COMMERCIAL.

HONOLULU, JUNE 8, 1878.

We have to note another dull week in business circles. The accounts from the plantations, throughout the Kingdom, generally, with few exceptions, to be of a cheering description, and must necessarily exert a more healthy tone to the city trade.

The arrivals from Foreign Ports during the week have been—Am bark D C Murray, from San Francisco, with passengers and merchandise, to C Brewer & Co.; British bark Kalorama, from Jarvis Island; Am bark Mauna Loa, from Buenos Ayres, en route for the Green Islands; and P M steamer City of New York, from Sydney and Auckland, with passengers and merchandise to H Hackfeld & Co.

The departures during the same period were—H B M S Darling, for Esquimalt; Am missionary brig Morning Star, for Micronesia; and P M steamer City of New York, for San Francisco, with passengers and merchandise, dispatched by H Hackfeld & Co.

Our next departures for San Francisco will be the steamer Wilmington, on the 10th, to be followed by the Mystic Bell and D C Murray.

The barkentine Jas Parkins and Discovery may be looked for soon—the former with lumber from Port Townsend, and the latter with merchandise from San Francisco.

The growing crop of Maui, Waiohinu, Oahu, changed hands last week, the sum paid being $11,000.

	$ 1,662 21

Respectfully submitted,
JOHN H. PAYNE, Treasurer
Queen's Hospital.

June 7, 1878.

☞ The expenses of the select Committee of the Legislative Assembly to visit Kalawao Hospital, were as follows:

Charter of the steamer Kinau, Rm	$100 00
H. L. Chase, Photographer	20 00
Incidentals	3 90
	$124.90

The amount appropriated for the expenses of the Committee was not to exceed $700. So that the Committee kept within the limit prescribed by the Assembly.

NOTES OF THE WEEK.

☞ The annual public examinations of the Government Schools will commence this day.

☞ H. B. M. war ship Daring, left this port for Esquimault, British Columbia, on Sunday morning last.

☞ The annual public exercises of Kawaiahao Seminary will take place this day, from 10 to 12 o'clock.

☞ The Hawaiian Evangelical Association commenced their annual session yesterday at Kawaiahao Church.

☞ Purser Beardsley, of the steamer City of New York, has our thanks for files of late papers and memoranda.

☞ The shipping in the harbor displayed a plentiful quantity of bunting on Kamehameha day. This is as it should be. All honor to the noble dead.

☞ The Steamer Robbie was the regular packet yesterday between this city and Kapiolani Park, and proved a great convenience to the public generally.

SUICIDE OF A NATIVE.—One day last week, (date not furnished) a blind man (native) committed suicide by cutting his throat. He resided on the neighboring Island of Molokai.

☞ The farewell benefit by the Amateur Dramatic Association at the Royal Hawaiian Theater to Mr Charles Derby, was attended by an appreciative audience. The performance was highly creditable to the members of the association.

☞ The Steamer City of New York sailed last evening at 7 o'clock for San Francisco, taking quite a number of old residents from this place, among whom were, Mr. J. B. Atherton, Mr. C. M. Cooke and wife, Mr. H. Fisher and wife.

☞ The passengers en route for San Francisco, per steamer City of New York, speak in terms of the highest praise of this noble ship and her gentlemanly and obliging officers. Our limited space prevents the publication of their card in this issue.

☞ The 11th of June, yesterday, was a day without incident in the city, owing to the fact that nearly the entire population were attending Kapiolani Park races. After 10 o'clock a. m. all business was suspended and a general silence reigned in business circles.

☞ The present term of Oahu College closes next week. Classes will be examined on Monday, Tuesday and Wednesday. The closing exercises will be held in the Fort Street Church on Thursday evening, June 20th. It is hoped that all friends of the Institution will make an effort to be present as far as possible.

ACCIDENT AT KAUAI.—The first mate of the schooner Marion, Mr. Kruntaplat, was brought to this city on the 6th inst., having met with an accident by which his right leg was broken above the knee. The accident was caused by the parting of the gear, while hoisting out of the schooner some ponderous machinery.

MILLINERY.—At the corner of Merchant and Fort streets, has received per steamer Wilmington, from the East, a large invoice of new and elegant goods, suitable for all kinds of customers. In the line of men's furnishing goods his stock is first-class. He can furnish a superb suit of clothes of any conceivable size or pattern at reasonable rates. His clothing he makes a specialty and cannot be surpassed, for a good suit of clothes of the latest fashion, best material and easiest fit. In the fancy line such as jewelry and perfumery, etc., etc., buyers cannot go wrong by calling at McInerny's shop and well stocked store. Give him a call.

☞ The last and farewell performance of Professor Val Vose will be given at the Hawaiian Hotel, on Saturday evening next, at 8 o'clock. Everybody should go to see the wonderful performance of Val Vose, who is his line is unrivaled, and unrivalable. His extraordinary power over the human brain is at once a study and a surprise to all who hear him. His performance has also the merit of being chaste and elegant in conception and rendering and will not offend the most refined or fastidious taste. The performances of Val Vose have given satisfaction to those of our citizens who have had the pleasure of witnessing them. Departing from this city to Australia, where we bespeak for him a hearty greeting.

☞ We took a stroll around the wharf on Saturday morning last as usually busy, and found in port quite a number of foreign vessels and a goodly number of coasting craft, showing that the commerce of Honolulu is increasing rapidly. The many improvements, such as Government warehouses, new wharves, private warehouses, etc., etc., give ample evidence that business is flourishing in these Islands. On Nuuanu street, we notice that another new row of frame cottages are being erected, on the lot adjoining the residence of Queen Emma. The latter improvement is the work of Chinese, who pay a rental to native quite large, and who, after some years, come into possession of the premises, which compare with their surroundings, and add to the city from a sanitary point.

☞ The concert at Kaumakapili Church, on Saturday evening last, in aid of the Church fund, was crowded by a very large assemblage of people, native and foreign, and the performances were of a character, highly creditable, which were present. Chief Magistrate, his Kings and Queen, were in special boxes, in the concert-room, entered by their private apartments, accompanied by other members of the Royal family. The instrumental music by the Royal Hawaiian Band, and the vocal music by the concert-room choir, were excellent. One feature of the concert, was their extremely interesting, and the Hawaiian composition, sung by the choir, in the native language, which was encored. The proceeds, we understand, will be over $300, which will be a handsome sum, and which will be received by the pastor, with great satisfaction, for the benefit of his church.

Doings of the Legislature.

On Tuesday a petition was received from a Chinaman, setting forth that the Chinese laborers on the plantation at Olowalu, Maui, are ill treated, which was referred to the Board of Immigration for investigation. The Special Committee of Thirteen, appointed to visit Molokai, presented their report, which was ordered to be printed. The expenses of the Committee amount in the aggregate to $614.90.

On Wednesday, Thursday and Friday, little of importance was done. A number of bills of minor interest were presented, and referred to appropriate Committees. Resolutions asking for appropriations of moneys for public works were presented and laid on the table, to be considered in connection with the appropriation bill. Mr. Palohau offered a resolution directing the Sergeant-at-Arms, to provide the members with dinner at the noon recess, which was very properly defeated.

On Saturday, Mr. Gibson reported from the Committee of Finance, an Act repealing chapter 58 of the laws of 1876, recommending the passage of the bill, which was laid on the table until after the Committee on Foreign Relations make their report on the same subject. Also, an Act providing for the licensing of all Life, Fire, Marine and other Insurance companies doing business in this Kingdom, recommending its indefinite postponement. A motion to adopt the report of the Committee was indefinitely postponed. Mr. Cleghorn, Chairman of the Committee on Enrollment and Revision, reported a number of bills as committed, which were ordered to be prepared for second reading in their regular order. His Excellency, the Minister of Interior, said the people brought here by the Storm Bird, under the care of the Board of Immigration, had all been disposed of, the information he received from Capt. Jackson, was that they are a healthy people, free of disease, well disposed toward our people having great regard for our King and Country, recognising Hawaiians as the head of the Polynesian race. An appropriation of money by the Assembly for assisting the Board of Immigration was positively necessary to enable them to further prosecute the work. The Storm Bird will hereafter fly the Hawaiian flag. His Ex. offered the following resolution:

Resolved, That the sum of $1000 be placed at the disposal of the Minister of Interior to fit out the Storm Bird for a second voyage, and that said amount be included in the Appropriation bill, when it is being considered by this Assembly.

Mr. Pilipo moved the resolution be laid on the table until after the Special Committee, appointed May 18, in reference to the Mist Expedition, make their report. Agreed to. Mr. Kaneali, offered a resolution, that the House be a committee authorized to visit the Queen's Hospital, Insane Asylum, Hawaiian Hotel, and Prison, and the expenses thereby incurred be paid out of the Legislative appropriation. Agreed to.

On Monday Mr. Bickerton of the Special Committee, to examine into the Mist Expedition, reported at length, reflecting upon the course of Capt. Mist, in his disregard of instructions. The report was signed by all the members of the Committee, except Mr. Wilder, who dissents from it. Mr. Bickerton expressed his willingness to have the Storm Bird make the second voyage, if the Immigrants could be brought here at reasonable cost, and would favor the resolution asking for an appropriation to fit out the vessel for that purpose. Mr. W. R. Castle moved the report be accepted and laid on the table. Mr. Wilder moved to amend by adding the following: That the resolution offered by the Minister of Interior on Saturday last, be now considered, which was accepted by Mr. W. R. Castle. Mr. Wilder said it was important to finally dispose of the resolution at present, for by so doing, would be exercising economy, which was his object in proposing the passage of the resolution. The vessel should be fitted out immediately and sent on her mission. Mr. Kaai, was of the opinion, that the report of the Committee and resolution should be considered separately, containing as they do, two separate and distinct propositions, and favored the adoption of the report first. The President ruled that the amendment offered by Mr. Wilder, was irregular. Mr. Wilder said while submitting to the ruling of the President, he nevertheless desired a consideration of the resolution at this time, on the ground of economy, the vessel was idle under daily expenses, which should be avoided. The money asked for by the resolution is simply an advance, it will be paid back by the persons employing these Immigrants. The report states the facts, only they should have been differently expressed, by saying the disaster Capt. Mist had to encounter, and failing to return empty-handed, he did the best he could under the circumstances. Seemed regretfully a criticism. Quite a very few people are the equal of the Hawaiian, but this is no opposition to importation from Polynesia, and it is for the Assembly to say whether it shall be done or not. Mr. Gibson moved the report of the Committee be printed and made the order of the day for Thursday, which was adopted, and the original motion as amended, agreed to. Mr. Dagueno on behalf of the Committee, introduced an invitation to members of the Assembly to attend the sports at Kapiolani Park to-morrow. The public report of the report was presented and discussed.

Death's Pleasant Tours.

The Philadelphia Chronicle, of April 20th, has quite a somebody in regard to the Pacific Guano Company's new steamer "State of Delaware." It reads as follows:—"The Mercury says that when the gale in the Pacific was with its fullest force, a vessel was in the Pacific, but in spite of the tempest, she ploughed her way through the Pacific, and safely reached her destination. Some say she is for the Hawaiian Government, while others claim that she is to be a privateer in case of war between England and Russia. Several persons who are known to have been in the service of the Russian Government have been seen in the vicinity."

Twenty-six years ago a man came from Williamsburg, Mass., to California, buying $700 on a loan in a farmer, in which he put more trust than in savings banks. He wrote letters about the money from time to time, and supposed it was safely drawing interest. Recently he went across the continent to collect it, the sum of principal and interest amounting to $3,500; but the farmer, who is very wealthy, refused to pay a cent, on the ground that the note was outlawed. The man had to borrow money with which to come to California.

The Secretary of State at Washington has received a letter of thanks from the London Colonial Office of Great Britain, for the services rendered to the people of New Zealand by our Government through the Federal Fish Commissioners, by placing the colonies in possession of a large supply of California salmon, which have thriven in the waters of New Zealand beyond the most sanguine expectations.

Henry Goodrich is a music teacher. He has traveled from place to place until he has taught music in every State in the Union. It is said that he married seven of his pupils, and most of the States are yet to be heard from. In Clarksburg, Va., he enlisted his former matrimonial exploits by marrying two girls in the same village. He is now in jail.

The petroleum industry of Pennsylvania is said to be overdone. The daily production of oil is over 40,000 barrels, while the total consumption of the world is estimated at only 25,000 bbls per day.

The 800,000 inhabitants of Philadelphia occupy 182,000 dwellings, spread over 130 square miles of ground. The 1,000,000 of New York live in 70,000 houses crowded into one-fourth the space.

FOREIGN NEWS.

By the arrival of the City of New York from Sydney and Auckland, we have dates from the latter city to May 28th, and London telegrams to the 26th.

ATHENS, May 22.—Severe but indecisive fighting has taken place at Crete.

CONSTANTINOPLE, May 23.—A great fire has occurred here, which destroyed the palaces of the Minister of Justice and the Supreme Council of State.

The Russians are advancing within the neutral zone.

LONDON, May 23.—Supplimentary army estimates were introduced by the Government to-day for the Indian Contingent of the army, and for an increase to the Navy on the New Zealand station.

May 24.—Hopes for the maintenance of peace are greater.

A portion of the palace of the Sublime Porte was burned. The fire is supposed to have been accidental.

May 26.—A Cabinet Council held yesterday, when Schouvaloff's proposals were considered. The Council is summoned for to-day, when the final resolution of the British Government is expected.

The Congress will be held in June. It is expected that early invitations will be issued to the Powers.

The Home guard of England number 170,000 men, of whom 133,000 are infantry, 32,000 artillerymen, 7,000 engineers, and the remainder mounted rifles and permanent staff. These men are all well trained in their respective arms of service. Add to those the yeomanry and the militia, and the number of England's defenders is raised to 300,000 men.

The Postmaster General has officially informed Congress that $900,000 is required to supply the deficiency for compensation to postmasters, and $1,187,787 to supply deficiencies in postal revenues for the fiscal year ending June next. He says these appropriations are necessary to properly conduct the service of the department.

One of the oldest and best known light-house keepers on the Atlantic coast is a woman, Kathleen Andre Moore, of Black Rock Lighthouse, near Bridgeport, Conn. She is sixty-five years of age, has tended the lighthouse lamp for fifty years, and lives in her little house with only two dogs and a pet lamb.
