THE TRIBUNE for 1861.

PROSPECTUS.

THE WEEKLY TRIBUNE is now in its XXIst Volume. THE TRIBUNE will be, as it has been, a Political Journal though not exclusively so. But, while it gives prominence and emphasis to the discussion and elucidation of the great issue of the day, it aims none of the characteristics of a Business and Family Newspaper. During the past year THE TRIBUNE has been obliged to devote quite a large proportion of its space to Politics, but we hope to be able to limit the space devoted to Political discussion, and devote more of our columns to subjects of less intense, but more abiding, interest. Among those, we mean to pay especial attention to

I.—EDUCATION.

The whole subject of Education, both Popular and General, will be discussed in our columns throughout the year 1861, and we hope to enlist in that discussion some of the profoundest thinkers and the ablest instructors in our country. It is at once our hope and our resolve that the cause of Education shall receive an impetus from the exertions of THE TRIBUNE in its behalf during the year 1861.

II.—AGRICULTURE.

We have been compelled to restrict our elucidations of this great interest throughout 1860, and shall endeavor to atone therefor in 1861. Whatever discovery, deduction, demonstration is calculated to render the reward of labor devoted to cultivation more ample or more certain, shall receive prompt and full attention.

III.—MANUFACTURES, &c.

We hail every invention or enterprise whereby American Capital and Labor are attracted to and advantageously employed in any department of Manufacturing or Mechanical Industry as a real contribution to the Public Weal, insuring ampler, steadier, more convenient, more remunerating markets to the Farmer, with fuller employment and better wages to the Laborer. The Progress of Mining, Iron making, Steel making, Cloth-weaving &c., &c., in our country, and the world, shall be watched and reported by us with an earnest and active sympathy.

IV.—FOREIGN AFFAIRS.

We employ the best correspondents in London, Paris, Turin, Berlin, and other European capitals, to transmit us early and accurate advices of the great changes there silently but certainly preparing. In spite of the pressure of Domestic Politics, our news from the Old World is now varied and ample; but we shall have to render it more perfect during the eventful year just before us.

V.—HOME NEWS.

We employ regular paid correspondents in California, at the Isthmus of Darien, in the Rocky Mountain Gold Region, and wherever else they seem requisite. From the more accessible portions of our own country, we derive our information mainly from the multitarious correspondents of the Associated Press, from our exchanges, and the occasional letters of intelligent friends. We aim to print the cheapest general newspaper, with the fullest and most authentic summary of useful intelligence, that learning where afforded. Hoping to make each day's issue as the last," and print a better and better paper from year to year, as our means are steadily enlarged through the generous cooperation of our many well-wishers, we solicit and shall labor to deserve a continuance of public favor.
