Local and Personal.

Sold out.--Mr. Stone, whose tannery was burned a few weeks since, has sold the site with his bark to the Palen Bros.

Found--The body of the young man drowned at the Horse-race dam, an account of which was given in our last week's issue, we learn was found near Robinson's Ferry, one day last week.

Young & Rhodes are driving their sash, door and blind manufactory to its utmost capacity, to keep up with the demand for their work. People appreciate the fact that with steam and machinery these things can be made cheaper and better than by hand.

Meeting the Difficulty.--Many persons who are desirous of obtaining a Piano or Melodeon, are unable to furnish sufficient means at one time to pay for it; to meet this difficulty, L. B. Powell, of Scranton, proposes to sell Musical Instruments on installments, as far as possible, to suit the purchaser. Communicate with him either by letter or in person.

Hippocrates--an ancient Greek, is often called the 'Father of Medicine." But it is a matter of history (see Bible) that the human family was heir to many ills long before his time; and that they resorted to various means of cure, some of which are still employed. These venerable remedies, as well as all the recent ones, may be found at Lyman & Wells' Drug Store.

Please remember also that this is the place to get the purest Soda, Cream Tartar, &c.

The Teacher's Encyclopedia.--Teachers, as a class, cannot provide themselves with encyclopedias, or such other books of reference as would aid them in their labors, but in the latest edition of Webster's magnificent Quarto Dictionary they have a worthy substitute. Whenever I meet teachers in their associations or institutes, or in private, I earnestly present to them the great advantage they would derive from having this work near them. It will tend to make them accurate, while the definitions and illustrations will suggest many new ideas for elaboration among their pupils.—*W. R. White State Superintendent of Free Schools for West Virginia.* Wheeling, March 21, 1866.

The Idea that a person, who publishes a country newspaper, can live on his reputation as "a good fellow"—a "black-guard"—or any other reputation, better than on victuals, is all moonshine We've tried all these ways and declare ourselves decidedly in favor of the eatables, as a regular diet. Our friend B D. Jaques, of Lemon,—who never had any such silly notion, about printers, at his last visit to town, brought us a basket of good ripe young potatoes, which he refused to take pay for.—This This last mentioned fact will, we hope, save him several visits from Lincoln's tax assessor. It is hardly necessary for us to say, that Mr. Jaques takes the *Democrat* and pays for it; and does not raise small potatoes, nor cultivate narrow ideas.

Picnic.--All who are fortunate enough to possess an "unabridged," may soon ascertain the derivation and precise signification of the above term. But everybody recognizes a distinction between knowledge and experience. Hence we infer that none can fully appreciate the meaning of Picnic, until they've "been there." The *point* we are coming to, is that on Saturday last, quite a number of the young people of Tunkhannock, together with several esteemed visitors from a distance, went out on a little excursion, under the aforementioned title. It is not our purpose to give a detailed account of the affair, though it is proper to add that the party wended its way (not without some apprehensions *from the menacing clouds,) through the fields back* of town, up the hills, until—after some perspiration and not a few "long-breaths"—all set foot on "Prospect Rock." From this point, the village shows to pretty good advantage—"through a smoked glass" for instance—but its probable "distance lends enchantment to the view."

Thence we betook ourselves to the "cold spring," where the cloth was spread and ample justice (?) done the well-stored baskets. (By the way, is there any explanation of the fact that ladies dislike jumping burnt-pole fences? a series of careful observations convinced us that such a prejudice exists!)—The man who "fought, bled and died" for his country—he was "kicked by a mule"—dispensed lemonade, peanuts and—jokes

Altogether, we have no hesitation in expressing the opinion that all participants spent the afternoon pleasantly; and that, if such occasions were more frequent, they would increase the sociability of "our young folks."

A Wonder for the Workshop.--Every Mechanic should have ready at hand a box of Grace's Celebrated salve, as it is a ready remedy for accidents, such as Cuts, Bruises, Contused Wounds, Burns Scalds, Poisoned Skin, and eruptions, caused by operations in the factory, dye-house, or printing office. Only 25 cents a box.

"The perfumed light
Steals through the mist of alabaster lamps,
And every air is heavy with the breath
Of orange flowers that bloom
I' the midst of roses."

Such was the flowry land filled with healing airs and life-preserving products, where Dr Drake discovered the chief ingredients of his wonderful Tonic Medicine—PLANTATION BITTERS—the enchanted tropicle island of *St.* Croix. The Plantation Bitters combining all the medicinal and tonic virtues of the healing and life-sustaining products of that favored clime, are, without doubt, the Worlds Great Remedy for Dyspepsia, Low, Spirits, and all other Stomachic difficulties.

Magnolia Water.--A delightful toilet article—superior to Cologne and at half the price.

The Osterhout Mill at LaGrange has been entirely torn away this summer, to make room for a new and more modern structure. The original mill which was built by David Osterhout, fifty four years ago, had been at various times repaired and improved, so that almost without interuption for upwards of a half a century it had been in operation—doing good work. The new mill which is being built by George, Jeremiah and Edgar Osterhout and Palmer Jenkins, is designed to be built in the most pertect and substantial manner, in every respect. For this purpose, Mr. Gibbs, one of the best mill-wrights in the country, has been engaged to do the work. The frame was put up on Wednesday last, by a regular old fashioned raising; at which, about a hundred men were present. Among them were Daniel and Forbes Lee who assisted at the raising of the first mill 54 years ago! Time, it is true, has left some furrows on their cheeks, but they still feel able to hold a brace or handle a pike. The frame is three stories high; and entirely of oak and yellow pine timber, Mr. Carpenter who had charge of the framing, deserved and received the commendation of of all present, for the perfect manner in which the work was done.

Quite a large number of Ladies were present as spectators, this did not however, prevent them from preparing at the houses of each of the mill-owners a sumptuous supper for all who wished it. The heavy lifting done by the sturdy men there, gave us a good appetite; and having an invitation by Melissa, to "take tea," we did'nt wait for the second one, but went in for the tea, and other things too numerous to mention, with which the table was supplied.

PERUVIAN SYRUP.

A PROTECTED SOLUTION OF THE PROTOXIDE OF IRON, supplies the blood with its LIFE ELEMENT, IRON, giving strength, vigor and new life to the whole system.

If the thousands who are suffering from DYSPEPSIA, DEBILITY, FEMALE WEEKNESS, &c., would but test the virtues of the PERUVIAN SYRUP, the effect would not only astonish themselves but would please all their friends; for instead of feeling cross, "all gone" and miserable, they would be cheerful, vigorous and active.

A DISTINGUISHED JURIST WRITES TO A FRIEND AS FOLLOWS:

I have tried the the PERUVIAN SYRUP, and the result fully sustain your prediction. It has made a NEW MAN of me, intused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at any time during the last five years."

Thousands have been changed by the use of this remedy from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

The genuine has "Peruvian Syrup" blown in the glass.

THE
UNION PACIFIC
RAIL ROAD CO.

THEIR FIRST MORTGAGE BONDS
As an Investment.

The rapid progress of the Union Pacific Railroad, now building west from Omaha, Nebraska, and forming, with its western connections, an unbroken line across the continent, attracts attention to the value of the First Mortgage Bonds which the Company now offer to the public. The first question asked by prudent investors is, "Are these bonds secure?"—Next, "are they a profitable investment?" to reply in brief:

1st. The early completion of the whole great line to the Pacific is as certain as any future business event can be. The Government grant of over twenty million acres of land and fifty million dollars in its own bonds practically guarantees it. One fourth of the work is already done, and the track continues to be laid at the rate of two miles a day.

2d. The Union Pacific Railroad bonds are issued upon what promises to be one of the most profitable lines of railroad in the country. For many years it must be the only line connecting the Atlantic and Pacific; and being without competition, it can maintain remunerative rates.

3d. 376 miles of this road are finished, and fully equipped with depots, locomotives, cars, &c., and two trains are daily running each way. The materials for the remaining 131 miles to the eastern base of the Rocky Mountains are on hand, and it is under contract to be done in September.

4th The net earnings of the sections already finished are *several times greater* than the gold interest upon the First Mortgage Bonds upon such sections, and if not another mile of the road were built the part already completed would not only pay interest and expenses, but be profitable to the Company.

5th. The Union Pacific Railroad bonds can be issued only as the road progresses, and therefore can never be in the market unless they represent a *bona fide* property.

6th. Their amount is is strictly limited by law to a sum equal to what is granted by the U. S. Government, and for which it takes a *second* lien as its security. This amount upon the first 517 miles west from Amaha is only $16,000 per mile.

7th The fact that the U. S. Government considers a second lien upon the road a good investment, and that some of the shrewdest railroad builders of the country have already paid in five million dollars upon the stock (which is to them a third lien), may well Inspire confidence in a first lien.

8th. Although it is not claimed that there can be any better securities that Governments, there are parties who consider a first mortgage upon such a property as this the very best security in the world, and who sell their Governments to re-invest in these bonds—thus securing a greater interest,

9th. As the Union Pacific Railroad bonds are offered for the present at 90 cents on the dollar and accrued interest, they are the cheapest security in the market, being over 15 per cent. less than U. S. Stocks.

10th, At the current rate of of premium on gold, they pay
Over Nine per Cent. Interest.
