P. A. GENDY, Adjutant.

**The undersigned** have been appointed an EXECUTIVE COMMITTEE to facilitate the immediate raising of a REGIMENT composed exclusively of MECHANICS of the City of New-York and vicinity. The said Regiment to be designated the MECHANICS' RIFLES.

They respectfully appeal to the patriotism and liberality of such of our fellow-citizens who are desirous of contributing pecuniary aid in crushing out this terrible and unnatural rebellion.

This Regiment has now been in process of formation about three weeks, under the supervision of Col. James H. Ball, a well-known machinist and civil engineer of this city. He also comes highly recommended for military talents.

About 400 of the sturdy mechanics of New-York and vicinity have already enrolled themselves, and we feel well satisfied that a little pecuniary aid at this time will send to the seat of war, in a very short time, as fine a body of men as has gone forth.

Fellow-citizens, you want men to fight and put down rebellion; we want money to make the men comfortable, which will keep them together until they are regularly mustered into the service of the United States.

Subscriptions will be thankfully received by the undersigned:

**Morton's Celebrated Gold Pens.**—Improvements made in the machinery for manufacturing Gold Pens, and secured to the subscriber by Letters Patent, have enabled him to overcome the many imperfections hitherto unavoidable in their production, and also to bring the cost within the reach of all. The public should know the following facts: Constant writing for six months is done cheaper with Gold Pens than with Steel, therefore, it is economy to use Gold Pens. The Gold Pen remains unchanged by years of continued use, while the Steel Pen is ever changing by corrosion and wear; therefore, perfect uniformity of writing is obtained only by the use of the Gold Pen. The Gold Pen is always ready and reliable, while the Steel Pen must be often condemned and a new one selected; therefore, in the use of the Gold Pen there is great saving of time. Gold is capable of receiving any degree of elasticity, so that the Gold Pen is exactly adapted to the hand of the writer; therefore, the nerves of the hand and arm are not injured, as is known to be the case by the use of Steel Pens. He is now selling Gold Pens at prices varying from 25 cents to $1, according to size, the average wear of every one of which will far outlast a dozen of the best Steel Pens. Sold by all dealers in the line throughout the country. Wholesale and retail at the store, No. 25 Maiden-lane, where all orders, inclosing cash or post stamps, will receive prompt attention; and a Pen or Pens corresponding in size, and selected according to description, will immediately be sent by mail or otherwise, as directed. Address
A. MORTON, No. 25 Maiden-lane, New-York.
