Agricultural.

To Make Butter in Five Minutes without a Churn.

A correspondent highly recommends the following receipt:

After straining the milk, set it away for about twelve hours, for the cream to "rise." (Milk dishes should have good strong handles to lift them by.) After standing as above, set the milk without disturbing it, on the stove; let it stand there until the cream on the surface assume a wrinkled appearance, but be careful it does not boil, as should this be the case the cream will mix with the milk and cannot again be collected. Now set it away till quite cool and then skim off the cream, mixed with as little milk as possible. When sufficient cream is collected proceed to make it into butter as follows:

Take a wooden bowl, or any suitable vessel, and having first scalded and then rinsed it with cold spring water; place the cream in it. Now let the operator hold his hand in water as hot as can be borne for a few seconds, then plunge it in cold water for about a minute, and at once commence to agitate the cream by a gentle circular motion. In five minutes, or less, the butter will have come, when, of course, it must be washed and salted according to taste; and our correspondent guarantees that no better butter can be made by the best churn invented.

To those who keep one cow, this method of making butter will be found really valuable, while quite as large a quantity of butter is obtained as by the common mode, the skim-milk is much sweeter and more palpable. In the summer season it will be found as necessary to bring the cream out of the cellar (say a quarter of an hour before churning) to the excessive chill off; in water, place the vessel containing the cream over another containing water to warm it; then continue to agitate the cream until the chill has departed.

Before washing the butter separate all the milk you possibly can, as the latter will be found excellent for tea cakes.—Butter made in this manner will be much firmer and less oily in hot weather than when made in the ordinary way.—*Scientific American.*

CLEAN MILKING.—It is sometimes forgotten that the last gill of milk drawn from the cow's udder is the best part of every milking. Careful experiments made in England show (according to a report lately published,) that the quantity of cream obtained from the last drawn cup from most cows, exceeds that of the first in the proportion of twelve to one." The difference in the quality also is considerable.—Hence, a person who carelessly leaves but half a pint of milk undrawn, losses in reality as much cream as would be afforded by six or eight pints of the beginning; and looses, too, that part of the cream which gives the richness and high flavor to his butter.

SAFE AT LAST.

No More Explosions!

Greenough's Carbonic-Acid-Gas,

Non-Explosive Burning Fluid.

HAVING purchased the exclusive right to manufacture and sell the NON-EUPLOSIVE BURNING FLUID AND CAMPHENE, for Tiffin and vicinity, I now offer it for sale at a trifle more than I have heretofore sold the common kind. This fluid has been in use in most of the New England towns, for the past two years, and has undergone an investigation before the "Franklin Institute" and College of Pharmacy of Philadelphia. I am convinced that it may be used with perfect safety, and will not explode under any circumstances in the ordinary use of Burning Fluid. I have fully tested its merits in the presence of many citizens; and all pronounce it of the utmost importance to every family as a

Safe and Brilliant Light!

To those who have heretofore preferred to burn oil, rather take the risk of the explosion of fluid, I would say that the article I recommend IS REALLY NON-EXPLOSIVE, and may be used without the slightest possibility of an accident. It is used in the same lamps as common burning fluid.

Price, 50 cents per gallon, or 20 cents a quart.

☞ The only place in this city where the fluid can be had is at the Drug Store of J. F. MARQUARDT, on Minerva street, 3 doors below the Davis House, Tiffin, Ohio. an 19-tf

YOUNG MEN who are suffering from the effects of self-abuse, can be surely and permanently restored by using the

CONCENTRATED CURE,

OR

Aqua Vitae;

A Remedy of Great and Certain Cure.

This remedy is put up in small vials, and will be sent by mail or express, safely. A trial will satisfy. Use it for a week, and you will experience a great benefit. A circular containing full particulars, sent (free) on application. Price, per bottle, $1. One bottle will last a month.

N. B. Thirteenth (or double) bottles, $2.

Address R. CRUGER, Medical Agent,
742 Broadway, N. Y.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents

SOOTHING SYRUP,

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon her medicine, it will give rest to yourselves, and relief and health to your infants.

We have put up and sold this article for over ten years, and can say, in confidence and truth of it, what we have not been able to say of any other medicine—NEVER HAS IT PAILED IS AN INSTANCE TO EFFECT A CURE, when we do know dissatisfaction by any one who uses it. On the contrary, all are delighted with its operation, and speak in terms of highest commendation of its magical effect and medical virtues. We speak in this matter "what we know," after ten years of experience, and pledge our reputation for the truthfulness of what we have to state. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILFUL NURSES in New England, and has been used with NEVER-FAILING SUCCESS in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

Griping in the Bowels, & Wind Colic,

and overcome convulsions, which, if not speedily relieved, end in death. We believe it will cure SORE GUMS, when lancing the gums may be necessary, and we do not hesitate to recommend it to all cases of convulsions in children, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of others, stand between you and your suffering child, and the relief will be sure—yes, she has SOME-THING that will do her child good, if PRUDENCE is used in following the use of this medicine, if BOWEL COMPLAINTS do arise they will accompany each bottle.—Recommended by Nurses and Physicians of EUROPE & AMERICA.

For Children Teething.

Sold by all Druggists throughout the world.

FARM LANDS FOR SALE 25 miles from Philadelphia by Railroad in the State of New Jersey. Soil unsurpassed for Agricultural purposes, being a good loam of a dark color, with a clay subsoil. The land is in large tracts, containing small farms, and hundreds from all parts of the country are now settling and building. The steam cars pass through the land, and towns are growing. The oil mills in Philadelphia and Camden consume large quantities of Flax Seed, which can be raised on these lands. Farms from $15 to $20 per acre, payable within four years by instalments. To visit the place—Leave Vine Street Depot in Philadelphia at 7½ A. M., by Railroad to Hammonton, or enquire of R. F. Hymer, by letter, Hammonton Post office, Atlantic County, New Jersey.

Hammonton, Feb. 1st, 1859. jel 15-6m

TO MANUFACTURERS OF FANCY GOODS.—Wanted, a Manufacturer of Fancy Goods, who can furnish a small variety of goods, which will be found profitable to the manufacturer. Address, with samples, "Fancy Goods," Box 1, Tiffin, Ohio. jel 15-6m

HOME TESTIMONY.

HARTFORD, Trumbull Co., O., March 7th, 1857.

I hereby certify that I have been dealing in the Graffenberg Medicines for the past year, and can truly say that I have never offered any medicines to the public that have met with the decided approbation of the people like these, particularly the Pills and Catholicon.—They will rapidly perform all and more than is promised for them. I have sold about fifty bottles of the Catholicon the past season, and I hear the best results in every case.

J. H. C. JOHNSON, Medical Agent.

Read what Dr. Bushnell says of the Graffenberg Medicines. Dr. B. is a physician of extensive practice, and one of the most successful in the county (Trumbull) in which he resides:

"This certifies that I have used the Graffenberg Pills and Marshall's Catholicon, sold here by J. H. C. Johnson, in my practice to my entire satisfaction. They are good medicines. DR. G. W. BUSHNELL."

Hartford, Trumbull Co., O., March 7, 1857.

I am a physician of thirty years' practice. My principal study has been diseases of females. They have generally baffled my best efforts. Obtaining the materials composing Marshall's Uterine Catholicon, I was pleased with them, gave them a fair trial, and found myself abundantly rewarded. In my former practice I could only mitigate the symptoms of about half the cases and could not cure one in ten. Now I can radically cure at least seventeen in twenty and mitigate the rest. I consider Marshall's Uterine Catholicon the greatest blessing to females I have met with.

J. H. WILLIAMS, M. D., Charleston.

WEST BROOKFIELD, Coshocton Co., May 14, 1857.

Mr. H. S. Kingsley, Sir—I have been selling the medicines of the Graffenberg Company for the last two years, and have invariably found them to give good satisfaction; and the pills I have sold to a great many families are regularly as their tea and coffee, and with my trade they have become a staple article. Marshall's Uterine Catholicon is a medicine that has done a great amount of good in female diseases. One lady I sold it to told me she had received more benefit from one bottle than she did from a long course of medical treatment by the most skillful physicians. Yours truly,

JAMES WILSON.

For Pills by A. R. Van Doorn, H. H. Ryder, J. P. Wooster, Tiffin; H. Hall, Lowell; Dr. P. Yates, Upper Springs; Wm. Bolds, Lodi; S. P. Hoff, Flat Rock; Wm. Bininger, Attica; D. Hoffman & Co., Melmoreville; J. W. Wing, Adrian; and by one agent in all the principal towns in Ohio.

For Medicines or agencies address

H. S. KINGSLEY, Cleveland,
ja25-1y. Agent for Ohio.

HOWARD ASSOCIATION.

PHILADELPHIA.

A benevolent institution established by special endowment for the Relief of the Sick and Distressed, afflicted with Virulent and Epidemic Diseases.

IN times of Epidemics, it is the object of this Institution to establish Hospitals, to provide Nurses, Physicians, Clothing, Food, Medicines, &c., for the sick and destitute, to take charge of the orphans of deceased parents, and to minister in every possible way to the relief of the afflicted and the health of the public at large. It is the duty of the Directors, at such times, to visit personally the infected districts, and to provide and execute means of relief. Numerous physicians, not belonging to the Association, usually enroll their names on its books, subject to be called upon to attend its hospitals free of charge.

In the absence of Epidemics, the Directors have authorized the Consulting Surgeon to give advice and medical aid to persons suffering under chronic diseases of a virulent character, arising from abuse of the physical powers, and treatment, the effects of drugs, &c., &c.

Various reports and treats on the nature and treatment of Chronic Diseases, by the Consulting Surgeon, have been placed for gratuitous distribution, and will be sent FREE OF CHARGE to the afflicted.

Address, for Reports or treatment, Dr GEORGE R. CALHOUN Consulting Surgeon, Howard Association, No. 2 South Ninth Street, Philadelphia, Pa. By order of the Directors, EZRA D. HEARTWELL, Pres't.

GEO. FAIRCHILD, Secretary. sep17-1y

New Agricultural Settlement.

To all Wanting Farms,

A Rare Opportunity in a Delightful and Healthy Climate, 25 miles South-East of Philadelphia, on the Camden and Atlantic Railroad, New Jersey.

An old estate consisting of several thousands of acres of productive soil, has been divided into farms of various sizes to suit the purchaser. A population of some fifteen families, from various parts of the middle States and New England have settled there the past year, improved their places, and raised excellent crops. The price of the land is at the low sum of from $12 to $20 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN TRE UNION. The place is perfectly secure from frosts—the destructive enemy of the fruit growers. Crops of grain, grass and fruit are now growing and are seen. By examining the place itself, a correct judgement can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only for actual improvement. The result has been, that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vineyards and peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,

as the reader may perceive from its location, is the BEST IN THE UNION.

Produce bringing double the price than in locations nearer to the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are now and expected to be to an extent of millions.

In locating here the settler has many advantages.—He is within a few hours ride of the great cities New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement of comfort and civilization is at hand—he can buy every article he wants at the cheapest rate, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, divine service, and will enjoy an open winter, and delightful summer, such as he never saw in the Western States. The result of the change upon those of his age, is generally back to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of $10 to $15 per thousand. Brick from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union wherein buildings and improvements can be made cheaper.

The reader will easily see he struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land, or purchase. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons, from their own neighborhood; these will witness the improvements, and can judge the character of the population.—If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held an hour.

There are two daily trains to Philadelphia, and to all settlers who improve, the Railroad Company gives a Free Ticket for six months, and a half-price Ticket for these cases.

THE TOWN OF HAMMONTON.

In connection with the agricultural settlement, a new and thriving town has naturally arisen, which presents inducements for any kind of business, particularly stores and manufactories. The Store business could be carried on to this place and market to good advantage, also cotton business
