COMMERCIAL.

HONOLULU, MARCH 14, 1877.

Commencing with Sunday, the arrivals, both coastwise and foreign, have been frequent. From San Francisco, we have the mail steamer, en route for Australia, ship Mary Whitridge, barks D. C. Murray and Helen W. Almy, and brig W. H. Meyer, all from San Francisco, with assorted cargoes, and the schooner C. E. Ward, in ballast, from the guano islands. The bark Legal Tender, which sailed from San Francisco before the steamer, is still due.

The mail steamer is detained in port by an accident to her machinery, and, it having been ascertained that it cannot be repaired here inside of three weeks or a month, she will leave about noon to-day for Auckland and Sydney.

The departures since our last issue have been the bark Mary Bolte Roberts, barkentine J. A. Falkinberg and Emma Augusta and ship Jamestown.

By the mails at hand, we have advices from San Francisco to the 3d of March, on which day the mail steamer left.

From our exchanges we gather the following report of the San Francisco market:

SUGAR—Hawaiian is in active demand. The price of all white refined is 10¼@10½c; Hawaiian 7 5-16@8c, according to quality; refined yellow, 9¼@9¾c.

COFFEE—On Tuesday, Feb. 13, an invoice of about 1,000 bags Kapahulu "Java" was sold at auction to N. L. Jones & Co., at 19¾@19¾c, which was a decided decline over previous like offerings. The market for prime green coffee is nominally firm yet unsettled, within the range of 19@20c.

RICE—Imports of China have been heavy for some time past, with a positived demand, at prices ruling from 3 to 3c. Japan and Hawaiian lots continue in fair request, within the same range of price.

HAY AND BARLEY—Stocks are large and the demand light. Sales of 22,000 wheat sacks are reported at $75@80c.

HAY AND BRAN—We quote the former at $100@115 per ton; the latter at $75.

POTATOES AND ONIONS—The market is flooded with the former at 2½c @ ℔; the latter at 3½@3½c ℔ for choice. New crop potatoes are now arriving quite freely.

GRAPES AND APPLES—The market is fully supplied with both. Los Angeles grapes sell at $10@12 ℔ ton, according to size. Apples $1 25@1 50 ℔ per box for good to choice.

PORT OF HONOLULU.

ARRIVED

Mar 8—Schr Manuokawai, Kihe, from Nawiliwili
H B M Pantomo, long, from Hawaii.
Schr Lihue, Kaluaa, from Waikiki.
11—Am sh Mary Whitridge, ———, 22 days fm San Francisco, en route for Hongkong.
12—Am bark D C Murray, Fuller, 9 days fm S Francisco.
Am schr C M Ward, Ross, — days fm Guano Islands.

FROM SAN FRANCISCO—Per schr W H Meyer, March 13th—Capt Nye, Lieut Boutwell, Mr Banks, Mr Beale.

FROM HILO, Per Pamela, March 14th—W C Parke, J D Brewer, G W Wilding, Allong.

BIRTH.

In this city, March 9th, to the wife of Mr Wm R Foley, a son.

The question whether the government shall get anything from the profits of the centennial exhibition, instead of their all going to the private stockholders, is to be mooted up to the full bench of the Supreme Court.

WE regret to announce the death of His Highness CHARLES KANAINA, who died at his residence in this city yesterday afternoon. He was seventy-six years of age, and at the time of his death, the oldest of the Hawaiian Chiefs. He married Queen Kekauluohi, forty-five or fifty years ago, and their son the late King Lunalilo was considered, after the Kamehamehas, the highest living chief. His love for and devotion to the memory of Lunalilo was very great and was shown in various ways. He was a Noble, Privy Councillor, and Knight of the Grand Cross in the Order of Kamehameha and Kalakaua, and greatly respected among all classes. He leaves a large estate, part of which will doubtless go (under Lunalilo's will) to found a hospital. His remains will be deposited in the tomb erected in Kawaiahao Cemetery, where his son's remains now lie.

NOTES OF THE WEEK.

☞ The Young Men's Christian Association will meet at the Lyceum on Friday evening next, March 16th.

☞ Barkentine Discovery will bring the next mail from San Francisco. She leaves that port on the 15th instant, and will be due here about the 30th.

☞ It is reported that the Russian fleet of war ships will remain at Mare Island Navy Yard, California, till May.

FOR KAUAI.—The Russian war-ship Japonetz will leave on Saturday for the Island of Kauai, taking the Russian Consul J. C. Glade, Esq., and Mrs. Glade. She will be absent about a week.

PIPING.—The bark Helen W. Almy brings the material for the wrought-iron pipes to be used in connection with the new Haiku water-ditch. It forms quite a proportion of her cargo.

IMPORTATION OF COIN.—By the various vessels arriving since Sunday, there have been importations of specie to the amount of over $105,000. Of this sum $40,000 is in silver, and the balance, about $65,000, is in gold.

SCHOONER BONANZA.—We learn that this fine yacht will not go North again, as expected by Mr. Black when he left here, on account of objections made by the insurance agents. She is advertised in San Francisco either for sale or charter.

RELIEVED.—By the steamer on Monday, Captain Macquay, of the Royal Navy, arrived to take command of H. B. M. S. Fantome, in place of Captain Long, who has been promoted, and returns home at an early date.

PASSENGERS FOR HONOLULU.—Among the late large influx of passengers to Honolulu, we note the names of a number of old residents, whom we are glad to welcome home. Some sixty passengers have arrived since Sunday.

H. B. M. S. SHAH.—This new and powerful flagship of the British Navy, which has been expected here, was obliged to put back to England after having proceeded as far as Gibraltar, on account of an accident by which her piston-rods were bent. It was expected that she would relieve the Repulse.

ALFALFA.—President Pratt, of Oahu College, has exhibited to us a bunch of this plant which has become so popular in California as food for stock. It is taken from a small field which is growing at Punahou, in a state of much vigor and thrift, apparently indicating that it is destined to be a valuable addition to the products of the country, especially for such plantations as may find it necessary to grow a supply of summer fodder for their stock during the winter months.

FAMINE AND FEAST.—After an utter dearth of news from the great outside world for another entire month, we are blessed with the almost simultaneous arrival of the ship Mary Whitridge on Sunday the 11th instant, the barks D. C. Murray and Helen W. Almy and steamer City of Sydney on Monday the 12th, and the schooner W. H. Myer on Tuesday the 13th. Four of these fine vessels brought mails, and the reading public is temporarily supplied with reading matter.

☞ The illustrated edition of the GAZETTE, issued last week, and giving a front view of the Government building, has been received with much favor. The photograph is one of the finest yet taken of this fine edifice. A few copies of it remain on hand, and can be secured for mailing by the steamer bound South, and by the bark D. C. Murray bound to San Francisco. The latter vessel will leave probably by Monday next. The dates of the GAZETTE of Feb. 28th and March 7th both contain interesting and valuable information for circulation abroad.

SUDDEN DEATH.—A letter received at San Francisco from Mazatlan, Mexico, by Mr. R. S. Howland, states that Captain Thomas W. Royce, who commanded the bark Superior of Sag Harbor, and discovered the Arctic Whaling Grounds in 1848, died suddenly of apoplexy at that place in January. Captain Royce was also the inventor and patentee of the Rocket Gun and Harpoon for fastening to and killing whales. He spent much time and money in introducing his gun and apparatus, but it was expensive and rather complicated, and never came into practical use. He leaves a wife and three sons in New York.

W. H. HAYES—This freebooter, who was at Kawaihae some weeks since on the yacht Lotus, touched at one of the guano islands after leaving this group, and sent the following letter to Captain English, probably with the intention of getting some fire-wood for nothing, or, as seems more likely, of kidnapping the boys who might take it off. We give it verbatim et literatim:—"My Dear Capt. English. I should like two see you but I cannot land on account of the surf I am entirely out of fire would If you would let your boys swim me off a few pieces of wood My small vessell is the yacht Lotus I am from San Francisco via of Samoa I have 2 large vessells on the way down for the purpe of trading I have plenty of papers on Board but cannot get them to you dry Yours truly W. H. HAYES."

STEAMER CITY OF SYDNEY.—This fine vessel left San Francisco on the 3rd instant, in the evening, discharging the pilot a little after midnight, and after a somewhat stormy passage arrived at this port at ten o'clock on Monday evening. While in mid-ocean she was obliged to stop for ten hours on account of the heating of a journal. After her arrival in the harbor of Honolulu, one of the pistons was being raised to the top of the cylinder for the purpose of some repairs, when the fastening gave way, allowing it to fall heavily on the bottom of the cylinder, and resulting in a fracture of the piston. A survey was held yesterday by Mr. Young, the manager of the iron works, and the chief engineers of the Fantome and Japonets, when it was ascertained that the damage sustained was so serious that a new piston must be constructed before the engine can again be used. As this would occupy nearly a month, Captain Dearborn and the agents of the line determined to postpone the job till the steamer should arrive in Sydney, and she will proceed on her voyage to-day, depending on one engine.

Minister Elstes and the Turkish Delegate, Petef Effendi, have agreed on a basis of peace, viz., selecting the Turkish flag, conservation of Servian fortresses, and the prevention of armed bands crossing the frontier. The Servians declare it impossible to discuss the stipulation for granting privileges to Jews and Armenians equal to those enjoyed by other Servian subjects.

Earl Russel has given notice to the House of Lords that he will move that England shall cease all diplomatic intercourse with Turkey, on the ground that that nation is still barbarous and unworthy to rank among the enlightened people of Europe.

The Electoral Commission, by a strict party vote of eight to seven, has refused to inquire into the evidence of fraud connected with the Louisiana case. If such testimony could not be inquired into it is difficult to imagine any possible excuse for the existence of the Commission. Mr. Hayes will now undoubtedly be declared duly elected President of the United States.

At the close of 1875, the number of sheep in Australia was 57,847,719; of cattle there were 8,884,527; the horses had increased to a million, and three million acres and a half of acres were under cultivation.

ELECTION NEWS.

Hayes and Wheeler Declared Elected!

Arrival of Hayes in Washington.—Preparations for the Inauguration.

Closing Proceedings.—Result Declared.

Washington, March 2.—At 4 o'clock a. m. a message was received from the House announcing its action on the Wisconsin case. The Senate immediately left its Chamber for the House to complete the count.

As soon as the Senate entered at 4:03 a. m. and all the members were seated, the action of the respective Houses on the Wisconsin question was read, and at 5 the ten votes of Wisconsin were announced for Hayes and Wheeler. The presiding officer said: "This concludes the count of the thirty-eight States of the Union. The tellers will now ascertain and deliver the result of the votes to the presiding officer."

At 4:07 a. m. the votes being completed and the result determined, the joint meeting of the two Houses is dissolved. The Senate will now retire to its Chamber. House at 4:10 a. m. adjourned, and the flag which has never been down since it was hoisted over the halls of both Houses on the 1st of February last, as a signal of their being in session, was lowered. The Senate upon its return adjourned with three times three cheers for Hayes.

At 4:12 a. m. the election of Hayes and Wheeler was proclaimed and received without demonstration. The Senate retired, and the House at 4:15 adjourned.

Senator Allison, of the tellers, having delivered the statement, the presiding officer expressed the hope that, on the announcement, nothing would mar the dignity of the proceedings so reputable to the American people, and so worthy of the respect of the world. He then said: "The whole number of electors appointed to vote for President and Vice President of the United States was 369, of which a majority is 185. The vote for President as delivered by tellers, and as determined under the Act of Congress of January 29th on this subject, is: For Rutherford B. Hayes, 185 votes; for Samuel J. Tilden, 184. The votes for Vice President of the United States, as delivered by the tellers, as determined under the same Act of Congress, is: For William A. Wheeler, 185 votes; for Thomas A. Hendricks, 184 votes; wherefore I do announce that Rutherford B. Hayes, of the State of Ohio, having received a majority of the whole number of electoral votes, is duly elected President of the United States for four years commencing the 4th day of March, 1877; that William A. Wheeler, of the State of New York, having received a majority of the whole number of electoral votes, is duly elected Vice President of the United States for four years commencing on the 4th day of March, 1877. The announcement, together with a list of votes will be entered on the Journals of both Houses."

The vote of Wisconsin was counted in the joint session and the President of the Senate then, at 4:10 a. m., in the presence of both Houses, declared that Hayes and Wheeler have each received 185 electoral votes and are elected President and Vice President of the United States for four years from the 4th of March.

Washington, March 2d.—a. m.—The bitter intensity of feeling, skillfully parliamentary manoeuvering and the exciting scenes of turbulent disorder which have marked the proceedings that commenced sixteen hours ago, and are only now drawing to a close, have had no parallel in Congress since the days before the war. The hopes of the Filibusters were strengthened by early success, and rose almost to a point of confidence by the Speaker's ruling, that all motions ordinarily pertinent to the main question would be in order; and when, after Field's adroit speech a number of moderate Democrats began to vote in favor of Knott's proposition, with its open menace to the Senate, the apprehensions of the Republicans were intensified into despondency and panic. The majority against Knott and Hopkin's resolutions, although comparatively small, gave renewed hope to the friends of an orderly completion of the count, and it soon became evident to well informed parliamentarians, that Randal was merely letting the refractory horses run awhile in order to better rein them in after exhausting their really constitutional strength and privileges. Then came the wearisome hour of waiting for a round of parliamentary motions and the roll calls to be completed; and during this time cool-headed observers, on exchanging opinions, agreed that the Speaker's course was wise and judicious, and the temper of the factious minority, inflamed by the turbulent scenes which had preceded his compromise ruling, would otherwise have probably led them to even greater extremities, which a result of still greater loss of time, and probably riot or bloodshed.

Chicago, March 2d.—The Post says of yesterday's proceedings in Congress: The thanks of the country are due to all who aided the glorious consummation, without regard to race, color or previous condition, whether political or otherwise. Wood deserves praise; Randall has rendered indispensable service at the final crisis; full credit should be given to the conservative Southern men whose attitude from the start confounded the counsels of the Democrats. It is a fortunate circumstance that the forces which have resulted in the election of President Hayes came from so many different quarters that he is under a plain obligation to be even-handed between all parties. He is providentially delivered from the slightest obligations to one class only—the machine politicians who fought against him at Cincinnati. He has help from the North and the South, from the Northern Democrats and Southern Democrats, from native and carpet bagger, but the help came so as to leave him free to do right, while fully justifying him in being impartial.

Washington, March 2d.—President elect Hayes and party arrived here at 9 o'clock this morning. The President elect was received by Ex-Governor Dennison, Senator Sherman and General Sherman, who escorted him from the depot. There were present as spectators about two thousand persons, who vociferously cheered as the party passed through the lines on their way to the carriages in waiting. President Hayes and family were driven to the residence of Senator Sherman, where they will remain for the present.

As soon as the President-elect and party arrived at Senator's residence, a large number of ladies and gentlemen were there to receive them and extend congratulations.

Arrangements are being perfected for celebrating Inauguration Day. General Whipple, U. S. A., will be Chief Marshal of the inaugural procession. All the United States troops and marines in the city and the Light Battery from Baltimore have been ordered to report for parade.

Columbus, March 2d.—Governor Hayes left his resignation in the Governor's Office here to be filed on future notice. A telegram was received to file it. It is as follows,

EXECUTIVE DEPARTMENT, STATE OF OHIO,
COLUMBUS, February 28, 1877.

I hereby resign the office of Governor of the State of Ohio, my resignation to take effect on the 2d day of March next. R. B. HAYES.

Upon receipt of the telegram, Lieutenant-Governor Thomas L. Young was notified of Governor Hayes' resignation. He at once proceeded to the Executive Department, where the oath of office as Governor was administered to him by Chief Justice Welch in the presence of the State officers and many citizens of the city. Governor Young left for Washington at noon.

Condensed Telegrams.

The Harding paper mills at Franklin, Ohio, were burned on Thursday night. Loss, $300,000; insurance $100,000. The mills were the finest of the kind in the country.

The President has issued a proclamation convening the Senate in extra session on the 5th instant at noon.

The Herald's Washington special says: Sherman accepts the Treasurship.

It seems likely that Packard will not surrender the State House without a struggle.

There is much curiosity as to Hayes' Southern policy.

In the House on Thursday the display of passion was unparalleled, and the disorderly rowdies rose, gesticulating and yelled twenty at a time.

Randall's management of the House on Thursday receives much praise.

Silver closed at 56¾d. in London March 2.

Amount of bullion withdrawn from the Bank of England on balance March 2, £100,000.

It is believed that Prince Peter, Grand Duke of Oldenburg, has, by special commission of the Czar, intimated to the Emperors of Germany and Austria the Czar's desire to meet them again.

Joel T. Hart, an American sculptor, died in Florence yesterday.

The Master of the Rolls has decided favorably on the application for mandamus to compel the Directors of the Direct United States Cable line to count the votes for the appointment of a committee of shareholders to confer with the Directors on the subject of amalgamation, which was disallowed by the chairman of the meeting of shareholders held some time ago.

In the Senate confirmed the nomination of J. Weeks, of Newark, to be Receiver of Public Moneys.

The Tglesias party has arrived in New York.

Peace with Servia has been finally signed.

The Vienna correspondent of the London Standard understands that the Porte intends to invite England to consent to the immediate return of her Ambassador to Constantinople, and thus set an example to the other Powers in this respect.

The Times' Berlin special says: It is understood that Prussia is endeavoring to obtain concessions in Constantinople in return for pecuniary assistance.

Peace has been signed between Turkey and Servia.

The elections for members of the Ottoman Parliament were held yesterday.

It is reported from Constantinople that the Russian Charge d'Affaires is very active. As Russian influence is paramount at the Palace, it is thought by no means improbable that Russia might, with the expenditure of a comparatively small fraction of what a war would cost, be able to obtain all she wants, in the most pacific way, or produce such confusion as would justify almost any step on her part.

Sir Jung Bahadoor of India is dead.

GLORIOUS NEWS!

Through the Enterprising Efforts of the Proprietors of the

HAMBURG-MAGDEBURG

FIRE INSURANCE COMPANY

OF HAMBURG.

THIS COMPANY WILL UNDERTAKE fire insurance against any losses caused by fire, on buildings, merchandise, furniture, and any kind of goods and property, movable or not.

Capital fully paid up - - 2,500,000 Mark

The extensive security thus afforded to the parties insured is considerably increased by the close connections of this Company with the Magdeburg Insurance Company under whose auspices it was established, and which latter is again intimately connected with the Magdeburg Re-Insurance Company and the Magdeburg General-Insurance Company.

The balance sheet of the year 1875 show the following financial position of the respective companies:

MAGDEBURG FIRE INS. CO.

Capital	M	15,000,000 —
Capital and Premium Reserve Fund	M	9,312,110 99
Revenue of Premiums and Interest	M	20,548,802 80

MAGDEBURG RE-INS. CO.

Capital fully paid up	M	1,500,000 —
Capital Reserve Fund (Savings and Premium Reserve Fund included)	M	1,095,296 92
Revenue of Premiums and Interest	M	2,411,244 45

MAGDEBURG GENERAL INS. CO.

Capital fully paid up	M	3,000,000 —
Capital Reserve Fund (Savings and Premium Reserve Fund included)	M	1,238,657 62
Revenue of Premiums and Interest	M	3,061,872 03

The whole guarantee thus given by the above four establishments amounts to the enormous sum of more than

60,000,000 Mark.

These ample means enable the Hamburg Magdeburg Fire Insurance Company to take considerable sums on any particular risk, thereby offering a material facility to the insurers.

MR. A. JAECER,

Of the firm of B. F. Elsters & Co., Honolulu, has this day been appointed agent for the Hawaiian Islands.

Honolulu, February 26th, 1877.
