanajuato, Queretero, City of Mexico, Orizaba, Jalaba and Puebla to Vera Cruz, where they embark for New York.

The Californians have been enthusiastic in their reception and entertainment of the ex-Secretary, and have presented him with several valuable memorials of their esteem. At the Occidental, in the evening previous to his departure, the citizens, at a reception, presented him with a costly cigar case, and also a snuff box, both covered with devices, referring to his public acts that have been connected with the Pacific Coast interests. The occasion was made one of congratulatory addresses to the venerable Statesman.

At the reception, Senor Jose Godoy, the Mexican Consul, was seized with apoplexy, and expired at the hotel. The *Bulletin* says of this event:

Last evening when the guests had assembled at the Occidental Hotel to witness the presentations to Mr. Seward, the Mexican Consul at this place, Senor Jose Godoy, entered the parlor with Mr. Seward, and was speaking with him, when Mr. Seward went back to his apartments for some purpose. While he was gone gentlemen who were standing near the Consul observed that his face became suddenly suffused with blood, he straightened up, held out his hands as for assistance, and fell towards the floor. People caught him and laid him down. Drs. Shorb, Stout and Holland, who were present, went to his relief and ordered the Consul to be taken from the room. When they had gone Mr. Seward returned, and as it was thought Mr. Godoy had only fainted, the incident was concealed from his knowledge till the ceremonies of the presentation were concluded. Then, while the guests were being introduced to him, it was announced by the physicians that the Consul was dead.

The body of Senor Godoy was conveyed to the Consular residence, which was at the Kilns House, and from which the funeral will take place.

The deceased has been for several years the representative of the Juarez Government to this city, and during that time he had won the confidence and esteem of his own countrymen, and of the citizens of our nation. His expressions of sympathy with the Federal Government, in the war against rebellion, were strongly marked, and on several occasions publicly declared.

NEW ORLEANS, September 20th.—Sperm Oil continued in good demand, with sales of 2,400 bbls for export and 815 for manufacturing, on terms reserved, but supposed to be $1 77@$1 80; also 400 bbls Sperm at New York, for export, at $1 75. Whale Oil was in request, with sales of 130 bbls South Sea, 40 bbls Gehoisk and 250 bbls Arctic (last at New York,) for export, private. Whalebone was wanted for export, the Boston Market being reported bare of stock.

LONDON, Sept. 20.—The mail steamer from Rio brings advices from Paraguay to Aug. 22.

On the 18th, the allied army attacked the forces of President Lopez, which were entrenched at Curupaily. The Paraguayans were entirely defeated, losing 1,000 killed, 3,000 prisoners and 12 cannon. Lopez, with the remainder of the army, fled to Ignacion, a short distance away. On the 21st he was again attacked by the allies and again defeated, losing in the engagement 25 cannon. Count d'Eu, the general commanding the Brazilian, at last advices, was closely pursuing the fugitives.

Owing to these victories the Paraguayans were compelled to abandon all their steamers, which subsequently fell into the hands of the allies.

Forty-four British subjects, who had lately been in confinement by Lopez were promptly liberated.

The Provisional Government at Asuncion have declared Lopez an outlaw.

The Episcopal Convention meets tomorrow. A stormy time is expected, as several discourses are determined to bring up the subject of Ritualistic services in St. Albans Church. If the Convention disapproves of that service, it is expected that the Rector, (Worrell) will be brought to trial. Dr. Evans, of Boston, also will be questioned for calling Protestantism a failure.

The *News* to-day reports that the object of Lord Clarendon's visit to Paris was to announce to Napoleon the arrangement between Austria, Prussia, Russia and England, to preserve peace and check the contagion of revolution in France in case of the Emperor's death, but not to thwart German unity.

HAVANA, Sept. 27.—The telegram which was sent on Saturday relative to the surrender of Gen. Jordan and troops, upon payment by Government of certain sums of money was based upon official despatches. It is reported that the insurgents in the neighborhood of Yuguaramas and Pain are treating with the Spanish authorities relative to a surrender. The surrender is important, if true.

FLORENCE, Sept. 27—Mount Etna is in a state of violent eruption, and streams of lava are pouring from the crater in a large volume.

EARTHQUAKE AT SAN LORENZO.—A correspondent at San Lorenzo, under date of October 1st, says: We had a heavy shock of earthquake this morning at 1 o'clock with loud noise.

HAVANA, September 27.—St Thomas advices of the 18th report three shocks of earthquake on the 17th. Stores are closed, and business suspended. No lives are known to be lost. General alarm prevailed.

NEW YORK, Sept. 28.—The Cuban privateer *Horsed*, which sailed some time ago from a British Province, where she was detained for a time, is on her way for Cuba, if not already there. It is the intention of her commander to keep a sharp lookout for the Spanish transport carrying troops to the Island; also, for the regular steamers plying between Havana and Spain carrying the Spanish flag.

NEW YORK, Oct. 1.—The steamer *Enterpe* was seized yesterday by the United States Marshal, having on board 30 large Parrots, 3,000 solid shot and several tons of shells, believed to be intended for the Spanish gunboats now being finished here. The *Enterpe* was to sail this morning and await at sea the sailing of the gunboats some night this week. The ironclad *Dictator* and the steam frigate *Severn*, at the Navy Yard, are coaled and ready for departure for the Cuban coast, where they have been ordered.

Jefferson Davis sailed for America on Saturday.

BY the following, kindly furnished us by a gentleman residing on Hawaii, (who was one of the party spoken of,) it will be seen that the ascent of Mauna Loa can be accomplished with comparative ease from the Kau side of that mountain. This information will prove valuable to tourists, as it points out a much more feasible route than has hitherto been known, to the summit of one of the grandest mountains, as well as the seat of, perhaps, the most remarkable volcano in the world.—ED.

On the 23d of September, at 8:30, A. M., a party of gentlemen left Reed & Richardson's Ranch, Kapapala, Kau, with the object of finding, if possible, a route to the top of Mauna Loa, from that side of the mountain. They rode out towards Kilauea about six miles, and then headed directly for the summit. They arrived at the upper edge of the koa groves at 1:30, P. M., and camped. Found plenty of grass and water for the animals, and numerous flocks of geese and wild goats. It was foggy and rainy during the afternoon and evening, but cleared up at midnight.

The morning of the 24th was fine, and everybody was in the saddle by half-past six. The course lay through a growth of scrubby ohia, pukiawe, and pelela. We found ice in crevices of the rocks about 8 o'clock. From this point, we had a magnificent view of the Puna and Kau coasts. Soon after 9, we reached the limit of vegetation, and clouds gathered and shut out the view below. The mules traveled without difficulty over the rolling *Pahoehoe*, until half past 10, when further progress in that direction was blocked by a barrier of *Aa*. Here the animals were left, and the party started on foot up the mountain. After crossing a mile of *Aa*, found smooth walking again; pumice-stone was strewn around in great quantities; soon began to feel effects of the altitude—headache, ringing in the ears, throbbing of the temples and heart, and difficulty in breathing, making frequent halts necessary. About noon, we arrived at a comparatively level plain, forming a horizon of its own. View on all sides shut out by cones, mounds of *Aa*, etc. No snow; wind very cold, but the rays of the sun burning and oppressive.

One of the party, who suffered less than the others—Mr. Henry Gundal—hurried across to the further side of the plain, and at 1 P. M., reached the eastern bank of Mokuaweoweo. The Crater, at this point, was from six to eight hundred feet deep, with plenty of smoke and steam, but no remarkable activity.

The cloudy state of the weather below did not allow time for any of the others to reach the Crater, as it made the descent by daylight absolutely necessary; so they reluctantly took the back-track, and arrived at their camp-ground between 5 and 6 P. M.

They express the opinion that shod animals might be ridden to the brink of the Crater, and that, by packing wood and grass from the upper edge of the koa to the point where their animals were left, and making that spot the camp, the round trip from Reed & Richardson's, could easily be made in three days, and allow the greater part of one day for exploration of the Crater.

For our foreign readers, we would explain that "Pahoehoe," is the solid, smooth lava, and "Aa," is the broken, jagged lava.

MR. EDITOR:—There were no cattle landed from the *Kamaile* a week ago last Sunday. All the cattle were landed on Saturday night. Two strayed away in the dark, and being found in the morning, were driven by the Vaqueros to the pen. Yours truly,

HENRY PRESSENSAHT.

"THE PUNCH BOWL."—It is a pleasure to peruse such a neatly-printed and well-edited publication as this small but very interesting monthly. The October number, which is the fourth that has appeared, is a decided improvement in style and matter over the preceding issues. There is about it an air of modest dignity and self-respect, which is a commendable trait in a journal that undertakes to discuss political questions, but which few maintain. In this respect, it is in happy contrast with the Government paper, which, under its present management, has descended about as low as a newspaper can possibly get in personality, slang, and scurrility—a style of argument which may be allowable in forensic debate, but which is unjustifiable in journalism."

The above extract, from the *Pac. Com. Advertiser* of October 2d, would give a correct view of the case, were the words *Pacific Commercial Advertiser* substituted for the words "Government paper," and the balance of the article allowed to stand as it is, for I know of no paper which needs to apply moderation to its conduct, more than the above-mentioned *P. C. A.*

Yours, &c., A READER.

The legal friends of the *P. C. A.*, will be surprised to learn that personality, slang and scurrility, are justifiable in a forensic debate.

DIED.

MCDOUGALL—At Makawao, on the 4th inst, Dr McDougall, of Argyle, Scotland. The deceased arrived at these islands in 1850.

KAUMOKUNAHY—At the residence of her brother, in Emma Street, Miss G Montgomery, aged 70 years.

NEW ADVERTISEMENTS.

For Sale!

The New, Centre-Board Sloop Boat

FEARLESS,

Coppered and Copper-fastened throughout, and built in a most thorough manner. In complete order and ready for use, and is well adapted for a pleasure-boat, or for freighting or carrying passengers to and from vessels lying outside. Can be seen at Emmes' Ship Yard. For particulars, apply to
