COMMERCIAL.

HONOLULU, JANUARY 23, 1878.

In commercial circles we have but little to record since our last issue. There is evidently a more active spirit manifested among merchants and business men generally. The result in part of the closing up of the business of the past year.

The firm of T. Mossman and Son, of this city, which we announced last week as having failed, we are happy to say have effected such an arrangement with their creditors as to enable them to resume active business again. We understand that the creditors of the above firm have agreed to compromise on the basis of 75 cents on the dollar.

The arrivals from abroad since our last list have been as follows: H. M. S. Daring from Tahiti; bark Bartlebshire, from Liverpool with an assorted cargo of general merchandise, consigned to Messrs Green, Macfarlane & Co., and Star Australia from Sydney and Auckland, with freight and passengers to Messrs H. Hackfeld & Co. The departures have been the brig W. H. Meyer, for San Francisco with a full cargo of island produce; Brit bark Madura for the Guano Islands; the Star Australia, for San Francisco, with freight and passengers.

MEMORANDA.

Report of the Am bark W A Hotcomb, Dunton, master—Left Honolulu Sept 29. Sighted Baker's Island 40 days out, having heavy westerly gales on the passage which drove the vessel to the eastward; stood to the S and encountered northerly winds and calms; easterly current, and drifted to long. 175 E before being able to make any northing, and so for 21 days after first sighting the land, when again made it. Lay off and on for 3 days landing stores; was unable to lay the moorings on account of rough weather, and sailed for Honolulu. Had strong NE trades, arriving after a passage of 4 days. A native seaman named Kaoohaiha died on board the bark 22 days out from Honolulu.

Report of the H. M. S Australia, Cargill, commander.—Cleared Sydney Heads at 3.30 p m, on January 3rd, with a strong breeze and heavy sea. Experienced a strong gale with high head sea at midnight which continued till the morning of the 6th. In the afternoon of the same day the gale increased with a tremendous sea which prevailed till the 9th. At 5.30 p m of the 7th sighted Three Kings Islands, and at 10.30 North Cape. Took pilot at 7 p m on the 8th; time from Sydney 4 days and 18½ hours. Left again same day at 7.30 p m, and discharged pilot at 8.30. A light breeze with dull hazy weather prevailed up to the 10th inst. At 10.45 a m this date sighted Cavalle Island, and at 12.15 a m sighted Macauley Island; experienced light head winds and clear weather up to the morning of the 12th, when at 6 a m sighted the Island of Tutuila (Samoan Group); at 9.15 stopped the engines at the east end of the Island to communicate with natives from the shore; was boarded by the Government Secretary and party, who gave information that the war between the Government and the Chief Mauga was finally at an end. 400 native were taken prisoners, including the Chief Mauga. Cleared the Islands at 10 a m, crossed the Equator on the 20th at 4 p m; experienced rainy weather with northerly swell up to the 18th, when a strong head wind and high swell set in; sighted Oahu at 4.30 p m on 21st, and made fast to wharf at 10.45 p m. Time from Auckland 13 days 23 hours.

DIED.

LYMAN—At La Grange, Ill., December 4th, of croup, Franklin Gamble, second son of David B and Mary E Lyman, aged 4 years and 9 months.

PEARSE—On the 19th of January, at Honolulu, Dr. H. Pearse, aged 28, late of Coromandel, New Zealand, and formerly of Akaroa, Banks's Peninsula, New Zealand. He was buried by the Fraternity of the Free Masons with the usual honors.

CRAIG.—In this city, on the 20th instant, at the Queen's Hospital, John Craig, a native of New London, Conn., and for many years a resident of these islands.

LEPROSY.—A friend in Japan sends us the following item, taken from the Japan Gazette. We give it for what it is worth. In Yoko, a doctor named Goto Shoboku, of Aichi Ken, has opened a Leper Hospital in Naruko-machi. He is said to have discovered a specific method of treating this hateful disease, and that Dr. Baudnin was so satisfied of its value that he introduced it into Holland. The hospital expenses are very small, and most of those who enter, leave in a few months perfectly cured. The patients are very numerous.

BISHOP'S COLLEGE SCHOOL.—The examination and other exercises which took place at the above institution on Tuesday evening the 17th inst., were very interesting, consisting of the distribution of of prizes to the scholars, the result of the year's work and the annual examination; embracing the Book of Exodus and Gospel of St. Matthew, English History from Elizabeth to Victoria, Geography, Arithmetic, Euclid, Grammar, Music, &c. The prizes were distributed to the different classes according to merit. Want of space prevents us from giving a more extended account of the interesting and highly creditable exercises.

We publish the following article of our correspondent "Wailuku," because it is accompanied with the name of a responsible gentleman, a resident of the district. We have made inquiry at the proper quarter, and learn that everything has been done by the proper authorities to remedy any existing evil in the locality referred to, and that if there is good cause of complaint the proper remedy will be promptly applied.—ED.

Wailuku, Jan. 11, 1877.

To the Editor of the Hawaiian Gazette:

SIR:—We, the people of Maui Waena, are feeling very uneasy as we find ourselves living among a company of lepers, and we wish to know what is to be done about it. We have petitioned the "Powers that be," but yet no satisfaction. A public officer with whom we have almost daily business is a reputed leper. We have better men than he for the place. There are, it is said, a number of very bad cases in our immediate vicinity. Does the Government intend to keep the lepers isolated or not? Are we to become a nation of lepers? If so, farewell to foreign intercourse. We cannot expect men of sense to expose themselves to the hazard of a visit to our shores if this is long to continue. We have long been silent; it is time to speak.

WAILUKU.

NOTES OF THE WEEK.

REMOVAL.—Dr. Tisdale will remove his office, about the 1st of February to Rolfes' premises, Beretania street, adjoining Fort Street Church.

☞ A special meeting of Engine Company No. 1, will be held at their room, King street, on Thursday evening, at half past 7 o'clock. A full attendance is desired.

☞ The steamer Likelike left last evening for the circuit of Hawaii, taking an unusually large number of passengers—some 75 cabin and 200 deck—and a good freight list.

☞ Our thanks are due to the Purser of the steamer Australia, for files of late Sydney and Auckland papers. Also, to E. T. O'Halloran, Esq. for late Melbourne papers.

☞ There will be a meeting of Engine Company No. 2, at their rooms, Union street, this Wednesday evening at half past 7 o'clock. A general attendance is requested.

ACCIDENT.—Yesterday, a horse attached to a dray started off on a run, and the driver in attempting to stop the animal was run over by the dray, sustaining serious internal injuries. The man was taken to the Queen's Hospital.

☞ We are pleased to learn that Mr. Charles Derby has effected a short engagement with the eminent actor Mr. Charles Pope, who will soon appear in a series of entertainments, of which due notice will be given.

☞ The sale of furniture, advertised to take place on Tuesday the 22nd, was unavoidably postponed, until this morning at 10 o'clock, owing to the unexpected arrival of the mail steamer from the South. Go and secure your bargains.

BREVITIES.—The late Jeremy Bentham, the philosopher and wit of England, had but a poor opinion of the sincerity of the late Lord Brougham, as the following couplet which was found among Bentham's papers after his death, fully proves:

"Frailty! thy name is woman,
Insincerity! thy name is Brougham!"

NEW LAW FIRM.—We call attention to the new law firm of Messrs. Castle & Hatch, whose office is on Merchant street, third door south of Fort. They will practice in all the Courts of this kingdom. We bespeak for the new firm the favor and patronage of the public, because they are worthy of confidence and success.

ROBBERY AT THE HAWAIIAN HOTEL.—A clerk by the name of William S. Dryer, who had been employed at the Hawaiian Hotel, for the past two months, and who had the full run of everything in the office including the safe, books, etc., suddenly took his departure for the Coast on board the W. H. Meyer, which left about 4 o'clock P. M., on the 16th inst. We have put ourselves to considerable pains to obtain correct information about the above robbery, but we find the statements so vague and unsatisfactory that we cannot trust them. We prefer awaiting the investigation now in progress, before making a detailed statement to our readers.

TEMPERANCE.—The lecture delivered at the Fort Street Church on Monday evening last, by the Rev. George Morris, was one of rare excellence, and was well received by a large and enlightened audience. The reverend gentleman handles his subject with consummate power, eloquence and skill, which produces a profound impression on his hearers. His is on a glorious mission; that of reclaiming the poor drunkards, and warning the youth of the age to shun a vice, which when indulged in brings want, misery, woe and premature death in its train. We could not stay long enough to learn what took place after the lecture. Mr. Morris has been laboring in the other Islands with marked success, and is doing much good among our people. He has our most ardent wishes for his success in the good cause in which he is engaged, and which he appears so well calculated to advance.

ARRIVAL OF A WAR VESSEL.—The British War Vessel Daring, arrived in our harbor on Friday last The following is a list of her officers:

First Lieutenants—Claude H. Millet,
Second " Augustus M. B. Hamilton,
Navigating Lieutenant—James R. Veitch,
Staff Surgeon—William R. Redmond,
Paymaster—Cecil P. Walker,
Sub-Lieutenant—George V. Hegan,
Assistant Paymaster—Alfred N. C. King,
Engineers—Thos. M. Thompson, Henry Macavoy
Gunner—John T. Newland,
Carpenter—Charles Young,
Assistant Clerk—Edwin C. Petch.

There are at present in port three war vessels viz: the Pensacola, Flagship of Rear Admiral Murray, of the U. S., the Elizabeth, of His Majesty the Emperor of Germany, and the Daring of Her Britannic Majesty the Queen of Great Britain, etc. The Daring was received with the usual courtesies, and is a fine ship of her class. The presence of the above ships of war will infuse new life into our little community. We bid them all welcome.

EMMA SQUARE CONCERT.—The Moonlight Double Concert, given at Emma Square on Thursday evening last, by the band of the U. S. Flagship Pensacola, and the Royal Hawaiian Band, like the one on the Saturday evening previous, was attended by thousands, and afforded unalloyed satisfaction and delight to all. We have already spoken in terms of high praise of both bands, and do not desire to repeat ourselves on this subject. We hope however, that during the stay of the Flagship Pensacola, our citizens may have the pleasure of listening to many more concerts, of a like character. And in this connection, we desire to say on behalf of the citizens of Honolulu, that they fully appreciate the courtesy of Rear Admiral Murray of the Pensacola, for these delightful interchanges of sentiment, assuring the Admiral, and the members of the Pensacola's band, that the visit of the latter ship to these Islands will be a circumstance, long to be remembered by our people with the most grateful recollections; for they can adopt the language of the poet as they are a music loving people, when he says:

"How music charms!
How music warms!
Parent actions good and brave
How vice it tames!
And wards infamies!
And tools proud empire o'er the grave.

ON BOARD THE FLAGSHIP.—A splendid entertainment was given on board the U. S. S. Pensacola, Flagship of Rear Admiral Murray now lying in the harbor, on last evening. The invitations were sent round on Monday morning which gave ample time for the invited guests to make full preparation for the event. The entertainment was gotten up in the best style, with everything in abundance that could be desired, to produce comfort, ease and delight. Indeed there was not anything lacking, that could in any manner contribute to the comfort of the guests. The exercises included dancing, which was indulged in by the young folks to their utmost bent. Rear Admiral Murray is entitled to the gratitude of our citizens for this delightful treat. We understand it is the intention of Rear Admiral Murray to give two entertainments each month on board the Flagship, during her stay in this port. The ship is a model of neatness. The Admiral and his excellent lady, the soul of jolity and mirth, and the officers the most genial set of men that can be scared up anywhere. The men are happy and well cared for and all goes "merry as a marriage bell" on board the Pensacola. While we looked on the scene of mirth and good cheer that pervaded the assemblage on board the Flagship last night, and noted the delight depicted in every eye, from the jolly Rear Admiral down to the humblest man on board, we could not help saying who would not wish to be identified with such a ship and crew, under the care and command of such a man as Admiral Murray?

THE SYDNEY AND SAN FRANCISCO STEAMERS.—The following from the Sydney Herald, relating to the steam services between Sydney and San Francisco, will be interesting to our readers:

"For some time past it has been in contemplation to make such alterations in the times of arrival and departure of the mail steamers as would secure to the colony the advantage of a fortnightly service; but the unsettled conditions upon which the Pacific Mail Company had to carry on their contract have precluded definite action. The departure from the original forked service has not even yet been ratified by Parliament, although successive Governments have proposed resolutions in the Legislature for the purpose of sanctioning the modifications which have been made by the Governments of New South Wales and New Zealand, and which, although they have been acted upon with the consent of all parties for the past twelve months, are technically styled 'temporary.' Upon the assent of the sureties for the contractors to the modified service being obtained, the Postal Department here prepared a new time-table to secure the advantage of a fortnightly alternating service. That table was submitted to the New Zealand Government, but delays arising from changes of Ministers in that colony have prevented the receipt of an answer until within the last few days. On Saturday the Postmaster-General received a telegram from the Postmaster-General of New Zealand to the effect that that colony quite approved of the table submitted, and asked that it should be brought into force by the 1st of January. The Agent-General for New South Wales in London is to be requested by telegram to inform the sureties and the contractors in London and New York of the time-table which has been agreed upon, and it will be brought into operation simultaneously in London and Sydney, the date of the departure of the mail via San Francisco from each place being the 3rd of January.

Supreme Court.

The Supreme Court in Banco, was engaged on Saturday last hearing the arguments of Council in tax cases. There has been no decision as yet rendered, but we presume the opinion in these interesting cases will be delivered at an early day. There is hardly any subject that can come up for adjudication in the Courts, that will excite more interest than the delicate one of taxation, and therefore it is right that their honors the judges do take full time to deliberate. There has been in this community no little comment recently upon the opinions already pronounced upon the tax question. It is not our purpose at present to re-open the discusion on this delicate question, nor to say ought further than to admonish those whose interests are affected by the question, to exercise a due measure of Christian charity in their judgments of what is right or wrong in this matter. It should always be remembered that the judges of the Courts, are but ministerial officers, sworn to do their duty to the best of their learning and ability; that they do not make the laws, but merely construe them and pronounce their opinions as they find the law to be. If a law works a wrong to an individual or a community, the proper source to look for relief is the Legislature or law-making power of the Kingdom. A general tax law affects all citizens, the judge on the bench as well as the private citizen of whatever class, and therefore is peculiarly the subject for Legislative attention or amendment, if in the opinion or judgment of the law makers, such a course is expedient and proper. The opinion of the Court in Banco, which will soon be pronounced on the tax question, will doubtless be one which while it may not suit the views of all citizens alike, will nevertheless be the conscientious and careful conclusions of their honors, touching the relative rights of the Government and the citizens under the Constitution and laws as they find them.

A CARD.

HONOLULU, JANUARY 4, 1878.

MESSRS. MACNEAL & URBAN, Cincinnati, Ohio—

Gentlemen: The No. 10 Fire and Burglar Safe I purchased from you some time ago has proved itself worthy of the confidence I placed in it. It was in the great fire of the 13th of December, 1877. I opened it on the next morning by your admirable arrangement of inside bolt work on the combination, and was agreeably surprised to find all books and papers perfectly preserved. The interior of the safe is so perfect I believe it will stand another fire, and I will therefore continue to use it.

To the Electors of Honolulu.

THE TIME IS NOW FAST APPROACHING for the election of members to represent you in the forthcoming Legislature.

We have been induced to offer ourselves for election, trusting that from your knowledge of us, you will not deem us unworthy of the trust.

We cannot promise to accomplish great things but will, if elected, do our utmost to advance the welfare of the nation generally; and to see that the business of the country is carried on in an efficient and economical manner. But at the same time, we cannot but see that the voices and exertions of a few members can effect but little reform unless the electors generally will take a larger interest in public affairs than they have hitherto done, and so afford that moral and outside support to their Representatives, without which advocacy an opposition is powerless.

We will take an early opportunity of addressing you fully on the various subjects which will be likely to engage the attention of the Legislature, and in the meantime solicit your interest on our behalf.
