COMMERCIAL.

HONOLULU, DEC. 4, 1878.

Business still remains quiet, nothing of importance having transpired since our last issue. Considerable activity seems to prevail among our coasting fleet in shipping supplies to planters and others all over the group.

The foreign arrivals since our last were—Am bark Harbert Black, from Portland, Oregon; bk J B Southard, from Newcastle, N S W, with coals; Haw bark Kaiulani, from San Francisco, with assorted cargo to C Brewer & Co; Brit steamer Leolania, also from San Francisco with passengers and merchandise to H Hackfeld & Co.

The departures for the same time were—Am barkentine Roanoke for port Gamble; Am schr Mary Swan, with a full cargo of island produce, dispatched by W G Irwin & Co; Am bark Jenny Pike, for Port Gamble; Brit steamer Leolania, for Auckland and Sydney, dispatched by H Hackfeld & Co.

By the Leolania we learn that the San Francisco market for island staples was unchanged—sugar is quoted at 8 @ 8½c per pound.

The B C Murray had not reached San Francisco on the departure of the Leolania.

DIED.

ADAMS—At Boston, Mass., November 6th, Edna Rose, beloved daughter of Edward P. and Ellen F. Adams. Aged 4 months, 27 days.

MASONIC.—At the regular meeting of Hawaiian Lodge No. 21, F. and A. M., held at their Lodge Room, Queen street, on Monday evening last, the following gentlemen were elected to serve during the ensuing year: W.·.M.·., L. Way; S.·.W.·., Robert Gray, re-elected; J.·.W.·., H. J. Nolte; Treasurer, F. A. Schaefer, re-elected; Secretary, D. K. Fyfe.

PASSPT.—On former occasions the steamers touching at this port have been subjected to more or less delay, awaiting the arrival of the Pilot, which had given rise to dissatisfaction on the part of their Captains and passengers, the latter being impatient to reach *terra firma*. Last evening, a pleasant contrast was shown to the former practice, by the promptness with which Captain Shepherd was on hand to take charge of the steamer Zealandia, and guide her safely into port, much to the gratification of all on board. His example is worthy of emulation.

☞ Thursday last, the 28th of November, being the 20th anniversary of the recognition of Hawaiian Independence by England and France, passed off quietly, the only public demonstrations being a royal salute at noon fired from Punchbowl battery, and a grand concert in the afternoon, at Emma Square, given by the Royal Hawaiian Band, under the leadership of Prof. Berger, which was largely attended and duly appreciated by those who remained in town. Thanks was very generally observed by a suspension of business, and all government offices were closed. In the absence of any public programme for celebrating the day in a becoming manner, numerous private parties, luaus, and picnics were given in the city and suburbs. The most notable among the latter, was that of Captain and Mrs. Whitney at Waikiki, at which a large concourse of ladies and gentlemen were present. The ceremonies were opened with a splendid repast which did credit to all concerned, and was followed by music, dancing and other amusements, which made the occasion a most enjoyable one, and all returned to the city well pleased with the manner in which they had spent the day at the sea shore. In town horseback riding was indulged in by the native portion of our citizens, as is their custom on holidays. Towards evening several arrests were made by the police for drunkenness, fast riding and other minor offences, all of which were promptly and judiciously disposed of by His Honor Judge Jones, on Friday morning last; apart from this nothing occurred to mar the pleasures of the day.

NOTES OF THE WEEK.

☞ Whitney & Robertson have received a fine assortment of choice goods, &c., suitable for presents during the coming holidays. See advertisement.

☞ The coasting steamer Waimanalo has had her external appearance changed by being painted black. It is a mooted question as to whether she has been improved thereby or not.

FOUND—A key, near the corner of Nuuanu and Beretania streets. Any person who may have lost such an article can have the same restored by calling at this office and proving their property.

☞ The boat race between the gig's crew of H. B. M's ship Opal and the shore crew of His Majesty's boat, has been postponed, we understand, until after the return of the Opal from Hilo, Hawaii.

☞ The Merchant's Exchange, San Francisco, and Purser McDonald of the Zealandia, have our thanks for news favors. We also acknowledge a similar courtesy from Messrs Whitney & Robertson of late papers per bark Kaiakaua.

☞ Mr. Adams will to-day, on the wharf in front of the Custom House, dispose of for account of whom it may concern, a large quantity of detached sugar machinery, and other articles saved from the wreck of the Eskbank.

☞ By letters received from Makawao, Maui, we learn that in that section the Pluvial gods have been liberal, and that all the streams are running full, and that Mother Nature has donned her most verdant hue. We hope to hear similar accounts from other sections of the group.

☞ A meeting of the Malie Social Club will be held on Thursday evening the 5th inst., at the usual time and place. The attendance of every member is requested as officers will be elected for the ensuing year and arrangements made for a proper celebration of the coming anniversary of the club.

☞ Do not forget the sale of splendid household furniture by Mr. Bartow, to-morrow, at the residence of Mrs. Von Pfister, Nuuanu Avenue. At the same time and place will also be offered the valuable homestead of Mrs. Von Pfister. To those in search of a really pleasant and healthy location, this offers a desirable opportunity.

☞ We are requested to state that there has existed no precedent in the Foreign Office here for the past ten years, whereby that Bureau is required to notify foreign officials of the regularly established national holidays of this Kingdom. The public holidays are officially announced as they occur in all the local papers of this Kingdom.

☞ The success attending the efforts of the workmen under the superintendence of Mr. Wm. Wilder, engaged in removing the cargo from the wreck of the Eskbank, is, no doubt very gratifying to the purchasers of the wreck, Messrs Wilder & Co. Large quantities of round, flat, bar, band and hoop iron, fence wire, and pieces of sugar mill machinery were secured last week.

☞ Some months since we published a remarkable sermon by Canon Farrar, on the future state. In this issue, on the fourth page, will be found another sermon on the same interesting subject, by the Rev. C. H. Spurgeon, which we hope our readers will peruse with care. Those two divines being celebrated, their particular views on the subject of a future punishment ought to command a careful perusal.

☞ Mr. Thos. G. Thrum has just issued the "Hawaiian Annual Directory and Calendar" for the year 1879. This publication has in former years been issued by the publisher of the GAZETTE, but on the present occasion Mr. Thrum has assumed the responsibility. It has been thoroughly revised and corrected, and many additions made to it, thereby rendering it invaluable to all classes of our citizens. Price 50cts. on card; 25cts. on paper.

MOONLIGHT CONCERT.—The Band will play tomorrow evening at half past seven in Emma Square. The following is the programme:

March, Coronation ..... Meyerbeer.
Overture, The Concert at Court ..... Auber.
Cavatina, Opera "The Pirate" ..... Bellini.
Selection, Opera "The Fledermaus" ..... Strauss.
Selection, Opera The last Days of Pompeii, Petrella.
Waltz, Little Nell ..... Godfrey.
Gavotte, Secret Love ..... Resch.
Quadrille, In Masque ..... Faust.

☞ The following officers were elected by Lodge le Progres de l'Oceanie No. 124 A. F. & A. M., on (Monday evening) November 25th 1878:

W. M—David Dayton; S. W—William Auld; J. W—James S. Lemon; Orator—Alex McDuff; Secretary—J. M. Oat, jr; Treasurer—Jno. S. Walker; 1st Expert—Wm B. Wright; 2nd Expert—Jno O. Dominis; Senior Master of Ceremonies—James Dodd; Keeper of Seals and Stamps—Kalakaua; Keeper of Archives—Wm G. Irwin; Deputy to Grand Central Lodge—T. H. Rems; Almoner—Jno K. Widder; Master of Banquets—P. Opfergelt; Tyler—T. R. Lucas; Senior Deacon—F. Higgins; Junior Deacon—Ed. Kistler; Br Servant—George Heuston.

☞ We would call the attention of our readers to the advertisement in to-day's paper, in which Col. Claus Spreckels proposes to let out in sections the work of excavating the large irrigation ditch which he intends constructing on the Island of Maui. This ditch will be one of the most gigantic enterprises ever attempted on the Islands, and the plan which Col. Spreckels is adopting, of letting the work of excavating out in small jobs, is a good one, as it will enable small companies of natives and others to club together and take contracts for as much of the work as they are able to perform. Messrs. W. G. Irwin & Co., the agents for the enterprise at Honolulu, will give any information required regarding the ditch, though in order to make satisfactory contracts it will perhaps be necessary to visit Maui, for as the nature of the soil varies in different localities and the labor of excavating is correspondingly greater or less as the case may be, it would be better for the party or parties contracting to be on the spot and there determine on a price for the work to be performed. Mr. H. Schussler, who resides at Haiku and has charge of the whole affair, will there make contracts and give all the information necessary.

A RUNAWAY.—On Monday afternoon a dray horse took it into his head to show what he knew about running away. Where he first got up steam we did not learn, but when first seen he had got clear of the dray, and was coming up Queen street towards Nuuanu, at a furious gait, with the harness on and a heavy whiffletree attached to one of the traces, which made it prudent to give him a wide berth. On reaching the store of Messrs A. W. Peirce & Co., he suddenly wheeled round that building to the rear door, which being open, he dashed in and through the store to the street, where he fell, and before he could arise and resume his race, was secured. In the store at the time were quite a number of gentlemen arguing various knotty problems, among whom was the veteran Captain Marchant, discussing with another gentleman, a question on theology, with every prospect of success on his side, when the horse appeared in their midst. It is needless to say that all further argument was promptly suspended, and that each gentleman present commenced making the best time he could for the door. All succeeded in escaping without injury. On reassembling, after quiet was restored, it was ascertained that the gallant Captain was not present, whereupon grave fears were entertained for his safety, and up to the present time he had not put in an appearance. We hope he did not attempt to catch the whiffletree as the horse dashed passed him.

LABORERS' WAGES.—It cannot be denied that the rate of wages paid to day laborers at these islands is advancing beyond what may be considered as justifiable. It is not uncommon to pay laborers here a dollar and a half and even two dollars per day, for nine and even eight hours work on the wharves. And on some plantations, we hear that one dollar a day is paid, though the customary rate is 50 to 60 cents a day. Compare the wages paid here with what they are in the old country, as given in an exchange:

"In Dublin skilled mechanics are getting but $1 12 per day, while unskilled labor receives but $3 a week. In the district about Dublin farm hands receive from 1s. 2d. to 2s. 6d. a day. At Cork farm hands receive 48 cents a day; coal heavers, machinists, gaffitters and bakers, $1 09; masons, shoemakers, painters and joiners, $1 21. Laborers on public works get from 45 to 60 cents a day. Railroad engineers receive from $1 21 to $1 70 a day, and conductors from $4 38 to $7 29 a week. In Scotland day laborers are paid from 48 to 72 cents a day. Passenger conductors receive $6 48 a week; freight conductors, $7 20; porters, $5 04. Shoemakers, paid by the piece, earn $1 a day. Printers on night work make from $11 to $18 a week. It is estimated that the general average of increase of wages in America above those paid in Great Britain is 20 per cent."

The only way to check the rapid increase in the wages of unskilled laborers, is to introduce a larger number, and this we trust the Board of Immigration will accomplish.

News Items.

Princess Bismarck has preserved all the simplicity of her youth. She is a perfect specimen, in the best sense of the word, of the German Hausfrau (housewife). She is very quiet, bears her honors as the most natural thing in the world, holds fast by the old friends of humble days, and has but one great object in life—to make her husband and children happy. She cares for them in a peaceful, motherly way; and her serenity and patience, which have always secured for Bismarck a quiet home, have certainly contributed to his success through life. "She it is," he once said to a friend, "who has made me what I am." They have three children—Marie, Herbert and William. Herbert is his father's private secretary; William has studied for the bar. Both will enter Parliament this year.

THE PRINCESS ALICE DISASTER.—A pharmaceutical chemist writes as follows to the London Times concerning the Princess Alice disaster: "When 600 men and women are plunged into a river only a mile wide, it is astonishing that only five or six should have saved their lives by swimming. It is no less astonishing that so many died immediately after immersion. The reason will probably be found to be in the quality of the water. Close to the site of this dreadful catastrophe are the two great metropolitan outfalls, on the north bank of the river at Barking, on the south at Belvidere. At high water, twice in every twenty-four hours, the flood-gates of these out-falls are opened, when there is projected into the river two continuous columns of decomposed fermenting sewage, hissing like soda water with baneful gases, so black that the water is stained for miles and discharging a corrupt charnal house odor, that will be remembered by all who have passed through it on these summer excursions, as being peculiarly depressing and sickening. As sewage when extremely diluted—say one drop in 10,000, will, when taken in milk or in water, induce typhus or other fevers, it will probably be found that when taken in a concentrated form, sewage, especially when in a state of active decomposition, is a true poison relatively as fatal as prussic acid."

NEW ADVERTISEMENTS.

NOTICE.

Mr. Claus Spreckles, of California, intends to construct a large Ditch on the Island of Maui, for irrigating purposes. Any person or persons willing to excavate or dig 500 feet or more of this ditch by contract, and be paid for such work either by the number of cubic feet or by the number of running feet of the ditch excavated, are requested to apply to H. Schussler, Haiku, Maui, or to Wm. G. Irwin & Co., Honolulu, who will give them the necessary information.

REAL ESTATE FOR SALE.

RARE CHANCE TO SECURE

VALUABLE PROPERTY.

THE UNDERSIGNED OFFER At Private sale the fine tract of 14½ acres of land on Beretania Avenue, east of Kawaiahao Church, bounded on the north by Punahou College Road. There are on it about 1000 trees, mostly Algaroba, with a few Monkey Pod, Blue Gum, Gum Arabic, Mango, Orange and Lemon Trees, and it is enclosed with a stone wall in rear and fence in front.

The frontage on Beretania Avenue is 1,477 feet, on Punahou College Road 617 feet, and on the Metcalf Road 318 feet, making a total street front of 2,410 feet. The land lies with a gentle slope toward the sea, and needs no grading for building. There is also on it a well of excellent water. It is, however, quite probable that the water will be brought from Manoa Valley toward the city by the Government.

Less eligible lots on the Waikiki plain, lying between the city and this tract, have been selling at the rate of $600 an acre. The entire tract is offered at the rate of $400 per acre.

This land lies about 1½ miles from the new Parliament House, in a neighborhood that is being rapidly built up, near Punahou School, and is believed to be the most desirable property around Honolulu now in the market.

The title is the best in the Kingdom—a Royal patent. A clear title will be given, free from all encumbrance.

A plan showing the neighboring land and owners may be seen at the office of the undersigned.

Glenn's
SULPHUR SOAP

Is the Leading Remedy

For Diseases, Injuries, and Morbid Conditions of the Skin,

In the case of **Glenn's Sulphur Soap**, when that Peerless Beautifier is used to banish diseases of the skin and blemishes of the complexion, it infallibly succeeds in producing the desired effect.

IT RENDERS THE COMPLEXION FAIR AND SPOTLESS. Cures Rheumatism and Gout. Insures all the remedial advantages of Sulphur Baths. Disinfects Clothing and Bed Linen. Remedies Dandruff and prevents Premature Grayness and Loss of the Hair.

There are wretched imitations of this standard article in the market. Use no Sulphur Soap except Glenn's.

For Sale by M. McINERNY.
