Horton's Celebrated Gold Pens.—Improvements made in the machinery for manufacturing Gold Pens, and secured to the subscriber by letters Patent, have enabled him to overcome the many imperfections hitherto unavoidable in their production, and also to bring the cost within the reach of all. The writing public should know the following facts: Constant writing for six months is done cheaper with Gold Pens than with steel, therefore it is economy to use Gold Pens. The Gold Pen remains unchanged by years of continued use, while the Steel Pen is ever changing by corrosion and wear; therefore perfect uniformity of writing is obtained only by the use of the Gold Pen. The Gold Pen is always ready and reliable, while the Steel Pen must be often condemned and a new one selected; therefore, in the use of the Gold Pen there is great saving of time. Gold is capable of receiving any degree of elasticity, so that the Gold Pen is exactly adapted to the hand of the writer; therefore, the nerves of the hand and arm are not injured, as is known to be the case by the use of Steel Pens. He is now selling Gold Pens at prices varying from 25 cents to $1, according to size, the average wear of every one of which will far outlast a gross of the best Steel Pens. Sold by all dealers in the line throughout the country. Wholesale and retail at the store, No. 25 Maiden-lane, where all orders, inclosing cash or post stamps, will receive prompt attention; and a Pen or Pens corresponding in value, and selected according to description, will immediately be sent by mail or otherwise, as directed.
