COMMERCIAL.

HONOLULU, DEC. 15, 1875.

The Australian steamer arrived on Sunday with a small freight from Australia, and sailed the same evening for San Francisco, with freight and 20 passengers.

Schooner Bonanza, from San Francisco, brings a full cargo to J. T. Waterhouse, Esq. She will load for the same port.

Regarding the Auckland sugar market, we have the following report, under date of Nov. 24:

"Sugar.—Raws have appeared to bring firm. Various parcels were established at auction this week, and with much presing only two or three lines found buyers. White crystals, strong grain, $30 to $4 on $31 12½, in bond; pale yellows, common, $28; bright dark brown, $26. The most assortment of Raws, and comparatively few have remained, and a Melbourne shipment, ex French Henry, of 174 bags and 900 packets. No further move has been made in Honolulu. Manilas, white, $27 to $28; brown crystals, $22; light yellows, $20 to $23; Honolulu lights, none; dry yellows, $17.

Brig Helen W. Almy sailed on Monday, taking a full cargo of produce for San Francisco.

"METALINE"—Mr. J. C. White, the enterprising engineer of the Pioneer Mills at Lahaina (Messrs. Campbell & Tatton) has recently imported a few pounds of this valuable compound, a self-lubricating material, we all being used. A correspondent informs us that it can be seen at the above mills, working to perfection on a centrifugal pump running from 800 to 1000 revolutions per minute. Besides the advantage of using no oil, the bearings and shaft keep perfectly cool. The material is quite adapted to quick running machinery. The proprietors intend to run all their machinery with this article, and they say,—let the sperm whales swim.—*P. C. A.*

☞ At a regular meeting of Lodge Le Progres de l'Oceanie, No 124, A. F. and A. M., held Monday evening, November 29th, the following officers were elected for the ensuing year:

D. Kalakaua	W.·. M.·.
H. J. Agnew	S.·. W.·.
Edward S. Foss	J.·. W.·.
F. Gulegoff	Secretary
J. S. Walker	Treasurer
H. G. Crabbe	Orator
Thos. Harris	Deputy

—Hawaiian Lodge No. 2, F. & A. M., held their regular meeting December 6th, when the following officers were re-elected for the ensuing year:

D. K. Pelz	W.·. M.·.
G. H. Dole	S.·. W.·.
W. L. Wilcox	J.·. W.·.
F. A. Schaefer	Treasurer
C. T. Gulick	Secretary

MORE LABORERS.—Capt. Frost, of the bark W. H. Beasie, which left last week for Hong Kong, has been authorized by the Hawaiian Government to import 400 or more chinese agriculturists, men and women, to settle in this kingdom. They are to be offered a free passage, and will be open to make such engagements as they choose on arrival. Two other vessels, which left for China previously, are expected to bring immigrants on the same plan of a free passage; so that provision has been made for six or eight hundred laborers, if they choose to migrate hither. From all that can be ascertained, the plan now adopted is the only practicable one that can be followed to meet the needs of the planters. When 1500 are introduced, there will be less stringency in the labor market than there now is and has been. One benefit which will arise from the free importation of women and children or rather families, is, that the immigrants will be more likely to remain permanently.

NOTES OF THE WEEK.

☞ There are no signs of the California mail steamers as we go to press—7½ A. M.

☞ The fall term of Oahu College will close on Friday afternoon with rhetorical exercises.

☞ Christmas sale at Adams' on Saturday evening, and at Bartow's on Monday evening next.

ACCIDENT.—Mr. James Wood of Kohala, Hawaii, had his leg broken last week by a vicious horse.

☞ The passage of the Vasco de Gama from Sydney to Auckland was made in 110 hours—the shortest on record.

☞ The volcano is reported as very active, under date of the 6th. There has been rain enough lately to furnish all the steam required.

☞ Stmr Kilauea had a fine run to Hawaii last week, arriving at Lahaina at 3 A. M., Makee's Landing 9½ A. M., and Kawaihae at 5 P. M. This is equal to the best time she has ever made to the latter port.

☞ Stmr Vasco de Gama entered port on Saturday midnight, without the aid of a pilot. Our pilots, after this, will have to be wide awake, when the mail steamers are expected, if they expect to keep up with the rest of the world.

☞ The church at Waikiki was struck by lightning during the storm on Thursday last, which shattered the steeple and front of the building, and set it on fire, which was soon put out by the heavy rain which followed, or, as a spectator remarked, "the same one who set it on fire put the fire out."

ACQUITTED.—Mr. Ashman, who was arrested on Maui some weeks since, on suspicion of having murdered a Chinaman, was tried at Lahaina last week, and acquitted. The evidence all tended to show that the Chinamen who charged Ashman with the crime were themselves the parties concerned in the murder.

☞ The new steamship City of San Francisco, which is expected here to-day, arrived at Panama Nov. 9, 48 days from New York, the shortest passage yet made via Cape Horn. She was due at San Francisco Nov. 25, and would doubtless be ready to leave on mail service on the day advertised, and be here to-day.

☞ On the wharf we notice two large boilers imported from San Francisco by the Bonanza. They are no doubt very fine, but no better than those made last fall at the Honolulu Iron Works, for the Pioneer Mill. Besides the boilers, there are about 160 pieces of machinery, all of which are intended for the Koloa sugar mill.

☞ The new schooner, built by Messrs. Foster & Co., for Messrs. Campbell and Torton, of Lahaina, will be launched at 7 o'clock on Thursday morning. She has not yet been named. The natives call her HOLOKAHANA, (success,) which they think is an appropriate name, but "Pioneer" or "Lahaina" Packet would sound better.

☞ Last evening there was a wedding ceremony performed in the parlor of the seamen's chaplain, Rev. Dr. Damon, where a chinaman was united in wedlock to a Hawaiian lady. There was quite an assemblage of chinese guests who provided a simple but generous feast for the occasion. Altogether it was a novel scene not often witnessed in Honolulu.

☞ The bark Buena Vista, heavily laden with lumber, on entering the port last week, carried away the flying jib-boom of the iron bark Aglaia, but did no other damage. As a sailor remarked, it was only a salutation of the British Lion, by the American Eagle,—no harm intended. Iron vessels, however, seem to possess unusual attractive powers in our harbor.

NEW SUGAR.—The crop of 1876 is beginning to move in from various quarters, and so far proves to be of superior quality. Among the finest is that of the Pioneer Mill of Lahaina, which promises a turnout of 1800 or 2000 tons. The works of this mill are now the best and most powerful of any in these islands, and are capable of making ten tons a day, without resorting to overwork.

THE BONANZA.—This schooner arrived on Saturday evening after a three weeks passage from San Francisco, during which she had little or no wind—and literally floated down. She is a new vessel, and if measured according to the Hawaiian tonnage rules, would register about 200 tons. We hear that she is for sale, and if not sold will return to San Francisco with despatch.

☞ The sudden departure of Wallace is on everybody's tongue. But besides him, we understand that another bigamist left suddenly in the Mattie Macleay, for Portland who was married here only a few months since, he having left a wife, it is said in San Francisco, who is now in search of her faithless husband. It will come to this soon, that every stranger arriving will have to be interrogated as to how many wives he left behind.

IN TROUBLE AGAIN.—Captain Doane of the ship Granger and Capt. Frazier, of the whale bark Illinois, have both been arrested in S. F. on charges of ill-treatment of crews. Capt. Frazier was arrested on the cars, having started for New Bedford, and was brought back to San Francisco in charge of the Sheriff. This is only a repetition of what whaleship masters too often find on entering that port, and the wonder is that they continue to go there.

ONCE MORE, ALMOST A FIRE.—The narrow escapes of Honolulu from the devouring element have been numerous. Friday morning, the 10th, there was almost a fire. On opening the office of the American Consul, in the second story of Makee's Block, it was found that the bottom of a wooden spittoon filled with sawdust and the floor beneath it, had been burned through, and the fire was at work on the floor timbers. It is supposed to have proceeded from a lighted cigar thoughtlessly dropped by some visitor at the office, which had communicated to the sawdust and thus slowly burned all night.—*P. C. A.*

ABSCONDED.—On Monday morning, it transpired that W. M. Wallace, alias W. M. Waterbury, proprietor of the Chelsea Laundry, left secretly in the Steamer Vasco de Gama, for San Francisco, not having a passport. He had resided here for some five years under the assumed name of Wallace, having formerly lived in Baltimore, where he now has a wife, who is reported to be a most estimable woman. It is also stated that he has a second wife in San Francisco, and has still a third in this city. He is largely in debt to various parties in this city, the total footing up over $10,000. He was noted as a very stirring man, and managed to become a member of almost every benevolent institution in the place. Only last Saturday the Good Templars authorized him, in connection with two others of the fraternity, to solicit funds in California for the proposed new hall, and it is feared that he may use the authority to attempt to defraud the order in that State, though notice was sent by the Almy, revoking the authority previously given to him. The creditors of Mr. Wallace of whom there are about thirty, met yesterday at the store of S. G. Wilder, Esq. to take action in his case. After a statement of the liabilities, so far as known, the creditors decided to leave the management of the laundry in the hands of Mr. Wilder, who, next to the bank, is the largest creditor. Altogether he is supposed to have taken away eight hundred dollars, including about $200 belonging to the Good Templars.

—Since the above was in type we learn that proceedings in bankruptcy against W. M. Wallace as an absconding debtor have been instituted in behalf of the unsecured creditors before Mr. Justice Judd, and the Marshal has been ordered to take possession of his effects. It is understood that the main question will be on the validity of a chattel mortgage to cover property not actually held or owned by the mortgager at the date of the mortgage. A. S. Hartwell appeared for the unsecured creditors, and Judge Jones for the mortgagee.

Emigration is diminishing from Scotland, as well as from England and Ireland. In the seven months ending the 31st ultimo the number of emigrants who set sail from the ports on the Clyde was 12,250, as against 17,500 in the same period of 1874. The falling off in the Canadian and United States traffic, the sailings to New Zealand and Australia being very similar to those of last year.

Dr. Louis A. Boswell claims to have invented a practicable flying machine, which he describes as a fish that swims in the air, equipped with the power to guide himself through the medium in which he floats, just as the natural fish, by the use of his fins and tail and the gyrations of his body, drives and guides himself through the medium in which he floats.

Latest Foreign News.

By the schooner Bonanza, we have six days later advices from San Francisco, with dailies to Nov. 16.

Political affairs in Europe, in connection with Turkey and Egypt, are becoming more complicated, and some papers predict an open rupture.

Later and more interesting news has been secured from Stanley in Central Africa.

The movements of Russia in Asia are attracting much attention. She has won a great battle in Khokand, where 30,000 native troops were scattered like chaff before a small body of soldiers. The revolt was quickly crushed by the occupation of the rebel capital. General Kauffman found the army of the Khan in a strongly entrenched position, but badly armed and undisciplined. The camp was taken by storm: 39 guns were captured, and the routed host was chased for miles. The work of conquest goes steadily forward, and the work of exploration also. Russia is building a colossal empire, and will soon touch the confines of the older Powers. The *Times* says:—Russia on seizing the whole Khokand, will soon find herself tempted to push her conquest further east. Beyond Khokand lies Kashgar, and south of Kashgar are the advanced posts of the British Power. If that state were once garrisoned by Russians, the Czar would be lord of the whole of Asia as far as east as China, and as far south as India, Afghanistan, and Persia, but Rakool Khan, who rules Kashgar, is the most formidable enemy General Kauffmann has yet had to encounter."

A fierce competition has sprung up between the two rival telegraph companies between England and America. The charges have been lowered and lowered, until both companies are working at a uniform rate of 1s per word, both day and night.

There has been a good deal of fighting at Perak. The English troops captured some stokades, repulsed the Malays, took six cannon, and burnt villages along the line of march.

Two expeditions from London to New Guinea are now being projected. One of them contemplated the establishment of settlements on the eastern coast of the island, and according to the City Press many persons have expressed a desire to take part in the enterprise.

The Straits Times (Singapore) has the following complimentary observations concerning Sir Arthur Kennedy, Governor of Hongkong:—"Hongkong is just now blessed with an old woman of a Governor who is possessed of two ideas which make his absence on leave no loss to the colony, and his promotion or removal very desirable. One is that the 'Heathen Chinee' is impeccable; and the other is, that merchants and traders are sons of perdition, capable of any iniquity, and therefore to be repressed in every possible way. There is not a doubt that the blockade of Hongkong by the Canton Farmer of Customs is mainly due to his want of pluck. Like other benevolent, kind-hearted, and well-meaning nincompoops of the Exeter Hall Type, he is capable of any iniquity in the cause of ignorant maudlin sentimentalism."

Thirty-one thousand pounds sterling were shipped from London for America on the 21st inst.

Moody and Sankey opened the Brooklyn rink with an audience of ten thousand.

Mr. and Mrs. Murray, recently married, were burned to death in New Haven.

Prince Frederick, a Berlin dispatch says, will be escorted to the Centennial by a German squadron.

A Washington special to the Herald says in connection with rumor that Grant intends to adopt a vigorous policy with reference to granting belligerent rights to Cubans, that the quite formidable concentration of so many men-of-war of the North Atlantic station is exciting keen comment, and it is believed that an important movement in Cuban affairs will take place at an early day after the assembling of Congress.

FRESH FRUIT.—The capitals of Europe are to be congratulated upon the successful transportation of American fruit to the English ports by the refrigerating box plan. If London and Paris can get New Jersey peaches and autumn melons, they will enjoy a greater treat than Southern Europe and Algiers have ever furnished them. The American fruit will command immediate recognition for its superiority, and its successful transportation will open up a new and important trade, which will yield handsome profits.

By the Vasco de Gama, we have files of colonial papers to Nov. 20, one month later than previous dates:

The New South Wales Parliament was opened by his Excellency the Governor on the 16th November. The Government took advantage of this opportunity to refer to the administrative reforms which have been brought about during the recess, and they stated their intention to reimpose stamp duties upon amended system, and to revise the tariff and Customs laws. They also propose to deal with the question of public education, and to provide for the better representation of the people in the Legislative Assembly.

Victoria.

An extraordinary scene occurred in a church at Collingwood on Sunday night, October 31. When the minister was reading a statement from the pulpit was frequently interrupted by some of the trustees and told he was telling lies.

Mr. Richard Morton's splendid head of shorthorns, from which so many stocks in several of the colonies have been improved, has now changed hands, but, fortunately for the colonies, has not been dispersed. There were 37 head, and the whole have been bought, with 10 young calves at foot, by Messrs. Robertson, of Colac, for £27,000. The imported Bates bull Oxford Cherry Duke was amongst them, and the price put upon him was £2500.

Madame Ristori closed her series of performances at the Town Hall, on Saturday evening; before a splendid house. The testimonial, in the shape of a beautiful coronet, which had been subscribed for by some of her admirers, was presented on the occasion by Mr. Gatehouse, the late Mayor. Madame's reply was brief, but of course expressive, and there can be no doubt that she appreciates the attentions which have been shown her during her visit.
