COMMERCIAL.

SAN FRANCISCO, OCTOBER 20, 1873.

We take pleasure in presenting the following full report of the condition of the San Francisco sugar market October 1. From it our readers will obtain a more correct idea of its condition than any other we can give. The week on hand October 1 appeared to be remarkably uneventful at the same time in 1872. An important item mentioned in the regular course is the product of beet sugar, now given as 2,500,000 pounds. At the rate of increase, California will soon cease to need any foreign supply!

SUGAR CIRCULAR.

SAN FRANCISCO, Sept. 30th, 1873.

Dear Sir:—In continuation of our market advices, we desire to call your attention to the following table of comparative imports of Raw Sugars for the Third Quarter of 1872 and 1873:

	1872.	1873.
Sugar consumption	34,000,000 lbs.	38,000,000 lbs.

IMPORTATIONS.

	1872.	1873.
Manila	7,542,000 lbs.	2,000,740 lbs.
Batavia	4,000,000	
Penang	1,000,000	
Siam	3,000,000	
Calcutta	1,000,000	2,473,984
China	1,000,000	3,110,024
Central America	4,000,000	3,000,000
Tahiti	22,000	500
	20,564,000	14,584,948
In first quarter	28,000,000	28,000,000
In second quarter	28,000,000	28,000,000
In third quarter	34,000,000	38,000,000
Aggregate for consumption	110,564,000	112,584,948

The past quarter opened heavily and without any spirited buying. Towards the end of July it was statistically that one of the leading Refineries had overpaidered by purchases nearly all the refining grades, and it was intimated that the prices for all kinds of sugars would be advanced. In consequence of this notice the other Refineries who held only moderate stocks, and had been depending in a measure upon purchasing both in this market, were induced to pay an advance of ½ @ ¾c. for the moderate quantities of raws remaining upon the market.

Refined Sugars.—The prices for these descriptions have fluctuated considerably during the entire quarter, closing at the opening quotations, viz: 40@ for Yellow C, and 11c. for Crushed. The demand during the last two months of the quarter was quite active, partly owing to the Grasshopper Crop, and partly in anticipation of higher prices for the article.

Hawaiian Sugars.—The stock in hand at the commencement of the quarter was unusually large, but notwithstanding considerable receipts, the stock at the close is materially reduced. In consequence of the low price of Refined Sugars, there is evidently some scarcity prevailing in consequence, and Hawaiian Refined have to be sold at a considerable concession upon the price of Yellow C. During the quarter good refining grades in large lots could pretty nearly be sold at the prices quoted.

China Sugars.—With the exception of low refining grades, imported chiefly by the Refineries, the receipts of this description have been small. The Sugars of the Shanghai Refinery have been nearly all sold, and it is not anticipated that any further shipments of refined will be made to this market.

New York Refined and California Beet Sugars.—Moderate amounts of the first, shipped in the spring under favorable conditions, have been placed on the market, but no late shipments are expected. The product of the latter is now coming upon the market, and it is estimated that the crop will amount to about 2,500,000 lbs.

Comparative receipts and sales of Imports it will be observed that the "Consumption" for the three quarters of the years 1872 and 1873 are nearly equal. Last year at this time the stock in consumers' hands was very large, but at present only a moderate stock is reported.

We remain, yours faithfully,

WILLIAMS, BLANCHARD & CO.

We have to append to our extract of three wholesale firms the Annual Circular of Messrs. Welch & Co., giving a comprehensive and interesting view of the season's work. The statements in tonnage lists have been as follows:

Bark J. W. Seaver, which arrived on the 28, brought a full cargo of assorted raw sugars and returns will produce to San Francisco.

Schooner Dashing leaves for Auckland in a day or two, having secured a full cargo of sugar.

Ship C. M. Pope arrived in ballast from Valparaiso on the 23rd, and sailed yesterday for Baker's Island to load guano.

Schooner C. S. Ward arrived on the same day from Sydney coming the guano islands, with a gang of laborers and seals on Saturday, with a new gang. She reports the ship Pioneer having taken off a cargo of 1,000,000 in ten days, stowing as good as ever.

Bark D. C. Murray took on board a small cargo, in consideration $11,000, and sailed on the 20th for San Francisco.

Brig W. H. Allen sailed for Tahiti on the 20th, with a load of 77 cord wood and other freight.

Schooner Mary Foster sailed for Sydney on the 20th, and took a full cargo, mostly sugar. She receives direct to this port with cases.

Last advices of oil in New Bedford, Sept. 20, show much firmness. Sperm in demand at $1.30, and 500 bbls. at a little above that, which all in city. 1,000 pounds Arctic have sold at $1.22, and further offers at that price refused.

Ship Corinna sailed on Friday for Honolulu in September, with a cargo of coals for the U. S. government. To be followed by one or two more ships with similar cargoes.

NOTES OF THE WEEK.

☞ Mr. Burton sells to-day at his auction room.

☞ Steamer Kilauea goes to Kawaihae-to-day, and next Monday leaves for S. P. M. for Hilo.

FOR AUCKLAND.—Schooner Dauntless leaves for New Zealand to-morrow and will take a mail.

☞ Owing to a pressure of advertisements we are compelled to crowd out editorial and other matter prepared for this issue.

☞ A very desirable line of China Goods, ex Benvorlich, will be sold by Mr. Adams on Thursday, at his sales room. The assortment will merit the attention of everybody.

☞ The loss of two Greenland whalers—the O. Tuft, and Ansel Gibbs—is reported in our Eastern exchanges. The officers and crews of these vessels had arrived home, but the ships were a total loss.

☞ Bark D. C. Murray sailed on Saturday afternoon, with a small cargo and twenty passengers. On Sunday evening, she was seen off Waimanalo nearly becalmed.

FROM THE GRAND ISLANDS.—Capt. Rickman furnishes us a very interesting report of his cruise. It will be observed that he has seen sperm whales frequently in August and September.

☞ If the Costa Rica sailed in October, as was expected, say on Saturday the 25, she will be due on Monday next, and will bring eighteen days' later advices than we now have.

☞ The property known as Rosebank, in Nuuanu Valley, has been purchased at private sale by Dr. Trousseau, for $2,500, which is the sum paid for it by the late owner.

☞ A sailor was thrown from his horse, on Saturday night, some four miles this side of Waimanalo, and died Sunday morning from the wounds received. We have not learned his name.

☞ Miss Maggie Knight presents a very attractive programme for Saturday evening, which will draw out a full house. This young songster was never in a finer condition, and will doubtless charm all who listen to her marvelous warbling.

☞ We observe that the fruit and vegetable market adjoining Mr. Boyd's Family Market has been completed, and will soon be open to the public. The arrangement of the stalls seems to be very convenient, and adapted to the object intended. Housekeepers can now go for vegetables in the morning, with some prospect of finding what they want.

☞ The Band will play at the Hotel on Thursday evening, and at Emma Square on Saturday afternoon, the hour having been changed to 4½.—The following is the programme for Thursday evening:

4th of July, March ..... Berger
Overture, Opera Nabucodonosor ..... Verdi
When the Swallows Homeward Fly ..... Abt
Soldier's Song, Waltz ..... Gungl
Echoes of the Night, serio comic Fantasia, new ..... Riviere
Cavatina, Opera Sonnambula ..... Doubient
Mirinda Waltz ..... Godfrey
Black Creek Galop ..... Baker

☞ The arrivals at the Hawaiian Hotel, since October 21st, have been:

Dr Byron Adams, New Castle, J H Coney, Coraopolis, W H Shipman, New York, R V Hudnutt, Ohio, U S Brewster, San Francisco, Capt E H Thompson, ch Davis, Lieut L M Hall, star Saranac, Capt Davis, brig South Sea, Mr Dolomar, Brest, A Robinson, Hakawai, Kauai, Francis Gay, " " Miss Gay, " " Mrs C B Robinson, " J Fischer & wife, Milan, Richard Ballentine, Waialua, Jas K Wilder, Kaalaea, Capt Wille, W Lane, Barth Gossell

DEATH OF JOHN S. LOW.—We have received a letter from Fred. G. Low, jr., dated Oakland, Sept. 26, confirming the report of the death of his brother. Mr. Low had been for four or more years past engaged in surveying, but his health failing he took a trip to Panama, on one of the Pacific Mail Company's steamers, in the capacity of purser, receiving little benefit from the voyage. He was for several years connected with the Board of Education in this city, and afterwards became manager of the Princeville Plantation. He married a grand-daughter of the late John Parker of Waimea, and leaves her and several children.

DEATH OF AN OLD RESIDENT.—Mr. Andrew Auld, one of the oldest foreign residents of this city, died on Sunday morning, and was buried on Sunday afternoon, the funeral being attended by the Mechanics Union and a numerous concourse of citizens. Mr. Auld arrived in Honolulu in the year 1808, in company with Robert Charlton, Capt. Endicott and others, and has continued since that date to reside here, excepting short intervals of absence. His family is quite numerous, he having had seven children, twenty grand children, and three great grandchildren, of whom fifteen are now living. He died 74 years of age.

ANNUAL MEETING OF THE A. B. C. F. M.—The sixty-fourth annual meeting of the American Board of Foreign Missions was held in the Academy of Music at Minneapolis, Minnesota, September 24th. Over 2000 strangers were in attendance. The Secretary read the report on the home department, that the financial future of the Board was not hopeful, on account of a lack of contributions of the churches. The Assistant Secretary read a report on the foreign department. The Treasurer reported the expenditures of the year to be $420,975, and the receipts $421,321, leaving the Board in debt $13,744. The funed was also in debt $72,709, making a total indebtedness of $86,086. At the evening session Professor Julius H. Seelye of Amherst College preached. On the second day's session, papers were read by the Rev. N. G. Clark of Boston, on developing the power of the Gospel, and by the Rev. S. B. Treat, on the present duty of the Board in its missionary work. The latter was urged to make a push for more money.—*Boston Daily Advertiser.*

TROUBLE AT MARQUESAS.—A letter has been received from one of the Hawaiian Missionaries at Hivaoa, Marquesas Islands, stating that owing to continued warfare between the native chiefs, three valleys had been visited by a French war vessel, which shelled the villages concerned in the fighting, and pretty effectually destroyed them. The French authorities appear to have resorted to this as the most effectual way to put a stop to these savage quarrels.

A FALSE ALARM.—The bulrushes at Waikiki took fire about 10 o'clock Sunday forenoon, and soon spread, making a dense smoke, which stretched out to sea for many miles. About noon an alarm of fire was very needlessly given, which disturbed the congregations worshiping at the time, and sent the fire engines rattling out towards Waikiki. They reached the residence of Mr. C. E. Williams before the cause of the alarm was discovered.

SOMETHING NEW.—By notice in another column, our readers will observe that a concert will be given at Buffum's Hall on Tuesday evening next. A concert is nothing new of course; but here we are promised an old-folks' concert, a young folks' concert and tableaux vivantes all combined. We have had a peep behind the curtain, and know that there will appear some of the funniest old costumes, such as our grandmas wore fifty years ago, and other things of the same sort. We advise all who wish to enjoy an evening of fun, to look out and secure a ticket and good seats. You won't regret it.

AN EDITOR.—Among the passengers by the Murray was Dr. Byron Adams, a knight of the quill, who has been connected with several newspapers, among them the *New York Herald*, *Chicago Tribune*, and at present acts as correspondent for the *S. F. News Letter*, which is conceded to be one of the spiciest papers issued in the United States. Of course it will be in keeping to get up some demonstration in honor of our guest, and if another mutiny in the barracks or out of them cannot be stirred up, perhaps a mutiny on a smaller scale will do,—in some school or academy, or on some plantation. We trust Mr. Adams will be able to visit all the Islands, with his eyes and ears open, and make a note of what occurs. From this point, Mr. A. proposes to push still further into the wastes of Bethlehem, and visit the original cannibals of Fiji, to report the progress of affairs among them.

CASHMERE OR ANGORA GOATS.—A few of these fine animals arrived in the D. C. Murray last week, and are to be seen at the Hotel. They belong to Mr. Thos. Rutherford, who comes here to introduce this stock to the notice of our graziers. They are valuable chiefly for their long wool, which brings a high price, and for the pelts which serve for door rugs. They also make good meat, considered equal to mutton. In one of our Contra Costa exchanges, we find the following notice of these animals:

"We learn from Joshua Marsh that he has had encouraging success in raising the Angora goat, and improving the common stock by crossing; and he now has a flock of about 130, some twenty of which are full blooded, sixty half bloods and the remainder three-quarters. The fleece sells readily to local buyers at 35 cents per pound, and they will average from two to three pounds of fleece per annum. The meat is conceded to be superior to mutton, and even old hunters admit that it is finer than venison. The pelts are in great request for rugs, robes, etc., and readily bring from $2 to $6 or $8 each. Marsh tells us that he has no trouble in caring for his goats. They browse around the mountains, and take such excellent care of their young that the wild animals seldom get one."

Mr. B. has left us several fine samples of wool taken from his goats, and we can say if such beautiful staple can be grown here, it will prove the fortune of the man who owns the flock.

FIRST ARRIVALS.—Three Arctic whalers appeared off the harbor early on the morning of the 28th, having left the northern cruising ground on the 2d of October. They are the R. W. Wood, Capt. Whitney reporting 600 bbls, bark Arctic, Capt. Tripp, with 380 bbls., and bark Bart. Gosnold, Willis, with 380 bbls. The following is the best report we can obtain from Captains Willis and Tripp, and it is almost too poor to put into print. But here it is, and we must do as the sailors are told to do "obey orders, it it breaks the owners." So into type it goes:

Sept. 20, Alaska, Fisher, 1 whale.
14, Active, Campbell, 2 whales and 200 bbls walrus.
