Morton's Celebrated Gold Pens.—Improvements made in the machinery for manufacturing Gold Pens, and secured to the subscriber by Letters Patent, have enabled him to overcome the many imperfections hitherto unavoidable in their production, and also to bring the cost within the reach of all. The writing public should know the following facts: Constant writing for six months is done cheaper with Gold Pens than with steel, therefore, it is economy to use Gold Pens. The Gold Pen remains unchanged by years of continued use, while the Steel Pen is ever changing by corrosion and wear; therefore, perfect uniformity of writing is obtained only by the use of the Gold Pen. The Gold Pen is always ready and reliable, while the Steel Pen must be often condemned and a new one selected therefore, in the use of the Gold Pen there is great saving of time. Gold is capable of receiving any degree of elasticity, so that the Gold Pen is exactly adapted to the hand of the writer; therefore, the nerves of the hand and arm are not injured, as is known to be the case by the use of Steel Pens. He is now selling Gold Pens at prices varying from 25 cents to $1, according to size, the average wear of every one of which will falloutlast a gross of the best Steel Pens. Sold by all dealers in the line throughout the country. Wholesale and retail at the store, No. 25 Maiden-lane, where all orders, inclosing cash or post stamps, will receive prompt attention; and a Pen or Pens corresponding in value, and selected according to description, will immediately be sent by mail or otherwise, as directed. A. MORTON, No 25 Maiden-lane, New-York.

MECHANICS and INVENTORS, AROUSE!—Now is the time to think, to invent, and to develope new ideas; while business is dull.
Now is the time to secure Patents and have them READY for the renewal of business or for traffic.
Now is the time to make arrangements for the manufacture of new and useful articles of all kinds.
Now is the time to secure Patents in England, France, Belgium, and other European countries.
Inventors, wake up! Messrs. MUNN & Co., proprietors of The Scientific American, No. 37 Park-row, N. Y., having a branch office in Washington, continue to solicit Patents as usual on the most extensive scale and in the best manner.
They have acted as attorneys for more than 15,000 patentees, to all of whom they refer.
All who want their patent business done with dispatch, and on reasonable terms, should address or apply as above.
Pamphlets of advice to inventors, in different languages, about Patent Laws, &c., furnished free.

PATENTS FOR NEW INVENTIONS.—Messrs. MUNN & Co., Proprietors of The Scientific American, No. 37 Park-row, New-York, continue to solicit Patents in the United States and in all foreign countries on the most reasonable terms. Consultations and pamphlets of advice in English and German free on application to the office.
Read the following testimonials from the three last Commissioners of Patents:
Messrs. MUNN & Co.: I take pleasure in stating that while I held the office of Commissioner of Patents more than one-fourth of all the business of the office came through your hands. I have no doubt that the public confidence thus indicated has been fully deserved, as I have always observed, in all your intercourse with the Office, a marked degree of promptness, skill, and fidelity to the interests of your employers. Yours, very truly, CHAS. MASON.

Read what the Hon. Joseph Holt, the great patriot, says:
Messrs. MUNN & Co.: It affords me much pleasure to bear testimony to the able and efficient manner in which you have discharged your duties of Solicitors of Patents while I had the honor of holding the office of Commissioner. Your business was very large, and you sustained (and, I doubt not, justly deserved) the reputation of energy, marked ability, and uncompromising fidelity in performing your professional engagements.
Very respectfully, Your obed't serv't, J. HOLT.

Messrs. MUNN & Co.—Gentlemen: It gives me much pleasure to say that during the time of my holding the office of Commissioner of Patents, a very large proportion of the business of inventors before the Patent Office was transacted through your agency, and that I have ever found you faithful and devoted to the interests of your clients, as well as eminently qualified to perform the duties of Patent Attorneys with skill and accuracy.
Very respectfully, Your obed't serv't, WM. D. BISHOP.

Messrs. MUNN & Co. have been engaged in soliciting Patents for over sixteen years, and more than Fifteen Thousand Patents have been granted through their Agency.
