Did you ever notice that there were but few divorce cases coming from the homes where the husband and father spent his evening around the family fireside instead of at the club. Cupid gets tired trying to keep the flame of love going without assistance.

BRIGHT'S DISEASE.

The largest sum ever paid for a prescription, changed hands in San Francisco, Aug., 29, 1901. The transfer involved in cash and stock $312,500, and was paid by a party of business men for a specific for Bright's disease and Diabetes, heretofore incurable diseases.

They commenced the serious investigation of the specific Nov. 15, 1901. They interviewed scores of the cured and tried it on 36 cases by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases and administered it with the physicians for judges. Up to Aug. 25, eighty-seven per cent of the test cases were either well or progressing favorably.

There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application.
